Attn: Melanie Bachman, Staff Counsel

Re: *Docket No. 424*
The Connecticut Light & Power Company's application for a Certificate of Environmental Compatibility and Public Need for the Connecticut portion of the Interstate Reliability Project

Dear Ms. Bachman,

In accordance with the Siting Council's Procedures for Filing Proprietary Information Under Protective Order (Procedures), I submit with this letter the Mount Hope Underground Variation – In ROW Cost Estimate Details (Estimate Details), together with a Motion for Protective Order and the required supporting documentation.

As required by the Procedures, one copy of the Estimate Details has been placed in a sealed envelope and labeled "CONFIDENTIAL – PROPRIETARY INFORMATION **Subject to Non-Disclosure Agreement and Protective Order**, CONNECTICUT SITING COUNCIL DOCKET NO. 424, CONFIDENTIAL FILING SUBMITTED BY THE CONNECTICUT LIGHT AND POWER COMPANY JUNE 19, 2012, Mount Hope Underground Variation – In ROW Cost Estimate Details."

As further required by the Procedures, I enclose an original and 20 copies of the following documents in consecutive order:

- a. A Motion for Protective Order and a Memorandum of Law describing the legal standards upon which the motion is based;
- b. An affidavit of John C. Case stating specifically why the information should be protected;
- c. A proposed Protective Order for signature by the Chairman;
- d. A proposed Non-Disclosure Agreement for signature by requesters of the proprietary information; and
- e. A proposed Request for Information for completion by persons seeking access to the proprietary information.

{W2112819}

Page 2

Please note that I have not included a redacted version of the Estimate Details because the entire document contains proprietary information to which the Motion for Protective Order applies.

Very truly yours,

Anthony M. Fitzgerald

**MOTION OF THE CONNECTICUT LIGHT AND POWER COMPANY
FOR A PROTECTIVE ORDER WITH RESPECT
TO "ESTIMATE DETAILS"**

The Connecticut Light and Power Company (CL&P) hereby moves that the Connecticut Siting Council (Council) enter a protective order in this docket to ensure that proprietary information provided to the Council is not subject to unrestricted, general public disclosure. Specifically, for the reasons set forth in the attached Applicant's Memorandum of Law in Support of Motion for Protective Order (Memorandum), and the attached Affidavit of John C. Case filed this day with the Council, CL&P asks that this protective order apply to the Mount Hope Underground Variation - In ROW Cost Estimate Details (Estimate Details) to be filed in

the above-captioned docket. The Estimate Details have been filed contemporaneously with this motion, in a sealed and properly labeled envelope.

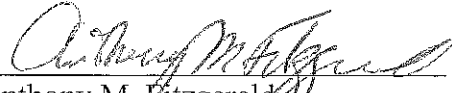

CL&P further requests that such order apply to such other proprietary information as CL&P may be required to file in this Docket.

As explained more fully in the accompanying Memorandum of Law, proprietary information in the Estimate Details is entitled to confidential treatment under the Connecticut Freedom of Information Act. Such treatment is consistent with the policies of the Federal Energy Regulatory Commission and the Independent System Operator – New England.

CL&P asks that disclosure of the Estimate Details under the protective order be limited and that parties and intervenors who are not otherwise entitled to have access to the information who wish to review it be required to execute a request for information and non-disclosure agreement, the forms of which are attached to the proposed protective order filed herewith.

Respectfully submitted,

**THE CONNECTICUT LIGHT AND POWER
COMPANY**

**APPLICANT'S MEMORANDUM IN SUPPORT OF
MOTION FOR PROTECTIVE ORDER**

The Connecticut Light and Power Company (CL&P) hereby respectfully submits this memorandum in support of its Motion for Protective Order (Motion) filed on even date herewith, seeking to protect from public disclosure certain proprietary information submitted as the Mount Hope Underground Variation – In ROW Cost Estimate Details (Estimate Details). The Motion is supported by the Affidavit of John C. Case.

I. BACKGROUND

The Motion filed in connection with this memorandum seeks protection for documents that contain proprietary information. The Procedures for Filing Proprietary Information Under

Protective Order adopted by the Siting Council (Council) define proprietary information as “any information that may be exempt from public disclosure under the Freedom of Information Act (FOIA), C.G.S. §1-210(b).”

CL&P seeks a protective order in this docket to protect the confidentiality of detailed cost estimates prepared for the Mount Hope Underground Variation. One of the parties in the docket, Victor Civie, requested that CL&P provide its detailed cost estimates at the Council’s June 4th and 5th hearings. CL&P asserts that the Estimate Details are entitled to protection as proprietary information.

Connecticut Law

As noted in the Procedures, the protection for proprietary information arises from Connecticut General Statutes (C.G.S.) § 1-210(b). The Estimate Details are protected under § 1-210(b), which provides in relevant part:

(b) Nothing in the Freedom of Information Act shall be construed to require disclosure of:

...(5) (A) Trade secrets, which for purposes of the Freedom of Information Act, are defined as information, including formulas, patterns, compilations, programs, devices, methods, techniques, processes, drawings, **cost data**, customer lists, film or television scripts or detailed production budgets that (i) derive independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from their disclosure or use, and (ii) are the subject of efforts that are reasonable under the circumstances to maintain secrecy; and

(B) Commercial or financial information given in confidence, not required by statute ...

(emphasis added).

FERC and ISO-NE Protection of Proprietary Information

The statutory protection from public disclosure for proprietary information is entirely consistent with the information protected by the Federal Energy Regulatory Commission (FERC) and the Independent System Operator – New England (ISO-NE). FERC has established procedures for special treatment for the filing of critical energy infrastructure information or privileged material. FERC considers trade secrets to be privileged material as well as other information exempt from disclosure under the federal Freedom of Information Act. *See*, C.F.R. § 388.107 and § 388.112. Similarly, ISO-NE protects the filing of trade secrets as confidential pursuant to Attachment D, ISO-NE Information Policy.

See, www.iso-ne.com/regulatory/tariff/attach_d/attachment-d.pdf

II. DISCUSSION

C.G.S. § 1-210(b)(5)(A) specifically recognizes cost data as included in the definition of trade secrets. Trade secrets are protected from public disclosure under the Connecticut FOIA under two conditions. First, there must be “independent economic value, actual or potential” from such information that is not otherwise known or ascertainable to persons who can obtain economic value from its disclosure or use, and second, there must be reasonable efforts to maintain the secrecy of such information. The Estimate Details satisfy both conditions.

1. Independent Economic Value

To comply with the requirements for filing an application with the Council under C.G.S. § 16-50/(a)(1)(A)(i) for certain electric facilities, applicants are required to file “A description, including estimated costs...” of the proposed electric facilities. CL&P’s application

in this docket includes a high-level estimate of project costs (see Section 3.3 of CL&P's Application). No further detail is required or provided. However, Mr. Victor Civie, requested that CL&P provide very detailed breakdowns of the components that were the basis for the high-level estimate for one of the underground variations designated as the Mount Hope Underground Variation.

To compile the high-level estimate cost information, CL&P uses its past experience on transmission line projects, industry market information, and material prices to develop cost data that is captured in line items. Those line items provide a framework for the evaluation of competitive bids from third parties, once the final scope of the project is determined, after all approvals are obtained. The release of the cost data in the line items that are set forth in the Estimate Details would provide a road map for a bidder, such that it is unlikely that any bid would be lower than the estimate. Accordingly, the purpose of the bid process would be severely undermined. Because the ratepayers ultimately bear the costs of transmission projects, ratepayers would not receive the benefit of a competitive bid process. Therefore, the estimated cost data in the Estimate Details has independent economic value to CL&P now and potentially to its ratepayers in the future. That cost data is not otherwise known to or ascertainable by potential bidders, who would gain economic value from higher bids, because it is not publicly filed.

2. Reasonable Efforts to Maintain Secrecy

As stated herein, only high-level cost estimates are provided in the Application. CL&P has not provided the level of detail for its cost estimates requested by Victor Civie in any past public proceedings. The information is maintained at CL&P and can only be accessed by certain members of the Project team. Thus, CL&P closely maintains the secrecy of its cost estimates.

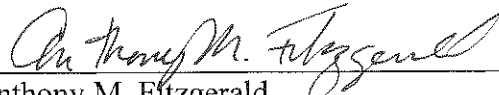

Therefore, the Estimate Details constitute trade secrets that satisfy the conditions in C.G.S. § 1-210(b)(5)(A). Accordingly, the Estimate Details are proprietary information for which a protective order is warranted.

III. CONCLUSION

The Estimate Details, submitted herewith, contain proprietary information, the nondisclosure of which is protected under the Connecticut FOIA. Protection of this proprietary information is consistent with the policies established by FERC and ISO-NE. Therefore, CL&P respectfully requests that the Council grant its request for a Protective Order with respect to this proprietary information.

Respectfully submitted,

AFFIDAVIT OF JOHN C. CASE

STATE OF CONNECTICUT)

) ss: Berlin

June 18, 2012

COUNTY OF HARTFORD)

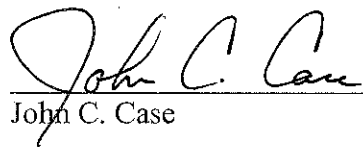

John C. Case, being duly sworn, states:

1. I am Project Manager – NEEWS Engineering, for Northeast Utilities Service Company, which provides transmission planning services to The Connecticut Light and Power Company (CL&P). My office is located at 107 Selden Street, Berlin, Connecticut. I am over the age of eighteen years and understand the obligations of making statements under oath.

2. I am familiar with the Application in Docket No. 424, now pending before the Connecticut Siting Council, and with the contents of the Mount Hope Underground Variation – In ROW Cost Estimate Details (Estimate Details).

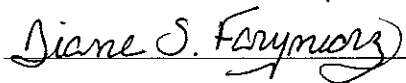

3. I submit this affidavit in support of a Motion for Protective Order filed by CL&P seeking to limit disclosure of the Estimate Details.

4. The Estimate Details provide detailed cost data for potential project facilities that is proprietary, the disclosure of which could result in undermining the competitive bid process for such facilities, thereby eliminating the potential for lower project costs. Because CL&P ultimately recovers project costs from ratepayers, ratepayers may be prejudiced by the disclosure of the Estimate Details.

**PROTECTIVE ORDER RE:
PROPRIETARY INFORMATION**

On June 19, 2012, The Connecticut Light and Power Company (CL&P) filed in the above-captioned Docket the Mount Hope Underground Variation – In ROW Cost Estimate Details (Estimate Details).

CL&P asserts that the Estimate Details contain proprietary information (PI), and has requested that a protective scheme be implemented for this data, and for such other PI as CL&P may be required to file in this Docket. The Council has defined PI as “any information that may be exempt from public disclosure under the Freedom of Information Act (FOIA), C.G.S. §1-210(b).”

CL&P maintains that protecting such proprietary information from disclosure is consistent with the policies of FERC and ISO-NE; that its release would be damaging to Applicants' interests and the public interest; and that such information is exempt from disclosure under the state Freedom of Information Act pursuant to section 1-210(b)(5)(A) of the General Statutes.

Accordingly, it is

ORDERED

1. Until this Order is modified, access to the PI shall be limited as described in Paragraph 4 below.
2. That the PI and such information designated as PI as CL&P shall hereafter file in this Docket shall, unless removed from the coverage of this Order as provided in Paragraph 3 below, be and remain confidential. PI shall not be disclosed for any purpose other than the purposes of this proceeding, and then solely in accordance with this Order. No person to whom access to PI is accorded pursuant to Paragraph 4 of this Order shall disclose or reveal, directly or indirectly, the content of the PI to others, except as provided in Paragraph 4.
3. That the parties and intervenors to whom PI is furnished may challenge designation of any documents or other information as confidential by motion to the Council and upon reasonable prior notice to the parties and an opportunity for hearing. Upon the entry of an order granting such a motion, the provisions and restrictions of this Order shall cease to bind any party or other person with respect to the documents or information that the Order granting the motion shall have expressly and clearly removed from the coverage of this Order.
4. That, until this Order is modified, access to PI filed in this proceeding shall be limited to: (i) the Council and its staff; (viii) parties and intervenors in this proceeding, and their counsel, who have agreed to be bound by this protective order; (iii) a consultant engaged for the purpose of this proceeding for one of the foregoing persons or entities; and (iv) a stenographer or reporter recording any hearing in connection with this proceeding as part of the official record of the proceeding.

Any such recipient of PI shall agree to use the PI solely for the purposes of this proceeding and not disclose the information to any other person. Each person within an entity or organization must complete a PI Request Form and Non-Disclosure Agreement, similar to the forms attached.

5. That no copies of PI furnished by CL&P shall be circulated to persons other than those persons who are authorized under Paragraph 4 of this Order to obtain PI. Documents offered in evidence may be copied as necessary for that purpose. Persons authorized under Paragraph 4 hereof also may take such notes as may be necessary solely for the purposes of this proceeding. Those notes shall also be treated as PI. Although a person authorized to obtain PI may use the information as foundation for advice to his or her employer or clients, s/he may only discuss the PI with or disclose PI to another person authorized to receive identical PI.
6. All materials claimed by CL&P to be PI under the terms of this Order shall be clearly marked "Proprietary Information" by CL&P, and shall bear an appropriate legend

identifying them as such. When PI is intermixed with other materials, it must be securely redacted, and the redaction must be accompanied by a notation:

"Confidential PI." Each volume or document that contains such redactions shall include a prominent explanatory legend: Faxed materials should be marked as any other confidential document. With regard to other media, diskettes should be marked "Confidential PI" on the outside and each file on the diskette should be similarly identified. Materials produced electronically shall be marked "confidential" and access to electronically-produced confidential materials shall be limited accordingly to the terms and limitations provided in this Order. Any person or party subject to the terms of this Order who receives unmarked documents or materials which s/he believes Applicant intended to be protected by the terms of this Order, and that would have been protected if marked in accordance with this paragraph, shall make a good faith effort to notify CL&P of this fact and to avoid use of such documents or materials in a manner inconsistent with protection of such material under this Order.

7. That the restrictions upon, and obligations accruing to, persons who become subject to this Order shall not apply to any PI submitted in accordance with Paragraph 1 of this Order if the Council rules, after reasonable notice and hearing, that the PI was publicly known at the time it was furnished or has since become publicly known through no fault of the receiving party.
8. That where reference to PI is required in pleadings, briefs, other legal documents, or argument, the reference shall be by citation of title or exhibit number only or by some other non-confidential description to the extent possible. In those circumstances, counsel shall make every reasonable effort to preserve the confidentiality of material in the sealed record. If counsel shall include PI in pleadings, briefs, other legal documents, or arguments, that portion of the documents or that portion of the transcript of the argument containing PI shall be maintained under seal.
9. That the Council may draw upon all PI in the record in the deliberation of any decision or order that it may issue, but will avoid the reproduction in its decision of any PI.
10. That should any appeal of, or other challenge to, the Council's decision in this proceeding be taken, any portions of the record that have been sealed in accordance with Paragraph 6 above shall be forwarded to the courts of this State or other court having subject matter jurisdiction, in accordance with applicable law and procedures, under such protective order as may be entered by the court.
11. That PI made available pursuant to this Order and made part of the record in any proceeding before the Council shall remain in the possession of the Council, under seal, and subject to the protective requirements of this Order, until this Council shall otherwise order.

13. That this Order may be modified on motion of any party or on the Council's own motion upon reasonable prior notice to the parties and an opportunity for hearing.
14. Copies of PI and documents, notes and other materials containing or reflecting, directly or indirectly, the PI, that are in possession of the Council's commissioners, counsel or employees may be retained by those persons for the purpose of performing those persons' duties and obligations. If retained, the PI shall be subject to this Protective Order or to a protective order issued in another proceeding in which the PI is used. If such a member, counsel or employee of the Commission does not retain the PI, that person shall destroy it as provided in this paragraph. When the Council determines that any PI is no longer required for its work, it shall destroy the material. All parties and intervenors to whom PI has been made available in the proceeding, their counsel and retained experts, shall destroy all documents, notes and other materials containing or reflecting, directly or indirectly, the PI. Audio, video or other such magnetically recorded materials shall be electronically erased before disposal. Paper documents shall be shredded.
