CONNECTICUT SITING COUNCIL
INTERVENOR STATUS REQUEST FORM

Docket/Petition No. 192B Town/City Oxford

Name: Marian R. Larkin, individually, and on behalf of Greenfields, LLC (in her capacity as manager of Greenfields, LLC)

Address: c/o Edward S. Hill, Esq., Cappalli & Hill, LLC, 325 Highland Avenue, Cheshire, Ct 06410

Phone Number: 203-272-2607

Fax Number: 203-271-3850

E-Mail Address: ehill@cappalihill.com

1. Manner in which petitioner claims to be substantially and specifically affected:

Marian Larkin is the owner, both individually and as a co-owner with other family members, of significant real estate, a large portion of which is located within approximately one mile of the proposed facility. She is the manager of Greenfields, LLC which is a family-owned limited liability company that also owns significant real estate within approximately one mile of the proposed facility.. The properties in which petitioner has an interests consist mostly of land that is devoted to use as farm or forest land and conservation purposes.

The proposed facility will have a material and adverse impact on the land that petitioner owns or has an interest in on account of the following:

- The rural character of the land would be irretrievably compromised by the physical impact of the facility and the results of its operations.
- The ridgeline as seen from the property would be severely compromised.
- The potential for future development of the land and the value of the land for such development would be damaged by the location of and emissions from the facility.

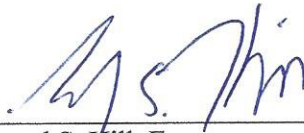

- Emissions from the facility both odor and particulate matter will be a health hazard for those people living on the property or using the property for equestrian and other recreational uses, including the Larkin Bridle Trail, a State-recognized and protected regional asset.
- Emissions from the facility will adversely impact on the haying operations conducted as part of the farm uses by reducing the quality and quantity of hay and introducing hazardous or toxic substances into the hay. Similarly, the emissions will adversely affect the forest land/timbering operations by reducing the quantity and quality of timber produced in the forest areas.
- Emissions from the facility will have a deleterious impact on the eco-systems of the property and adversely impact on wildlife and habitat.

Petitioner reserves the right to supplement the points contained in this application.

2. Manner and extent to which petitioner proposes to participate:

Petitioner contemplates participation by presentation by, or on behalf of, petitioner, of documentation, presentation of expert testimony and presentation of written and/or oral evidence.

Copies of this request shall be electronically mailed to all participants at least five days before the date of the hearing.

Signed  Date January 7, 2015
Edward S. Hill, Esq.
Attorney for Marian Larkin
