Re: Docket 453  
American Tower Corp. ("ATC") and New Cingular Wireless PCS, LLC ("AT&T")  
Proposed Wireless Telecommunications Tower Facility  
701 Lydall Street, Manchester, Connecticut

Dear Mr. Martin:

On behalf of American Tower Corp. ("ATC") and New Cingular Wireless PCS, LLC ("AT&T") and in connection with the above referenced Certificate Application, we enclose the newspaper publisher's Affidavits of Publication of the Legal Notice published in the Journal Enquirer newspaper on two insertion dates of October 30, 2014 and November 1, 2014 in accordance with State statute.

Please incorporate the enclosed as part of the official record of the proceeding. Thank you.

Very truly yours,

  
Lucia Chiochio

NOTICE

Notice is hereby given, pursuant to Section 16-501(b) of the Connecticut General Statutes and Section 16-501-1(e) of the Regulations of Connecticut State Agencies of an Application to be filed with the Connecticut Siting Council ("Siting Council") on or after November 4, 2014 by American Tower, Corp. ("ATC") and New Cingular Wireless PCS LLC ("AT&T") (together the "Applicants") for a certificate of environmental compatibility and public need for the construction and maintenance of a wireless telecommunications facility in Manchester, Connecticut.

The proposed tower facility consists of a new self-supporting tower and a 50' by 50' tower compound in the northern portion of the property located at 701 Lydall Street in Manchester.

The Applicants propose a 104' above ground level ("AGL") self-supporting monopole tower. AT&T would install up to twelve (12) panel antennas and equipment at a centerline height of approximately 100' AGL on the tower. An associated 12' x 16' equipment shelter would be installed at the tower base together with a back-up power generator in an equipment compound. The compound and tower will include space for other carriers and be enclosed by an eight (8) foot tall chain link fence. Vehicle access to the facility would be along an existing dirt drive a distance of approximately 850' then along a proposed 12' wide gravel drive approximately 730' to the tower compound. Utility connections would be run underground from an existing utility pole at Lydall Street.

The location, height and other features of the proposed Facility are subject to review and potential change under provisions of the Connecticut General Statutes Sections 16-50g et. seq.

The Facility is proposed to allow AT&T service in Manchester and this area of the State. The Application explains the need, purpose and benefits of the proposed Facility and also describes the environmental effects of the Facility.

A balloon, representative of the proposed height of the tower, will be flown at the site on the first day of the Siting Council public hearing on the Application, which will take place in Town, or such other date specified by the Siting Council and a time to be determined by the Siting Council, but anticipated to be between the hours of 12pm and 5pm.

Interested parties and residents of the Town of Manchester, Connecticut are invited to review the Application during normal business hours after November 4, 2014 at the following offices:

Connecticut Siting Council  
Camposeo, Town Clerk  
10 Franklin Square  
New Britain, CT 06051
