1. Manner in which petitioner claims to be substantially and specifically affected:  
As an Audubon chapter our purpose is to preserve and protect our natural surroundings, and to educate the public about our environment and its benefits. The proposed power plant is within one of the towns we serve, and will impact other towns we are active in, as well as the Naugatuck State Forest, which is an Audubon Important Bird Area.

Our specific concerns will be outlined in a letter to follow.

2. Manner and extent to which petitioner proposes to participate:

We would like the opportunity to present evidence and give testimony orally and/or in written form. We would like to be able to question the submissions and findings put forth by the applicant and reserve the right to call expert testimony if necessary.

Copies of this request shall be electronically mailed to all participants at least five days before the date of the hearing.
