

CAES

The Connecticut Agricultural Experiment Station

Putting Science to Work for Society since 1875

CAES Seminar Series

**"Surface-enhanced Raman spectroscopy:
a next generation analytical tool for
detection and characterization of
nanoparticle contaminants"**

Dr. Lili He

Department of Food Science
University of Massachusetts, Amherst

Wednesday, November 4, 2015
12:00 noon to 1:00 p.m.

Pizza, salad, and coffee will be available at 11:45 a.m.

Jones Auditorium
The Connecticut Agricultural Experiment Station
123 Huntington Street, New Haven, CT

Dr. He is an Assistant Professor in the Department of Food Science at the University of Massachusetts. Her work is focused on using Surface-Enhanced Raman Spectroscopy (SERS) for food safety, food chemistry, and food bioscience applications.
