Attn: Melanie A. Bachman
Acting Executive Director/Staff Attorney

Re: Docket No. 422 – North Atlantic Towers, LLC (“NAT”) Certificate of Environmental Compatibility and Public Need for the Construction, Maintenance and Management of a Telecommunications Facility Located at 655 Basset Road, Watertown, CT (the “Facility”)

Dear Executive Director Bachman:

This correspondence is in follow-up to various preceding correspondence wherein you requested a construction progress report and an update on the installation of new and additional monopine branches for the antenna concealment.

Two items remain to complete construction of this Facility. Weather permitting these items will be closed out next week and are:

1. Site compound fence grounding.
2. Addition of stone/gravel to access road.

As for the antenna concealment, we have installed additional branches in and around the New Cingular Wireless antenna mounts as well as installed antenna “socks” to directly cover the antennas. These activities were completed last week and photos are attached for your reference and records. Additionally, we are have received an inquiry for the collocation of another wireless communications tenant on the Facility which would further add to the branches and enhance the appearance of the tower.

NAT thanks the Council for its patience and understanding while we resolve these issues. Please do not hesitate to contact us with any further questions or concerns.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brett Buggeln", is written over the word "Sincerely,".

Brett Buggeln
Manager/President
