Re: **Docket No. 414 – 36 Ritch Avenue, Greenwich, Connecticut**

Dear Ms. Roberts:

The purpose of this letter is to provide you and the Siting Council with an update on my client's efforts to complete construction of the approved telecommunications facility at 36 Ritch Avenue in Greenwich.

Since my last update, provided by email to you on October 10, 2012, little has changed with respect to AT&T's efforts to activate its antennas on the new tree tower. According to a report I received this morning, AT&T expects to complete certain "wireless circuit" work by November 26, 2012, but has not given my client any estimate as to when its radio equipment will be moved into the new shelter or when it expects to activate its new cell site. Until that occurs, VerizonWireless cannot complete the removal of the existing AT&T equipment pad and compound fence, remove underground conduit, and, most importantly, remove the existing flag pole tower.

VerizonWireless continues to hope that it will be in a position to complete most of this work before January 19, 2013. We are, however, growing concerned that the winter months are now upon us and our window of opportunity to pave the site driveway this year is closing quickly. We would therefore request that the Council grant a six month extension of the approval to July 19, 2013.

We will continue to provide you with updates on the status of construction as event warrant. We respectfully request that this matter be placed on the next available Council agenda for action. Thank you in advance for cooperation.

Sincerely,

Kenneth C. Baldwin
