RE: Siting Council Docket No. 379

Dear Mr. Caruso:

I recently learned of SBA Towers II application to the Connecticut Siting Council ("Council") to construct a cellular telephone tower at 12 Burr Road in Bloomfield.

I share the concerns of other Bloomfield residents who believe this proposal is poorly sited in close proximity to a residential neighborhood -- and would potentially jeopardize the health of surrounding community residents.

I ask that the Council consider these important issues and follow its statutory mandate to consider alternative sites that would limit any impact on residents or community.

Thank you very much.

Very truly yours,

RICHARD BLUMENTHAL
