Attn: Melanie A. Bachman
Acting Executive Director/Staff Attorney

Re: Docket No. 422 – North Atlantic Towers, LLC (“NAT”) Certificate of Environmental Compatibility and Public Need for the Construction, Maintenance and Management of a Telecommunications Facility Located at 655 Basset Road, Watertown, CT (the “Facility”)

Dear Executive Director Bachman:

This correspondence is in response to your letter dated March 3, 2014, wherein you advised us that an inspection of the referenced facility disclosed that the antennas extended visibly beyond the monopine branches. You requested a report that explained why the antennas extend beyond the branches and what will be done to remedy the situation.

The situation was created due to an oversight by NAT and New Cingular Wireless PCS, LLC (“AT&T”) in the installation of AT&T’s antennas. Neither NAT nor AT&T realized that the plans for the installation of AT&T’s equipment did not include additional branches to be installed on AT&T’s antenna mounts. This unfortunate, but inadvertent, oversight led to AT&T ordering and installing equipment without the necessary branches to camouflage the antennas. We regret this oversight and apologize to the council for the situation.

NAT and AT&T are working together to order the necessary branches for AT&T’s antenna mounts and have them installed as soon as reasonably possible. At the time of this correspondence, the parties are researching manufacturers and shipping times for the mount branches. NAT will continue to monitor the situation, and will provide an update to the siting council once a shipping and installation schedule has been determined.

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Brett Buggeln".

Brett Buggeln
Manager/President
