Kathleen M. Shanley  
Manager-Transmission Siting  
Eversource Energy  
56 Prospect Street  
Hartford, CT 06141-0270

RE: **DOCKET NO. 466** - The Connecticut Light & Power Company d/b/a Eversource Energy Certificate of Environmental Compatibility and Public Need for the Frost Bridge to Campville 115-kilovolt (kV) electric transmission line project that traverses the municipalities of Watertown, Thomaston, Litchfield, and Harwinton, which consists of (a) construction, maintenance and operation of a new 115-kV overhead electric transmission line entirely within existing Eversource right-of-way and associated facilities extending approximately 10.4 miles between Eversource's existing Frost Bridge Substation in the Town of Watertown and existing Campville Substation in the Town of Harwinton; (b) related modifications to Frost Bridge Substation and Campville Substation; and (c) reconfiguration of a 0.4 mile segment of two existing 115-kV electric transmission lines across the Naugatuck River in the Towns of Litchfield and Harwinton within the same existing right-of-way as the new 115-kV electric transmission line.

Dear Ms. Shanley:

The Connecticut Siting Council (Council) is in receipt of your correspondence dated December 20, 2017 requesting a temporary change in the frequency of environmental inspections performed pursuant to Condition 4 of the Council's Decision and Order for this project, from once a week to an as needed basis, as determined by TRC, the independent environmental inspector for the Project. The requested change is due to the suspension of Project related work during the winter months. The inspections would resume to a once a week basis in Spring 2018, when Project work resumes.

Your request as detailed in your December 20, 2017 correspondence is hereby approved.

Thank you for your attention and cooperation.

Very truly yours,

Melanie A. Bachman  
Executive Director
