LLC Motion to Reopen and Modify the :
June 23, 1999 Certificate of :
Environmental Compatibility and Public :
Need based on changed conditions :
pursuant to Connecticut General Statutes :
§4-181a(b) for the construction, :
maintenance and operation of a 785 MW :
dual-fuel combined cycle electric :
generating facility located north of Prokop :
Road and Towantic Hill Road intersection :
in the Town of Oxford, CT : December 18, 2014

PRE-HEARING SUBMITTAL OF THE CONNECTICUT LIGHT AND POWER COMPANY

I. Witness List

The Connecticut Light and Power Company's ("CL&P") witness for this proceeding will be:
Mr. William O'Hara, Manager-Transmission Interconnections & Services, Northeast Utilities
Service Company.

II. Subjects of Pre-filed Testimony

CL&P anticipates that its pre-filed testimony will address the components of the planned switching station and the transmission line loops that would constitute the interconnection between three existing CL&P 115-kilovolt transmission lines and CPV Towantic, LLC's ("Towantic") proposed generating facility. In addition, CL&P's testimony will seek clarification, if the Connecticut Siting Council (the "Council") grants Towantic's requested certificate modification, that CL&P is authorized to own and operate the planned switching station and three transmission line loops into the switching station.

III. Administrative Notice Documents or Exhibits

CL&P does not expect to request that the Council take administrative notice of any documents and does not expect to file any exhibits in this re-opened proceeding.

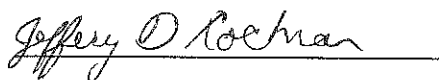

CL&P reserves the right to offer additional testimony to address new and pertinent information that it receives and to address topics that may arise during the proceeding.

Also, please enter the following appearance on behalf of The Connecticut Light and Power Company in this proceeding:

Jeffery D. Cochran
Northeast Utilities Service Company
107 Selden Street
Berlin, CT 06037
