Re: Docket No. 434 – Cellco Partnership d/b/a Verizon Wireless Application For A Certificate Of Environmental Compatibility And Public Need For The Construction, Maintenance And Operation Of A Relocated Wireless Telecommunications Facility at 139 North Main Street, West Hartford, Connecticut

Dear Chairman Stein and Members of the Council:

On June 27, 2013, the Connecticut Siting Council (“Council”) approved an application by Cellco Partnership d/b/a Verizon Wireless (“Cellco”) to construct a relocated wireless telecommunications facility on property owned by the American School for the Deaf at 139 North Main Street, West Hartford, Connecticut. The existing approval is due to expire on or about June 27, 2015.

Cellco’s construction of the approved facility is progressing, but will not be completed before the June 27, 2015 deadline. Cellco, therefore, respectfully requests that the Council grant a three (3) month extension to the Docket No. 434 approval giving Cellco until September 27, 2015, to complete construction of this facility and activate the site.
