Re: SBA Towers III (“SBA”) and
New Cingular Wireless PCS, LLC (“AT&T”)
Proposed Wireless Telecommunications Facility
North Stonington, Connecticut
Application to the State of Connecticut Siting Council

Dear _____:

We are writing to you on behalf of our clients SBA and AT&T with respect to the above referenced matter and our clients’ intent to file an application with the State of Connecticut Siting Council for approval of one (1) proposed wireless communications tower facility (the “Facility”) within the Town of North Stonington. The Facility is being proposed to allow AT&T to provide service in North Stonington. The Application explains the need, purpose and benefits of the Facility and also describes the environmental impacts of the proposed Facility. State law requires that owners of record of property that abuts a parcel on which a facility is proposed be sent notice of an applicant’s intent to file an application with the Siting Council. Three candidate locations are being identified by the Applicants and only one facility (“Facility”) would be constructed.

Candidate A is located at 49 Mountain Avenue (Tax Assessor Parcel Identification Number 45-0832) and would host a 190’ monopole and associated unmanned equipment in a 45’ x 90’ fenced compound in the western portion of the parcel. Vehicular access to the facility will be provided from Mountain Avenue over a new gravel access drive approximately 400’ to the proposed equipment compound. Utilities to serve the proposed facility would extend underground and generally follow the access drive.

Candidate B is located at 23 Northwest Corner Road (Tax Assessor Parcel Identification Number 56-3697) and would host a 190’ monopole and associated unmanned equipment in a 75’ x 75’ fenced compound in the central portion of the parcel. Vehicular access to the facility will be provided from Northwest Corner Road over an existing drive and then over new gravel access drive approximately 380’ to the proposed compound. Utilities to serve the proposed facility would extend underground and generally follow the access drive.

Candidate C is located at 350B Cossaduck Hill Road (Tax Assessor Parcel Identification Number 57-6637) and would host a 190’ monopole and associated unmanned equipment in a 75’ x 75’ fenced compound in the central portion of the parcel. Vehicular access to the facility will be provided from Cossaduck Hill Road over an existing drive and then over a new gravel access drive approximately 510’ to the proposed equipment compound. Utilities to serve the proposed facility would extend underground and generally follow the access drive.

AT&T would mount up to twelve (12) panel antennas on a low profile platform at a centerline height of 187' above grade level. A 12' by 20' equipment shelter will be installed adjacent to the tower within the fenced compound. The Facility will be available for co-location by other wireless carriers. The final location, height and other features of the proposed Facility are subject to review and potential change under provisions of the Connecticut General Statutes Sections 16-50g et. seq.

Balloons, raised to 190' above grade level (AGL) and representative of the proposed Facility height, will be flown at the proposed Candidate sites on the first day of the Siting Council public hearing on the Application, which will take place in Town, or on such other date specified by the Siting Council and a time to be determined by the Siting Council, but anticipated to be between the hours of 12pm and 5pm.

If you have any questions concerning this application, please do not hesitate to contact the Connecticut Siting Council or the undersigned after June 20, 2011 the date which the application is expected to be on file.

Very truly yours,

Daniel M. Laub

NAME & ADDRESS

Re: SBA Towers III (“SBA”) and
New Cingular Wireless PCS, LLC (“AT&T”)
Proposed Wireless Telecommunications Facility
23/25 Northwest Corner Road, North Stonington, Connecticut
Application to the State of Connecticut Siting Council

Dear _____:

Previously we wrote to abutting property owners of 23 Northwest Corner Road on behalf of our clients SBA and AT&T with respect to the above referenced matter and our clients’ intent to file an application with the State of Connecticut Siting Council for approval of one (1) proposed wireless communications tower facility (the “Facility”) within the Town of North Stonington. The Facility is being proposed to allow AT&T to provide service in North Stonington. The Application explains the need, purpose and benefits of the Facility and also describes the environmental impacts of the proposed Facility. State law requires that owners of record of property that abuts a parcel on which a facility is proposed be sent notice of an applicant’s intent to file an application with the Siting Council. Three candidate locations are being identified by the Applicants and only one facility (“Facility”) would be constructed.

By letter dated June 13, 2011 we provided notice to neighbors of abutting property owners of 23 Northwest Corner Road (Tax Assessor Parcel Identification Number 57-6637). In fact, while access to the candidate Facility would be through the parcel at 23 Northwest Corner Road, the proposed compound and monopole would be on the parcel at 25 Northwest Corner Road (Tax Assessor Parcel Identification Number 56-2831). Accordingly this notice is being sent to all abutting property owners of 23 and 25 Northwest Corner Road.

The proposal is for a 190’ monopole and associated unmanned equipment in a 75’ x 75’ fenced compound in the central portion of the 25 Northwest Corner Road parcel. Vehicular access to the facility will be provided through the parcel at 23 Northwest Corner Road, over an existing drive and then over new gravel access drive approximately 380’ to the proposed compound which is on the parcel at 25 Northwest Corner Road. Utilities to serve the proposed facility would extend underground from Northwest Corner Road and generally follow the access drive. The candidate facility is one of three possible locations; the other candidates being sites at 49 Mountain Avenue and 350B Cossaduck Hill Road.

AT&T would mount up to twelve (12) panel antennas on a low profile platform at a centerline height of 187’ above grade level. A 12’ by 20’ equipment shelter will be installed adjacent to the tower within the fenced compound. The Facility will be available for co-location by other wireless carriers. The final location, height and other features of the proposed Facility are

subject to review and potential change under provisions of the Connecticut General Statutes Sections 16-50g et. seq.

Balloons, raised to 190' above grade level and representative of the proposed Facility height, will be flown at the proposed Candidate sites on the first day of the Siting Council public hearing on the Application, which will take place in Town, or on such other date specified by the Siting Council and a time to be determined by the Siting Council, but anticipated to be between the hours of 12pm and 5pm.

If you have any questions concerning this application, please do not hesitate to contact the Connecticut Siting Council or the undersigned after June 27, 2011 the date which the application is now expected to be on file.

Very truly yours,

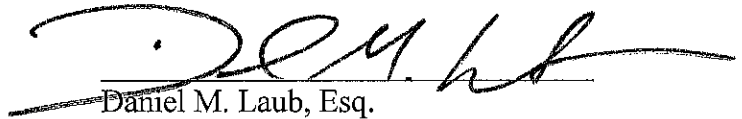

Daniel M. Laub

NOTICE

Notice is hereby given, pursuant to Section 16-50l(b) of the Connecticut General Statutes and Section 16-50l-1(e) of the Regulations of Connecticut State Agencies of an Application to be filed with the Connecticut Siting Council ("Siting Council") on or after June 20, 2011 by SBA Towers III LLC ("SBA") and New Cingular Wireless PCS, LLC ("AT&T") for a certificate of environmental compatibility and public need for the construction and maintenance of a wireless telecommunications facility ("Facility") in North Stonington, Connecticut. The Facility is being proposed to allow AT&T to provide service in North Stonington. The Application explains the need, purpose and benefits of the Facility and also describes the environmental impacts of the proposed Facility. Three (3) candidate locations are being considered; however only one location is needed and only one Facility will be constructed.

Candidate A is located at 49 Mountain Avenue (Tax Assessor Parcel Identification Number 45-0832) and would host a 190' monopole and associated unmanned equipment in a 45' x 90' fenced compound in the western portion of the parcel. Vehicular access to the facility will be provided from Mountain Avenue over a new gravel access drive approximately 400' to the proposed equipment compound. Utilities to serve the proposed facility would extend underground and generally follow the access drive.

Candidate B is located at 23 Northwest Corner Road (Tax Assessor Parcel Identification Number 56-3697) and would host a 190' monopole and associated unmanned equipment in a 75' x 75' fenced compound in the central portion of the parcel. Vehicular access to the facility will be provided from Northwest Corner Road over an existing drive and then over new gravel access drive approximately 380' to the proposed compound. Utilities to serve the proposed facility would extend underground and generally follow the access drive.

Candidate C is located at 350B Cossaduck Hill Road (Tax Assessor Parcel Identification Number 57-6637) and would host a 190' monopole and associated unmanned equipment in a 75' x 75' fenced compound in the central portion of the parcel. Vehicular access to the facility will be provided from Cossaduck Hill Road over an existing drive and then over a new gravel access drive approximately 510' to the proposed equipment compound. Utilities to serve the proposed facility would extend underground and generally follow the access drive.

AT&T would mount up to twelve (12) panel antennas on a low profile platform at a centerline height of 187' above grade level. A 12' by 20' equipment shelter will be installed adjacent to the tower within the fenced compound. The Facility will be available for co-location by other wireless carriers. The final location, height and other features of the proposed Facility are subject to review and potential change under provisions of the Connecticut General Statutes Sections 16-50g et. seq.

Balloons, raised to 190' above grade level (AGL) and representative of the proposed Facility height, will be flown at the proposed Candidate sites on the first day of the Siting Council public hearing on the Application, which will take place in Town, or on such other date specified by the Siting Council and a time to be determined by the Siting Council, but anticipated to be between the hours of 12pm and 5pm.

Interested parties and residents of the Town of North Stonington, Connecticut are invited to review the Application during normal business hours after June 20, 2011 at any of the following offices:

Connecticut Siting Council
10 Franklin Square
New Britain, CT 06051

Norma J. Holliday, Town Clerk
New Town Hall
40 Main Street
North Stonington, CT 06359

or the offices of the undersigned. All inquiries should be addressed to the Connecticut Siting Council or to the undersigned.

NOTICE

Clarification of notice previously provided is hereby given, pursuant to Section 16-50l(b) of the Connecticut General Statutes and Section 16-50l-1(e) of the Regulations of Connecticut State Agencies, of an Application to be filed with the Connecticut Siting Council ("Siting Council") on or after June 27, 2011 by SBA Towers III LLC ("SBA") and New Cingular Wireless PCS, LLC ("AT&T") for a certificate of environmental compatibility and public need for the construction and maintenance of a wireless telecommunications facility ("Facility") in North Stonington, Connecticut. The Facility is being proposed to allow AT&T to provide service in North Stonington. The Application explains the need, purpose and benefits of the Facility and also describes the environmental impacts of the proposed Facility. Three (3) candidate locations are being considered; however only one location is needed and only one Facility will be constructed.

Notice previously provided indicated that the "Candidate B Facility" is located at 23 Northwest Corner Road (Tax Assessor Parcel Identification Number 57-6637). Clarification is hereby provided that while access to the candidate Facility would be through the parcel at 23 Northwest Corner Road, the proposed compound and monopole would be on the parcel at 25 Northwest Corner Road (Tax Assessor Parcel Identification Number 56-2831). The candidate Facility would consist of a 190' monopole and associated unmanned equipment in a 75' x 75' fenced compound in the central portion of the 25 Northwest Corner Road parcel. Vehicular access to the facility will be provided from Northwest Corner Road over an existing drive through 23 Northwest Corner Road and then over new gravel access drive approximately 380' to the proposed compound. Utilities to serve the proposed facility would extend underground and generally follow the access drive.

Information regarding the alternate candidates at 49 Mountain Avenue (Tax Assessor Parcel Identification Number 45-0832) and 350B Cossaduck Hill Road (Tax Assessor Parcel Identification Number 57-6637) remains as noticed on June 15th and 17th in this publication.

Interested parties and residents of the Town of North Stonington, Connecticut are invited to review the Application during normal business hours after June 27, 2011 at any of the following offices:

Connecticut Siting Council
10 Franklin Square
New Britain, CT 06051

Norma J. Holliday, Town Clerk
New Town Hall
40 Main Street
North Stonington, CT 06359

or the offices of the undersigned. All inquiries should be addressed to the Connecticut Siting Council or to the undersigned.

ATTACHMENT 10

Application Guideline	Location in Application
(A) An Executive Summary on the first page of the application with the address, proposed height, and type of tower being proposed. A map showing the location of the proposed site should accompany the description;	I.B: Executive Summary, pages 4-7 Attachment 6: Topographic and Aerial Maps
(B) A brief description of the proposed facility, including the proposed locations and heights of each of the various proposed sites of the facility, including all candidates referred to in the application;	I.B: Executive Summary, pages 4-7 V: Facility Design, pages 14-17
(C) A statement of the purpose for which the application is made;	I.A: Purpose and Authority, page 4
(D) A statement describing the statutory authority for such application;	I.A: Purpose and Authority, page 4
(E) The exact legal name of each person seeking the authorization or relief and the address or principle place of business of each such person. If any applicant is a corporation, trust, or other organized group, it shall also give the state under the laws of which it was created or organized;	I.C: The Applicants, page 7-8
(F) The name, title, address, and telephone number of the attorney or other person to whom correspondence or communications in regard to the application are to be addressed. Notice, orders, and other papers may be served upon the person so named, and such service shall be deemed to be service upon the applicant;	I.C: The Applicants, page 7-8
(G) A statement of the need for the proposed facility with as much specific information as is practicable to demonstrate the need including a description of the proposed system and how the proposed facility would eliminate or alleviate any existing deficiency or limitation;	III.A: Statement of Need, pages 9-10 Attachment 1: Statement of RF Need with Coverage Plots
(H) A statement of the benefits expected from the proposed facility with as much specific information as is practicable;	III.B: Statement of Benefits, page 9
(I) A description of the proposed facility at the proposed prime and alternative sites including: <ol style="list-style-type: none"> (1) Height of the tower and its associated antennas including a maximum "not to exceed height" for the facility, which may be higher than the height proposed by the Applicant; (2) Access roads and utility services; (3) Special design features; (4) Type, size, and number of transmitters and receivers, as well as the signal frequency and conservative worst-case and estimated operational level approximation of electro magnetic radiofrequency power density levels (facility using FCC Office of Engineering and Technology Bulletin 65, August 1997) at the base of the tower base, site compound boundary where persons are likely to be exposed to maximum power densities from the facility; (5) A map showing any fixed facilities with which the proposed facility would interact; 	I.B. Executive Summary, pages 4-7 V: Facility Design: pages 14-17 Attachments 3A, 4A and 5A: Description and Design of Proposed Facility Attachment 3B, 4B and 5B: Environmental Assessments VI.C: Power Density, page 20 Attachment 1: Statement of RF Need with Coverage Plots

Application Guideline	Location in Application
<p>(6) The coverage signal strength, and integration of the proposed facility with any adjacent fixed facility, to be accompanied by multi-colored propagation maps of red, green and yellow (exact colors may differ depending on computer modeling used, but a legend is required to explain each color used) showing interfaces with any adjacent service areas, including a map scale and north arrows; and</p> <p>(7) For cellular systems, a forecast of when maximum capability would be reached for the proposed facility and for facilities that would be integrated with the proposed facility.</p>	<p>Attachment 1: Statement of RF Need with Coverage Plots</p>
<p>(J) A description of the named sites, including :</p> <p>(1) The most recent U.S.G.S. topographic quadrangle map (scale 1 inch = 2000 feet) marked to show the site of the facility and any significant changes within a one mile radius of the site;</p> <p>(2) A map (scale not less than 1 inch = 200 feet) of the lot or tract on which the facility is proposed to be located showing the acreage and dimensions of such site, the name and location of adjoining public roads or the nearest public road, and the names of abutting owners and the portions of their lands abutting the site;</p> <p>(3) A site plan (scale not less than 1 inch = 40 feet) showing the proposed facility, set back radius, existing and proposed contour elevations, 100 year flood zones, waterways, and all associated equipment and structures on the site;</p> <p>(4) Where relevant, a terrain profile showing the proposed facility and access road with existing and proposed grades; and</p> <p>(5) The most recent aerial photograph (scale not less than 1 inch = 1000 feet) showing the proposed site, access roads, and all abutting properties.</p>	<p>Attachments 3A, 4A and 5A: Description and Design of Proposed Facility</p> <p>Attachments 3C, 4C, and 5C: Visual Analyses</p>
<p>(K) A statement explaining mitigation measures for the proposed facility including:</p> <p>(1) Construction techniques designed to specifically minimize adverse effects on natural areas and sensitive areas;</p> <p>(2) Special design features made specifically to avoid or minimize adverse effects on natural areas and sensitive areas, including but not limited to a yield point, if applicable;</p> <p>(3) Establishment of vegetation proposed near residential, recreation, and scenic areas; and</p> <p>(4) Methods for preservation of vegetation for wildlife habitat and screening; and</p> <p>(5) Other environmental concerns identified by the applicant, the Council, or any public agency, including but not limit to, where applicable: Coastal Consistency Analysis, Connecticut Heritage Areas, Ridgeline Protection Zones, DOT Scenic Lands, State Parks and Forests, Agricultural Lands, Wild and Scenic Rivers, Protected Rivers, Endangered, Threatened or Special Concern Species</p>	<p>Attachments 3A, 4A and 5A: Description and Design of Proposed Facility</p> <p>Attachment 3B, 4B and 5B: Environmental Assessments</p> <p>VI: Environmental Compatibility, pages 17-20</p>

Application Guideline	Location in Application
(L) A description of the proposed site and any alternative sites, including the zoning classification, planned land uses and surrounding areas;	VII.D: Planned and Existing Land Uses, page 25
(M) A description of the scenic, natural, historic, and recreational characteristics of the proposed sites and any alternative sites and surrounding areas including but not limited to officially designated nearby hiking trails, nature preserves and scenic roads;	VI: Environmental Compatibility, pages 16-20 Attachment 3C, 4C and 5C: Visual Analyses
(N) Visibility Analyses of the proposed site area and any alternative site areas including, but not limited to: <ol style="list-style-type: none"> (1) A viewshed analysis consisting of a two-mile radius from visually impacted areas such as residential developments, recreational areas, and historic sites; (2) Photographic documentation; (3) Balloon float photographs; (4) Photographic simulations in "leaf-on" and "leaf-off" conditions, where possible, and; (5) If proposed in close proximity to a shoreline, including lakes and rives, photographic documentation from open waters, where possible. (N-a) An affidavit for each balloon float conducted at the proposed site and any alternative sites including the date, time and demonstrated height.	Attachment 3C, 4C and 5C: Visual Analyses
(O) A list describing the type and height of all existing and proposed towers and facilities within a four mile radius within the site search area, or within any other area from which use of the proposed towers might be feasible from a location standpoint for purposes of the application;	IV.A: Site Selection, pages 11-13 Attachment 2: Site Search Summary
(P) A description of efforts to share existing towers, including but not limited to installations on electric transmission poles, or to consolidate telecommunications antennas of public and private services onto the proposed facility including efforts to offer tower space, where feasible, at no charge for space for municipal antennas;	I.B: Executive Summary, pages 4-7 IV.A: Site Selection, pages 11-13 IV.B: Tower Sharing, page 13 V: Facility Design: pages 14-16 Attachment 2: Site Search Summary
