Re: Docket No. 481 – Application of Cellco Partnership d/b/a Verizon Wireless for a Certificate of Environmental Compatibility and Public Need for the Construction, Maintenance and Operation of a Wireless Telecommunications Facility Located at 663R Main Street, Cromwell, Connecticut

Dear Ms. Bachman:

On July 20, 2018, the Siting Council rendered its Decision and Order regarding the construction of a wireless telecommunications facility located at 663R Main Street in Cromwell, Connecticut. The approval requires that the facility be fully constructed and the cell site operational on or before January 20, 2020. Cellco anticipates filing its Development and Management Plan for the facility in the coming months and has not yet commenced construction. We are, therefore, requesting an extension of twelve (12) months, to complete the construction and activation of this site to January 20, 2021.

If you have any questions or need any additional information please feel free to contact me.

Sincerely,

Kenneth C. Baldwin
