Letter sent to P.M. 9/25/44 (ans. by Leon G. Brock)

10/3/44 - Planted on a small farm just north of Brewton on Appleton Road. 2 trees were ^(both this year) living ^{from} heavy producer now 40 ft high, 4 ft diam. Tree given no attention. Doesn't know what killed the tree that died this year.

11/2/44 - The living tree measured 126" at 40" from ground, below the point where trunk separates into 2 large branches. Dead tree about 200 ft from live tree.

2/2/44 - Specimen of wood from living tree sent in by P.V. Siggers. Attached hereto is sketch of the living & the dead trees. Mycelial fan specimen with the wood specimen. -- P.V.S.
