RE: **DOCKET 370** – Consolidated proceeding pursuant to the Connecticut Energy Advisory Board (CEAB) Request for Proposal (RFP) process under C.G.S. §16a-7c. **Original application:** The Connecticut Light & Power Company application for Certificates of Environmental Compatibility and Public Need for the Connecticut Valley Electric Transmission Reliability Projects which consist of (1) The Connecticut portion of the Greater Springfield Reliability Project that traverses the municipalities of Bloomfield, East Granby, and Suffield, or potentially including an alternate portion that traverses the municipalities of Suffield and Enfield, terminating at the North Bloomfield Substation; and (2) the Manchester Substation to Meekville Junction Circuit Separation Project in Manchester, Connecticut. **Competing application:** NRG Energy, Inc. application pursuant to C.G.S. §16-50/(a)(3) for consideration of a 530 MW combined cycle generating plant in Meriden, Connecticut.

---

At the joint hearing held on Tuesday, September 22, 2009, the Connecticut Siting Council (Council) and the Massachusetts Energy Facilities Siting Board (EFSB) voted to deny the admission of the Citizens Against Overhead Power Line Construction's (CAOPLC) Pre-filed Testimony of Richard Legere dated September 15, 2009, on the basis that this testimony was outside of the scope of the joint hearing, which was specifically limited to the environmental impacts, and relative costs and reliability concerns, of the Northern and Southern Routes, exclusive of need.

The Council, however, will place this item as a proposed exhibit item for admission in the continued evidentiary proceedings for Council Docket 370.
