Daniel M. Laub Cuddy & Feder LLP 445 Hamilton Avenue, 14th Floor White Plains, New York 10601 Tel 914.761.1300 Fax 914.761.5372

Dear Mr. Laub:

The following are CHA's responses to the interrogatories for the telecommunications site located at 85 Paper Mill Road in Woodbury, CT:

Q3. Is the site parcel 34 or 35 acres in size?

Based on a review of the property card, the subject parcel is 34.18 acres. Therefore, we can conclude the parcel is approximately 34 acres.

O4. What is the distance and direction from the tower site to the nearest residential dwelling not owned by the lessor? Identify the property owner.

The nearest off site residence is 670 feet to the Northeast and is owned by Vincent & Catherine Montalbano.

Q5. Application Exhibit 3 states 15 residences are within 1,000 feet of the site. Does this include the residence on the site parcel?

The residence on the site parcel is included in the 15 residences within 1,000 feet of the site.

O6. Application Exhibit 4, p. 1, states "a private trail is located on Flanders Road". Please elaborate.

The town parks and recreation department indicated there is a small privately owned trail on Flanders road; however, no mapping of the trail was available. The location of this trail could not be located in the field, which did not impact our visual study as we could not walk a privately owned trail. Based on our computer visual analysis, the area surrounding Flanders road is screened by topography, so non-visibility was confirmed even though the trail could not be located or walked.

Q12. Would blasting be required to develop the site?

The presence of ledge will be determined upon completion of a geotech. If ledge is encountered, chipping is preferred to blasting.

If you have any questions or need additional information, please do not hesitate to contact me at (860) 257-4557.

Very Truly Yours,

Paul Luitani:

Paul Lusitani

Project Engineer
