Re: Docket 412 – D&M Plan Review  
SBA Towers III Development and Management Plan  
Wewaka Brook Road, Bridgewater, Connecticut

Dear Ms. Roberts:

On behalf of SBA Towers III (“SBA”), we are in receipt of your letter dated June 25, 2012 requesting an extension of time for review of the Development and Management Plan (“D&M Plan”) in the captioned matter. By this letter SBA consents to the extension of the decision deadline to September 5, 2012 with one request.

As discussed with staff, we understand that the Siting Council wishes to review final construction drawings for the approved bridge which our client advises us will be finalized by the beginning of August. We are requesting that the bridge design to be submitted be reviewed at the Council’s August 9<sup>th</sup> meeting and if acceptable that aspect of the D&M Plan approved. As the Council is aware, SBA has a limited window for bridge construction which closes at the end of August which were incorporated as approval conditions by the CSC and by other agencies including the Army Corps of Engineers. The other elements of the D&M plan including access drive and compound improvements could certainly be reviewed and approved at a later time.

We believe this phased approach to the D&M Plan can meet the Councils’ and our clients objectives with respect to overall development of the facility. Thank you for your consideration of the above. Please do not hesitate to contact me should you have any questions or need anything further.

Very truly yours,

Daniel M. Laub
