### VIA ELECTRONIC MAIL

November 7, 2018

Christopher B. Fisher, Esq.  
Daniel M. Laub, Esq.  
Cuddy & Feder LLP  
445 Hamilton Avenue, 14th Floor  
White Plains, New York 10601

RE: **DOCKET NO. 478** - Eco-Site, Inc. Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a telecommunications facility located at 63 Woodland Street, Glastonbury, Connecticut.

Dear Attorneys Fisher and Laub:

The Connecticut Siting Council (Council) requests your responses to the enclosed questions no later than November 16, 2018. To help expedite the Council's review, please file individual responses as soon as they are available

Please forward an original and 15 copies to this office, as well as send a copy via electronic mail. In accordance with the State Solid Waste Management Plan and in accordance with Section 16-50j-12 of the Regulations of Connecticut State Agencies the Council is requesting that all filings be submitted on recyclable paper, primarily regular weight white office paper. Please avoid using heavy stock paper, colored paper, and metal or plastic binders and separators. Fewer copies of bulk material may be provided as appropriate.

Any request for an extension of time to submit responses to interrogatories shall be submitted to the Council in writing pursuant to §16-50j-22a of the Regulations of Connecticut State Agencies.

Sincerely,

Melanie Bachman  
Executive Director

### Docket 478 - Glastonbury

#### EcoSite LLC

### Development and Management Plan Interrogatories

November 7, 2018

1. D&M Plan Sheets C-2 & C-3 have a vernal pool construction restriction. Identify the location of the vernal pool. Also the Town of Somers is mentioned on these plans as well as on Sheet T-1. Please clarify.
2. D&M Plan Sheets C-2 & C-3 state the final utility method is to be determined. When will this determination be made?
3. If utilities are to be installed underground, provide more detail as to the locations where the utility trench will have to be installed within the travel surface of the existing road to avoid culverts.
4. Referring to D&M Plan Sheets C-6, Detail 5, shows the conduit attached to the retaining wall. At what height will the conduit be mounted on the wall? Is this height sufficient to avoid potential impacts from stormwater flows in the swale at the base of the wall?
5. Provide detail as to the route of the conduit once it reaches the south end of the retaining wall.
6. Provide a cross section detail of the upper and lower portions of the proposed swales that extend along the new portion of the compound access drive. Include the location of underground conduit, if applicable.
7. D&M Plan Sheets C-2 & C-3 list hours of construction as dawn to dusk and from 8 AM to 6 PM. Please clarify. What days of the week will construction occur?
8. The D&M Plan depicts a 10-foot extension to accommodate the Town's equipment at the top. When would the 10-foot extension be added onto the 150-foot tower? At what time would a new filing be made to the Federal Aviation Administration for a taller tower at this location?
9. The emergency generator specified is different than what was initially contemplated. Is the emergency generator for shared-use? If so, how many carriers can be accommodated. What is the fuel source of the generator? Is T-Mobile or EcoSite responsible for maintaining the generator?
