Connecticut Siting Council
10 Franklin Square
New Britain, CT 06051

RE: Docket 378

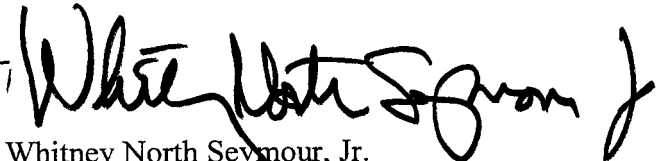

To The Connecticut Siting Council:

Concerned Residents of Warren and Washington, party to the above proceedings, today filed its Motion to dismiss the Application with prejudice and costs. As counsel for CROWW, we request an opportunity to be heard on this motion prior to the Council taking any action on SBA's proposed withdrawal of the Application pursuant to the Larson letter of June 8, 2009.

This is an issue of major importance in this and other proceedings initiated by industry before the Council, and the members of the public, property owners and town officials who have appeared in good faith and have been prejudiced by the cost and effort of responding to the Council's proceedings on the SBA Application have a due process and equal protection Constitutional right to a hearing before the matter is decided.

Gabriel North Seymour
