Re: **Siting Council Approved Tower Sites At 445 Prospect Street, Woodstock, Connecticut (Docket No. 397) and 343 Daleville Road, Willington, Connecticut (Docket No. 400)**

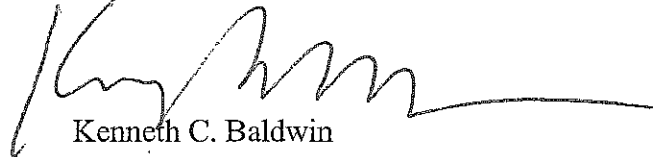

Dear Ms. Roberts:

Cellco Partnership d/b/a Verizon Wireless ("Cellco") intends to proceed with construction of the approved cell sites referenced above. At the time each site was approved by the Siting Council, Cellco was proposing an installation of a 12' x 24' equipment shelter. As you know from several recent filings, Cellco has gone back to its 12' x 30' shelters at all cell site locations so that it may better accommodate the radio equipment being installed.

The purpose of this letter is to notify you that Cellco intends to install a 12' x 30' shelter at each of the above-referenced locations rather than the 12' x 24' shelter described in each of the original applications. Because the site has not yet been constructed, it is my feeling that a more formal Notice of Exempt Modification filing is not necessary to make this change. Please let me know if you feel differently.

Thank you in advance for your cooperation.

Sincerely,

Kenneth C. Baldwin
