Re: Proposed AT&T Wireless Telecommunications Facility
SR-1252 – Bridgewater
111 Second Hill Road
Bridgewater, Connecticut 06752

Date 1/14/13 Project SR-1252

Dear Ms. Chandler:

As you are aware from our May 23, 2011 SHPO submittal, Vanasse Hangen Brustlin, Inc. (VHB) has been retained by SAI Communications representing New Cingular Wireless PCS, LLC ("AT&T") to review environmental resource information outlined in 47 CFR Ch.1 § 1.1307 sections (a) and (b) for environmental consequences pursuant to the Federal Communications Commission ("FCC or Commission") requirements.

The facility, consisting of a ±160-foot tall monopole, antennas, and associated ground equipment, will be installed within a 45' x 90' fenced leased compound area. A 12' wide proposed gravel access road within the proposed 20' wide access and utility easement will initiate from Second Hill Road and extend in a easterly direction toward the proposed compound lease area. AT&T antennas will be attached to the monopole at centerline height of ±157 feet above ground level. Associated ground equipment will be installed within the compound area.

Per your email of July 18, 2011 an additional balloon float was held on May 3, 2012 at which you were present. We understand from that Site visit that this proposed facility will have no effect on resources under Section 106 of the National Historic Preservation Act of 1966 as amended. Please let me know if you require any additional information.

At your earliest convenience, please forward correspondence to my attention. Thank you in advance for your prompt consideration of this request.

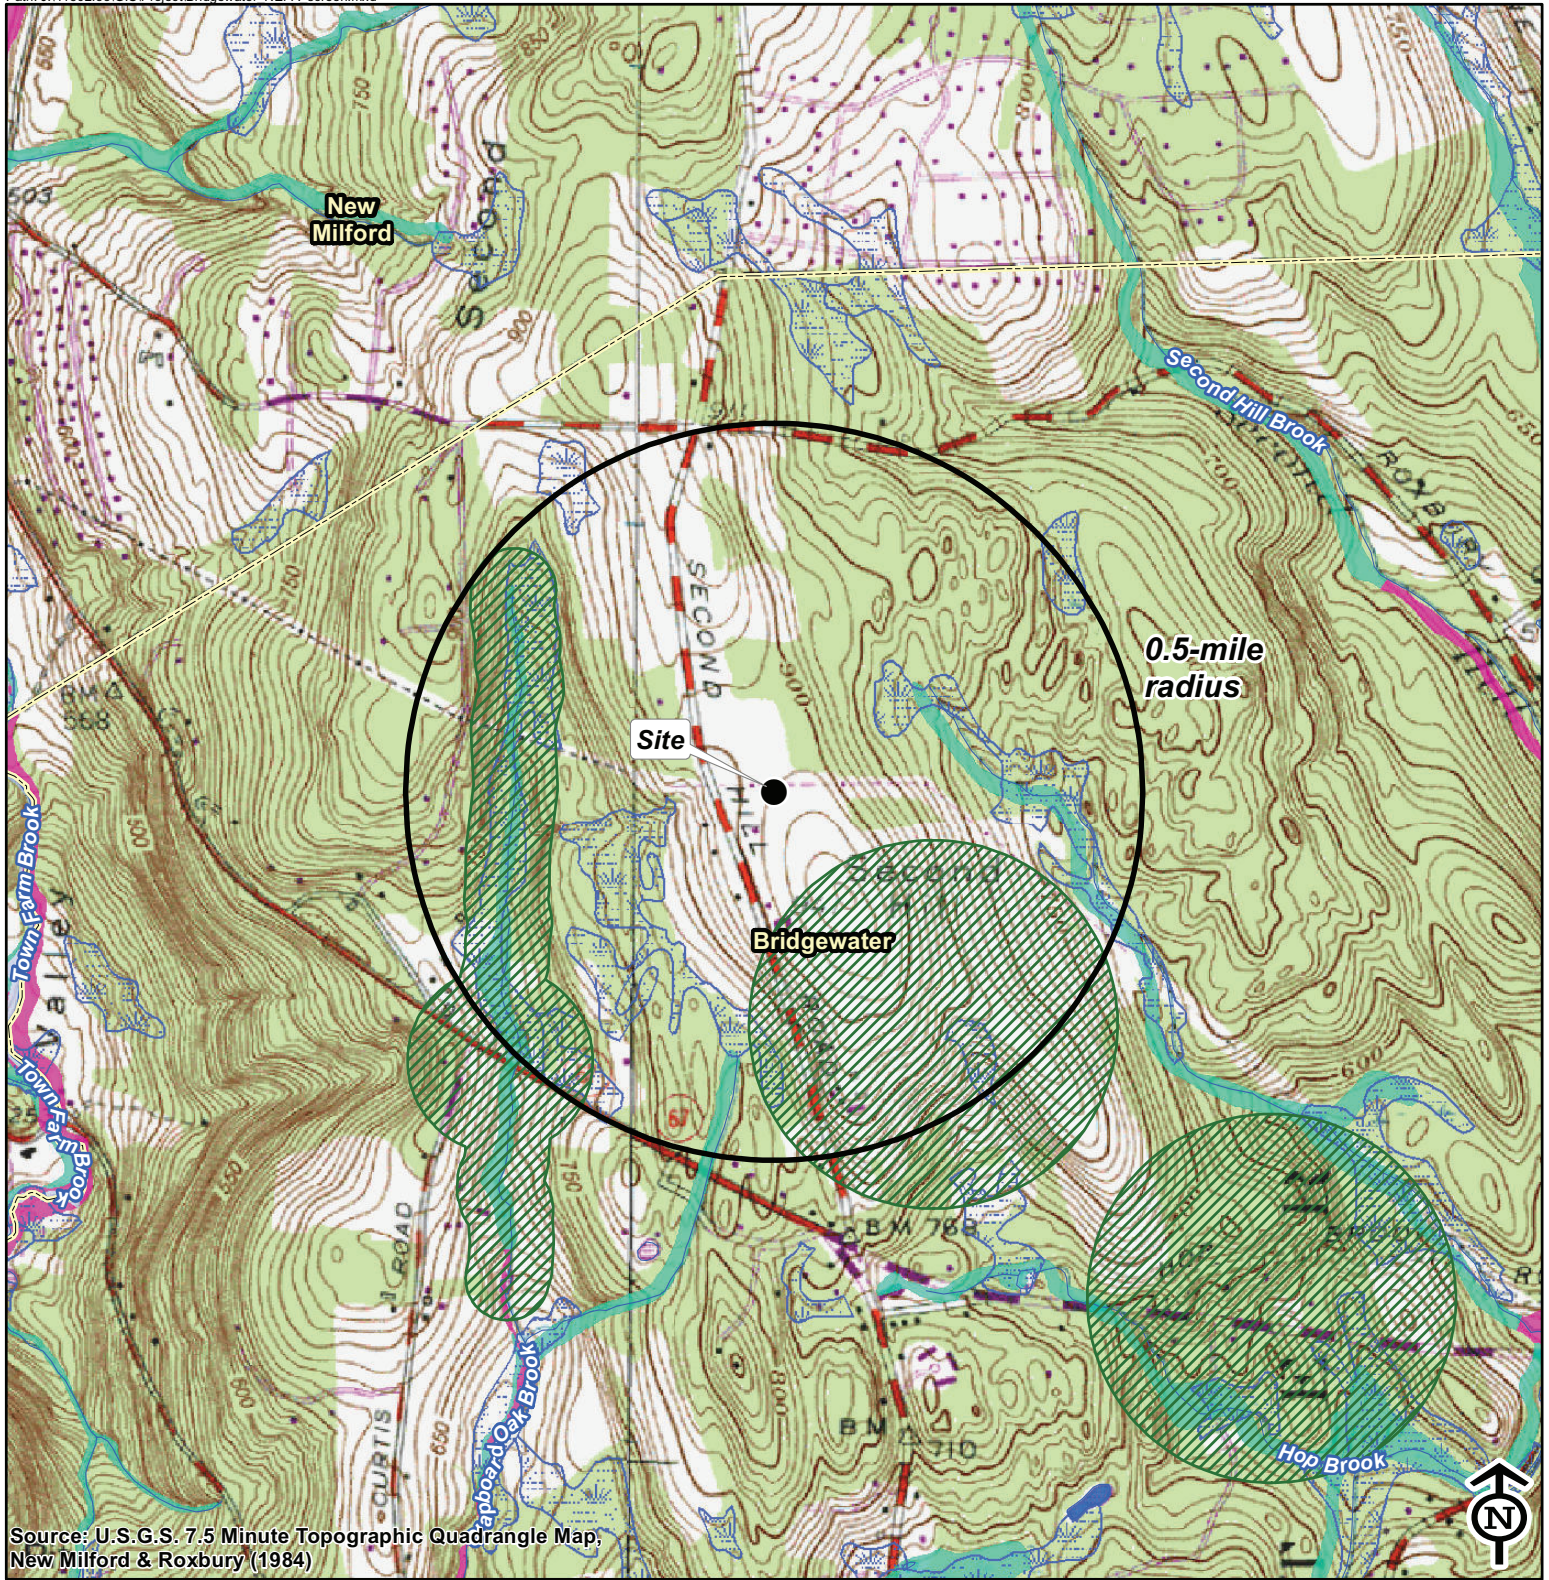

Very truly yours,

VANASSE HANGEN BRUSTLIN, INC.
