

Photo Simulations - Key Map

-  **Tower Location**
-  **Photo Simulation Locations**

Photo Simulation 1 – View from Peck Road, between Pembroke Road and Barnum Road, looking northwest. Distance to site is approximately 0.05 mile. Winter condition. Monopole is shown with one array of antennas.

Photo Simulation 2 - View from Peck Road, between Barnum Road and Pembroke Road, looking northeast. Distance to site is approximately 0.15 mile. Winter condition. Monopole is shown with one array of antennas.

Photo Simulation 3 – View from the peak of Huntington Drive, looking southeast. Distance to site is approximately 0.59 mile. Winter condition. Monopole is shown with one array of antennas.

Photo Simulation 4 – View from Society Hill Road, between Barnum Road and Huntington Drive, looking east. Distance to site is approximately 0.43 mile. Winter condition. Monopole is shown with one array of antennas.

Photo Simulation 5 - View from Society Hill Road, looking east. Distance to site is approximately 0.41 mile. Winter condition. Monopole is shown with one array of antennas.

Photo Simulation 6 – View from the north corner of Kevin Drive and Pembroke Road, looking northwest. Distance to site is approximately 0.11 mile. Winter condition. Monopole is shown with one array of antennas.

Photo Simulation 7 – View from the north corner of Bear Mountain Road and Pembroke Road, looking southwest. Distance to site is approximately 0.25 mile. Winter condition. Monopole is shown with one array of antennas.

Photo Simulation 8 – View from Hollandale Road, looking southwest. Distance to site is approximately 0.23 mile. Winter condition. Monopole is shown with one array of antennas.
