CONNECTICUT
SITING COUNCIL

Dear Mr. Mercier:

RE: 228 Lovely Street – Docket 373 – cell tower at St. Matthews Church, Avon

Thank you for forwarding to me AT&T's latest response in connection with plantings done in connection with Docket 373. As you know, both the Siting Council and the Town of Avon have invested a significant amount of time in reviewing the design and overall site plan for this facility. The Siting Council approved the project with a specific planting plan. During the construction of this tower a very large spruce tree was, unfortunately, toppled by the storm which occurred last October. This tree was shown on the approved site plan and discussed in some detail with regard to the benefit it provided in helping to partially screen the tower from nearby single-family homes. It appeared from our recent site walk that a small number of trees called for on the approved planting plan have not been installed at this time. In addition, at least one of the trees that was planted died and was cut down. The Town concurs that the ability to plant additional trees along the east side of the building is very difficult; we would request, instead, that any additional trees not planted that were called for on the original plan be installed in the general area of where the large spruce tree was toppled, to eventually add some additional screening to nearby homes.

Sincerely,

Steven Kushner,
Director of Planning and Community Development
