

Crop increases in value between ^{\$}150 and ^{\$}200
each year per ten year trend. -AC

Trans. Ill. State Acad. Sci. Feb 1925, Vol. XVIII, p 144: Mr. Riehl in
1924 had a young chestnut of Fuller variety, five years from
graft, which produced 31 burs, 3 nuts to burr. The Fuller
variety is superior to Boone, Blair and Riehl in quality of nut.
