Mollissima

1, 9

Frederick D. Woods, Supt. of Grounds,
Wellesley College, Wellesley, Mass.

Nov. 26, 1923. Prof. Collins advises he will write Woods regarding sending of 10 or a dozen plants which he wishes to get rid of. Suggests that Woods is a good man to have on mailing-list for exp. plantings.

Alexandra Bot. Gar. & Hunnewell Arbor.
Mr. Helen L. Davis, Director

4/4/39 - 25 MBG - C. mollissima
5 GZ C. crenata.

4/13/39 - Rec. ack.

5/3/45 - Mr. Davis can find 14 trees, with the moll.

"doing very well" in 11 places, now 4 to 7 ft tall.

3 Japs now 1 1/2 - 3 ft high but "appear rather weak." All on poor campus soil & gravel

under a - 4-6" layer of fairly good loam, except orig. planting holes - 2 ft. diameter & 1 ft deep filled with good loam. C. mol. made best growth on edge of (some)
