Re: Docket No. 466 Connecticut Light & Power Company d/b/a Eversource Energy  
Application for a Certificate of Environmental Compatibility and Public Need for the Frost  
Bridge to Campville 115-kilovolt Electric Transmission Line Project

Dear Ms. Bachman:

The Drinking Water Section of the Department of Public Health has reviewed the application associated with the above noted Docket for potential impacts to any sources of public drinking water supply. This project does not appear to be in a public water supply source water area; therefore, the Drinking Water Section has no comments at this time.

Sincerely,

A handwritten signature in cursive script that reads "Lori J. Mathieu".
