RE: **DOCKET NO. 370** - The Connecticut Light & Power Company Certificate of Environmental Compatibility and Public Need for the Connecticut portion of the Greater Springfield Reliability Project that traverses the municipalities of Bloomfield, East Granby, and Suffield, terminating at the North Bloomfield Substation. Request to Revise Decision and Order Condition No. 7.

Dear Attorney Fitzgerald:

At a public meeting of the Connecticut Siting Council held on May 24, 2011, the Connecticut Siting Council considered and granted approval to The Connecticut Light & Power Company to allow work on this project to commence in areas not subject to State of Connecticut Department of Environmental Protection or Army Corps of Engineer Permits. However, work shall not be permitted within 50 feet of delineated boundaries of wetlands subject to such permits.

Please be advised that deviations from this approval are enforceable under the provisions of the Connecticut General Statutes § 16-50u.

Thank you for your attention and cooperation.

Very truly yours,

Robert Stein *RS*
Chairman
