Kathleen M. Shanley
Manager-Transmission Siting-CT
Eversource Energy
56 Prospect Street
Hartford, CT 06103

RE: **DOCKET NO. 466** - The Connecticut Light & Power Company d/b/a Eversource Energy Certificate of Environmental Compatibility and Public Need for the Frost Bridge to Campville 115-kilovolt (kV) electric transmission line project that traverses the municipalities of Watertown, Thomaston, Litchfield, and Harwinton, which consists of (a) construction, maintenance and operation of a new 115-kV overhead electric transmission line entirely within existing Eversource right-of-way and associated facilities extending approximately 10.4 miles between Eversource's existing Frost Bridge Substation in the Town of Watertown and existing Campville Substation in the Town of Harwinton; (b) related modifications to Frost Bridge Substation and Campville Substation; and (c) reconfiguration of a 0.4 mile segment of two existing 115-kV electric transmission lines across the Naugatuck River in the Towns of Litchfield and Harwinton within the same existing right-of-way as the new 115-kV electric transmission line.

Dear Ms. Shanley:

At a public meeting held on October 27, 2016, the Connecticut Siting Council (Council) considered and approved TRC Companies, Inc. (TRC), as the independent environmental inspector for construction of the Frost Bridge to Campville 115 kilovolt electric transmission line project facilities, pursuant to the Council's Decision and Order, condition No. 4, dated April 14, 2016. Further, this approval stipulates that TRC submit biweekly reports to the Council.

Thank you for your attention and cooperation.

Sincerely,

Robert Stein
Chairman
