Re: DOCKET NO. 451 – Homeland Towers, LLC and New Cingular Wireless PCS, LLC application for a Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a telecommunications facility located at the Cheshire Wastewater Treatment Plant –Town of Cheshire Opposes Reopening of Record

Dear Attorney Bachman:

On behalf of the Town of Cheshire (the “Town”), please accept this letter to the Connecticut Siting Council (the “Siting Council”) concerning a request to reopen the record in the referenced docket.

For the reasons set forth in the Applicants’ opposition to the request to reopen, the Town respectfully requests that the Siting Council deny the untimely request to reopen made after the hearings were completed and the record was closed in this Docket. Any further delay in the final determination of this proceeding will have continuing financial implications, as well as public safety consequences, for the Town.

Further, it should be noted that there is a Beautification Committee in Cheshire, as alleged in the request to reopen, but it is only an advisory group of citizens. It had no legal authority to articulate any position on behalf of the Town in any proceeding before the Siting Council and only could offer its own views on any particular matter.

For all of the reasons previously set forth in the record of this Docket, the Town respectfully requests that the Siting Council proceed with its evaluation to approve the

application, which will enable the Town to move forward with the necessary enhancements to its emergency services communications system.

Thank you for your consideration.

I certify that a copy hereof have been furnished on this date via first-class mail, via email delivery to all parties, intervenors and participants of record as evidenced on the Council's service list as of this date.

Respectfully submitted,

TOWN OF CHESHIRE, CONNECTICUT
