**Re: Docket No. 421 – Application by
T-Mobile Northeast LLC for a Certificate
of Environmental Compatibility and Public
Need for a Telecommunications Facility at
158 Edison Road, Trumbull, Connecticut**

Dear Ms. Roberts:

I am writing with respect to the above-captioned docket on behalf of the Applicant, T-Mobile Northeast LLC ("T-Mobile"). T-Mobile's Application regarding the proposed telecommunications facility ("Facility") includes a letter from the State Historic Preservation Office ("SHPO"). That letter related to the proposed Facility's initial configuration. (See *Application*, p. 4.) SHPO has issued an opinion regarding the proposed Facility with its reconfigured stealth configuration, as filed with the Connecticut Siting Council. (See *Application*, pp. 10-11, 23.) I have enclosed the SHPO's most recent letter, dated August 15, 2011, which indicates a finding of no adverse effect on cultural resources. I respectfully request that the Council include the updated SHPO letter as a part of the record in this docket.

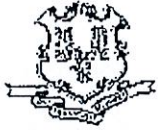

Very truly yours,

Jesse A. Langer

Ms. Laura Gresh
EBI Consulting
21 B Street
Burlington, MA 01803

Subject: Proposed Telecommunications Facility - REVISED
158 Edison Road (adjacent Merritt Parkway)
Trumbull, Connecticut
T-Mobile

Dear Ms. Gresh:

The State Historic Preservation Office is in receipt the above-referenced revised project, submitted for review and comment pursuant to the National Historic Preservation Act and in accordance with Federal Communications Commission regulations.

After an extensive field review with a balloon float of the proposed installation site, this office has determined that while the facility will be constructed adjacent to the Merritt Parkway, a property listed on the National Register of Historic Places, the undertaking will have no adverse effect on cultural resources, given the extremely limited visibility from the Parkway.

The State Historic Preservation Office appreciates the opportunity to provide EBI with this evaluation. Please contact Susan Chandler, Historical Architect, should you have additional questions concerning this matter.

Sincerely,

David T. Fornet
