Re: Connecticut Siting Council Docket 463
American Towers, LLC (ATC) & New Cingular Wireless PCS, LLC (AT&T)
Proposed Wireless Telecommunications Tower Facility
East Lyme, Connecticut

Dear Chairman Stein and Members of the Siting Council:

On behalf of American Towers, LLC (ATC) and New Cingular Wireless PCS, LLC (AT&T) and in connection with the above referenced Docket, enclosed please find an original and twenty copies of an amended application including an alternative facility location at 2 Arbor Crossing in East Lyme, Connecticut for the Council's consideration. A CD is included with the electronic version for the Council's use as well as the original affidavit of notice publication.

Should the Siting Council or Staff have any questions regarding this matter, please do not hesitate to contact us.

Very truly yours,

Daniel M. Laub

NOTICE

Notice is hereby given, pursuant to Section 16-50(b) of the Connecticut General Statutes and Section 16-50-1(e) of the Regulations of Connecticut State Agencies of an Amendment to a pending Application to be filed with the Connecticut Siting Council ("Siting Council") on or after August 23, 2016 by American Tower Corp. and New Cingular Wireless PCS, LLC (the "Applicants"). The Application as Amended is for a certificate of environmental compatibility and public need for the construction and maintenance of a replacement wireless telecommunications tower facility in East Lyme, Connecticut. Two alternative tower site locations are proposed but only one facility will be constructed.

An existing 150' tall tower located off Scott Road within the development known as "The Orchards" ("Existing Facility") must be decommissioned in 2017. A replacement tower is needed by AT&T for service that would otherwise be disrupted. The Applicants submitted an Application for a replacement tower facility on property located at 351A Boston Post Road in East Lyme ("Boston Post Road Facility") currently under review by the Siting Council as part of Siting Council Docket 463.

The Applicants intend to amend the application (Application Amendment) to propose an alternative near the Existing Facility on the same overall parcel within the Orchard Woods subdivision and identified by the Town of East Lyme Tax Assessor's mapping as 2 Arbor Crossing ("Orchard Woods Facility"). The proposed Orchard Woods Facility consists of a 105-foot tall faux silo and a 35-foot by 50-foot equipment building in the style of a barn situated within a 44-foot by 58-foot area. AT&T would install up to twelve (12) panel antennas internal to the silo. The equipment building and silo will be designed to accommodate other carriers. Vehicular access to the facility will be provided from Arbor Crossing over a small paved apron and thereafter over a 12-foot gravel access drive over two properties (2 and 4 Arbor Crossing) a distance of approximately 375 feet to the silo/barn facility.

Only one facility will be constructed by the Applicants and subject to a Siting Council decision in Docket 463A. The final location, height and other features are subject to review and potential change under provisions of the Connecticut General Statutes Sections 16-50g et. seq. The purpose of the original Application and this Amendment is to assure that AT&T may continue to provide reliable service in this area of the state after decommissioning of the Existing Facility.

At the discretion of the Siting Council, a balloon representative of the height of the proposed Orchard Woods Facility may be flown at the site on a date and time specified by the Siting Council but typically between the hours of 12pm and 5pm.

Interested parties and residents are invited to review the Application Amendment during normal business hours after August 23, 2016 at any of the following offices:

Connecticut Siting Council
10 Franklin Square
New Britain, Connecticut 06051

Town of East Lyme
Town Clerk
PO Box 519
Niantic, CT 06357

or the offices of the undersigned. All inquiries should be addressed to the Connecticut Siting Council or to the undersigned.
