**Re: Docket 380 - Application of Bay Communications, LLC for the Construction ,
Maintenance and Operation of a Wireless Telecommunications Facility at 170
Southeast Road, New Hartford / EM Pocket-092-090226**

Dear Mr. Phelps:

Youghiogheny Communications-Northeast, LLC, doing business as Pocket Communications' ("Pocket") hereby submits this letter in support of the pending certificate application of Bay Communications, LLC at the above-referenced site in New Hartford. Docket 380 is the resubmission of the Docket 251 and Docket 314, which was last approved by the Council on July 27, 2006. Pocket filed a notice of exempt modification for the installation of antennas and appurtenant equipment on this proposed tower on February 25, 2009. Pocket's application was approved by the Council on March 16, 2009 (EM Pocket-092-090226, copy attached). This letter will serve as notice of Pocket's continued interest in this site and intention to implement it's proposed equipment installation upon completion of the facility.

Please call me if there are any questions or problems. Thank you.

Respectfully Submitted,

Carrie L. Larson

RE: **EM-POCKET-092-090226** – Youghiogheny Communications-Northeast, LLC d/b/a Pocket Communications notice of intent to modify an existing telecommunications facility located at 170 Southeast Road, New Hartford, Connecticut.

Dear Attorney Larson:

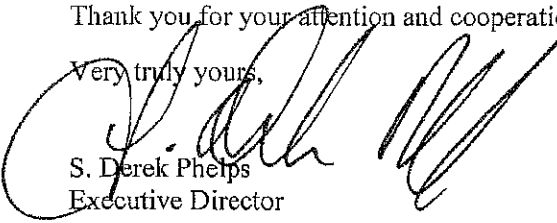

The Connecticut Siting Council (Council) hereby acknowledges your notice to modify this existing telecommunications facility, pursuant to Section 16-50j-73 of the Regulations of Connecticut State Agencies.

The proposed modifications are to be implemented as specified here and in your notice dated February 25, 2009, including the placement of all necessary equipment and shelters within the tower compound. The modifications are in compliance with the exception criteria in Section 16-50j-72 (b) of the Regulations of Connecticut State Agencies as changes to an existing facility site that would not increase tower height, extend the boundaries of the tower site, increase noise levels at the tower site boundary by six decibels, and increase the total radio frequencies electromagnetic radiation power density measured at the tower site boundary to or above the standard adopted by the State Department of Environmental Protection pursuant to General Statutes § 22a-162. This facility has also been carefully modeled to ensure that radio frequency emissions are conservatively below State and federal standards applicable to the frequencies now used on this tower.

This decision is under the exclusive jurisdiction of the Council. Please be advised that the validity of this action shall expire one year from the date of this letter. Any additional change to this facility will require explicit notice to this agency pursuant to Regulations of Connecticut State Agencies Section 16-50j-73. Such notice shall include all relevant information regarding the proposed change with cumulative worst-case modeling of radio frequency exposure at the closest point of uncontrolled access to the tower base, consistent with Federal Communications Commission, Office of Engineering and Technology, Bulletin 65. Any deviation from this format may result in the Council implementing enforcement proceedings pursuant to General Statutes § 16-50u including, without limitation, imposition of expenses resulting from such failure and of civil penalties in an amount not less than one thousand dollars per day for each day of construction or operation in material violation.

Thank you for your attention and cooperation.

Very truly yours,

S. Derek Phelps
Executive Director
