Mr. S. Derek Phelps  
Executive Director  
Connecticut Siting Council  
Ten Franklin Square  
New Britain, Connecticut 06051

Re: Docket No. 343, MCF Communications, Inc.  
237 Sandy Hollow Road, Groton, CT

Dear Mr. Phelps:

On behalf of MCF Communications bg, Inc. ("MCF"), the Certificate holder, enclosed please find **22** sets of plans and other development and management plan ("D&M") materials relevant to the Groton Facility approved by the Siting Council in Docket No. 343. The enclosed items are being filed in accordance with the Council's Decision and Order and Certificate of Environmental Compatibility and Public Need ("Certificate") dated March 28, 2008.

Development and Management Plan

The proposed Development and Management ("D&M") Plan for the Groton Facility includes a steel monopole 130' above grade level ("AGL"), as provided in Order No.1. As shown in the enclosed design documents, the tower and foundation are designed to accommodate four platforms and associated carrier antennas. Omnipoint Communications, Inc. d/b/a T-Mobile ("T-Mobile") will install its panel antennas with the top of the antennas not to exceed 127' AGL.

As required by Order Nos. 2-4, the proposed D&M Plan includes detailed plans of the compound, carrier equipment building, fencing, landscaping, access road and utility line. As can be seen, the tower is shown 60 feet to the north of the 35-foot by 50-foot equipment compound, as required by Order Nos. 2 and 3. Also included are construction plans for the site clearing, drainage and erosion and sedimentation control measures consistent with the 2002 Connecticut Guidelines for Soil Erosion and Sediment Control, as amended.

MCF, prior to commencement of operation and as provided in Order No. 5, will provide to the Council worst-case modeling of electromagnetic radio frequency power density of all proposed entities' antennas at the closest point of uncontrolled access to the tower base.

As required by Order No. 12, MCF will provide to the Council written notice of completion of site construction and commencement of site operation.

Conclusion

In accordance with the provisions of RCSA Section 16-50j-77, MCF hereby notifies the Council of its intention to commence clearing and related site work immediately upon D&M plan approval and to commence other construction activities immediately upon issuance of a building permit by the Town of Groton. The supervisor for all construction related matters on this project is Mr. Brad Gannon. Mr. Gannon can be reached by telephone at (401) 952-4756.

We respectfully request that this matter be included on the Council's next agenda for review and approval. In the event that the Council requires additional information prior to completing its review of the D&M Plan, MCF respectfully requests that partial approval be granted in order to allow MCF to commence clearing and excavation work. Thank you for your consideration of the enclosed.

Respectfully submitted,

Carrie L. Larson
