Introduction

1. The Monitor reserves the rights, authorities and responsibilities granted in the Monitoring Order of December 1, 1992 as modified, and all the rights, authorities and responsibilities granted in the October 7, 2003 Stipulation and Order (No. 447) all of which are incorporated in this Exit Plan by reference.
2. The Monitor reserves the right to modify the measurement procedures to be used to determine and sustain compliance with any outcome measure herein until July 1, 2004 after which time, there shall be no changes except as may be ordered by the Court. **LINK** and other reporting options will be finalized during this period.
3. The **Juan F.** class is:
 - A. All children who are now, or will be, in the care, custody, or supervision of the Commissioner of the Department of Children and Families as a result of being abused, neglected or abandoned or being found at risk of such maltreatment; and¹
 - B. All children about whom the Department knows, or should know by virtue of a report to the Department, who are now, or will be, abused, neglected or abandoned, or who are now, or will be, at serious risk of such maltreatment.
4. The United States District Court for the District of Connecticut retains continuing jurisdiction over this action until the Court terminates such jurisdiction.
5. The Defendants must be in compliance with all of the outcome measures, and in sustained compliance with all of the outcome measures for at least two quarters (six months) prior to asserting compliance and shall maintain compliance through any decision to terminate jurisdiction. The Court Monitor shall then conduct a review of a statistically significant valid sample of cases files at 96% confidence level, and such other measurements as are necessary, to determine whether Defendants are in compliance. The Court Monitor shall then present findings and recommendations to the District Court. The parties shall have a meaningful opportunity to be heard by the Court Monitor before rendering his findings and recommendations.
6. This Exit Plan delineates specific outcome measures whose achievement are a prerequisite for termination the Court's jurisdiction over this action. Specific definitions, guidelines, interpretations and measurement methodology are listed for each outcome measure. The only enforceable measurements are the actual outcome measure that are bolded and placed in text boxes.
7. The Defendants shall provide funding and other resources necessary to fully implement the Exit Plan.

¹ For the purposes of Exit Plan Outcome Measure reports, all children with a **Legal Status of Commitment – Delinquent** will be excluded (where applicable). All children with a legal status of **Commitment – Dual** will be included (where applicable).

CR – Case Review

Outcome Measure 1: Commencement of Investigation

Measure

DCF shall assure that at least **90%** of all reports of children alleged to be abused, or neglected, shall be prioritized, assigned and the investigation shall commence within the timeframes specified below.

If the report of child abuse or neglect is determined by the DCF Hotline to be:

- A. A situation in which failure to respond immediately could result in the death of, or serious injury to a child, then the response time for commencing an investigation is the same calendar day Hotline accepts the report.
- B. A non-life threatening situation that is severe enough to warrant a 24 hour response to secure the safety of the child and to access the appropriate and available witnesses, then the response time for commencing an investigation is 24 hours.
- C. A non-life threatening situation that, because of the age or condition of the child, the response time for commencing an investigation is 72 hours.

Definitions

- The **commencement of an investigation** occurs when the DCF investigator attempts to make face-to-face contact with the parent or person responsible for the child's care, and/or with the child(ren).
- A report **of alleged abuse, neglect, or a child in danger of abuse or neglect** comes into existence when the DCF hotline accepts a complaint for investigation and designates a response time for the commencement of the investigation.
- A report is **prioritized** by the DCF Hotline when it designates a response time of the same calendar day, 24, or 72 hours for the commencement of the investigation.
- A report is **assigned** when the DCF area office designates an investigator to commence the investigation within the time frames specified in this outcome measure.
- The Hotline shall determine the primary language of the family, if possible, so the case is assigned to an investigator who speaks that language, or DCF shall secure an interpreter to accompany the investigator.

Measurement Procedure:

- A. The Monitor shall determine if this outcome has been achieved through LINK quarterly reports. The percentage will be determined by averaging the three (3) months in each quarter. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this outcome measure.

Data Mapping

Pending LINK Change. Release scheduled for May 2004.

Baseline Summary Data

One (1) calendar month beyond release of LINK change is required to produce the first report.

Outcome Measure 2: Completion of the Investigation

Measure

At least **85%** of all reports of alleged child maltreatment accepted by the DCF Hotline shall have their investigations completed within 45 calendar days of acceptance by the Hotline.

Definitions

The completion of the investigation occurs when the investigator has interviewed each family member, including the parents, other adults and all children in the home as well as necessary collateral contacts and the investigator's DCF supervisor verifies the investigator's determination of substantiation or non-substantiation and the determination entered in LINK.

Investigations shall be conducted by workers who speak the primary language of the family or the investigators shall be accompanied by an interpreter.

Measurement Procedure

- A. The Monitor shall determine if this outcome has been achieved through LINK quarterly reports. The percentage will be determined by averaging the three (3) months in each quarter. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this outcome measure.

Data Mapping

Query the LINK database to determine all Investigations completed during the period. For each Investigation completed during the period, subtract the CPS Report accept date from the Investigation Completion Date to determine the number of days the Investigation was open.

Summary Data

Office	Total CPS Reports	Jan-04	%	Total CPS Reports	Feb-04	%	Total CPS Reports	Mar-04	%	Avg. %

Totals	2,492	1,491	59.8%	2,193	1,471	67.1%	3,009	1,975	65.6%	64.2%

Outcome Measure 3: Treatment Plans

Measure

In at least **90%** of the cases, except probate, interstate, voluntary and subsidy only cases, clinically appropriate individualized family and child specific treatment plans shall be developed in conjunction with parents, children, providers and others involved with the case and approved by a DCF supervisor within 60 days of case opening in a treatment unit, or a child's placement out-of-home, whichever comes sooner, and for each six (6) month period thereafter.

Approved by the DCF Supervisor, means the DCF supervisor verifies and confirms that the functions of a written treatment plan are developed and used to:

- A. Identify in a time limited and goal oriented format the problem areas, needs and proposed services to be provided to all children, parents, relatives and caretakers who are active participants in the case.
- B. Document and describe reasonable efforts to prevent out-of-home placement of children.
- C. Define mutual responsibilities and expectations of children, parents, caretakers and service providers toward reaching identified case goals.
- D. Document and describe reasonable efforts to reunify children with their families in a timely manner.
- E. Determine sibling and parental visitation schedule if siblings are not placed together.

The individualized family and child specific treatment plans are the written working agreement between the child, family, caretakers if any, service provider (s) and DCF. The agreement describes and documents the child and/or family's service needs as well as what DCF, the family, and/or the child is required to do to achieve the goals of the plan. This includes all in-home and out-of-home cases except probate, interstate, voluntary and subsidy only cases.

Treatment plans shall be written in the primary language of the family and/or child. Treatment planning conferences shall be conducted in the primary language of the family and/or child.

Measurement Procedure

- A. DCF will randomly select 25 cases quarterly for a qualitative review, including unannounced attendance at the treatment planning conferences, to determine if this outcome measure is being achieved and to report on the barriers to meeting this measure.
- B. The Monitor's Office will randomly select 15 cases quarterly for a qualitative review, including unannounced attendance at the treatment planning conferences, to determine if this outcome measure is being achieved.
- C. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this outcome measure.

Data Mapping

N/A

Summary Data

N/A

Outcome Measure 4: Search for Relatives

Measure

If a child(ren) must be removed from his/her home, DCF shall conduct and document a search for maternal and paternal relatives, extended formal or informal networks, friends of the child or family, former foster parents, or other persons known to the child. The search period shall extend through the first six (6) month administrative case review following removal from home. The search shall be conducted and documented in at least **85%** of the cases.

Definitions

- Temporary placement with relatives to whom the child is emotionally attached and who can ensure the child's safety may be the most desirable arrangement.
- Placement with a relative or non-relative caretaker with whom the child is familiar requires the completion of an assessment for a relative certification or special study license.

Measurement Procedure

- A. The Monitor shall determine if this outcome has been achieved through DCF quarterly outcome reports. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

Pending LINK Change. Release scheduled for June 2004.

Summary Data

Six (6) calendar months beyond release of LINK change is required to produce the first report.

Outcome Measure 5: Repeat Maltreatment of In-Home Children

Measure

No more than **7%** of the children who are victims of substantiated maltreatment during any six-month period shall be the substantiated victims of additional maltreatment during any subsequent six-month period. This outcome shall begin to be measured within the six-month period beginning March 1, 2004.

Measurement Procedure

- A. The Monitor shall determine if this outcome has been achieved through a LINK six-month outcome report. DCF will report every six (6) months on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for one (1) six (6) month period and maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

- Query the LINK database to retrieve all investigations completed during the period 1/1/YYYY – 6/30/YYYY to then determine all associated, substantiated allegations (including type), substantiated victims and designated worker and office.
- Query the LINK database to retrieve all investigations completed during the period 1/1/YYYY – 6/30/YYYY to then determine all associated, substantiated allegations (including type), substantiated victims and designated worker and office.
- Compare the two datasets to determine the substantiated victims contained in both extracts.
- Divide the number of repeat victims by the number of total victims to determine percentage of repeat maltreatment.

Summary Data

Period 4/1/2003 – 3/31/2004

Office	Substantiated Victims 4/1/30 - 9/30/03	Repeat Victims 10/1/03 - 3/31/04	% Repeat Maltreatment
Bridgeport Office	1,129	58	5.1%
Danbury Office	554	59	10.6%
Hartford Office	1,062	32	3.0%
Hotline	187	5	2.7%
Manchester Office	1,355	130	9.6%
Meriden Office	581	34	5.9%
Middletown Office	205	4	2.0%
New Britain Office	1,172	98	8.4%
New Haven Office	1,935	178	9.2%
Norwalk Office	81	10	12.3%
Norwich Office	1,198	68	5.7%
Stamford Office	141	14	9.9%
Torrington Office	188	11	5.9%
Waterbury Office	695	33	4.7%
Willimantic Office	788	46	5.8%
Total	11,271	780	6.9%

Outcome Measure 6: Maltreatment of Children in Out-of-Home Care

Measure

No more than **2%** of the children in out-of-home care on or after January 1, 2004 shall be the victims of substantiated maltreatment by substitute caregivers while in out-of-home care.

Definitions

- Maltreatment by parents or guardians while the child is in out-of-home care are not counted for the purpose of this measurement.
- Regulatory violations are not considered substantiations, and shall be handled as specified in DCF policy.

Measurement Procedure

- The Monitor shall determine if this outcome has been achieved through LINK quarterly outcome reports. DCF will report quarterly on the barriers to meeting this measure.
- The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

- Query the LINK database to retrieve all investigations completed during the period to then determine all associated, substantiated allegations (including type), substantiated victims and the date of the associated CPS Report(s).
- Query the LINK database to retrieve all Juan F. children in an open placement during the period.
- Compare the two datasets to identify children contained in both extracts to then compare the CPS Report date to the child's placement begin and end date.
- Divide the number of children involved in instances where the CPS Report date fell within the placement dates by the total number of Juan F. children in care during the period.

Summary Data

Office	Substantiated Victims While In Care	Juan F. Children In Care	%
Unassigned	0	122	0.0%
Bridgeport Office	0	553	0.0%
Danbury Office	1	156	0.6%
Hartford Office	5	953	0.5%
Manchester Office	0	598	0.0%
Meriden Office	0	215	0.0%
Middletown Office	0	147	0.0%
New Britain Office	3	614	0.5%
New Haven Office	4	1,067	0.4%
Norwalk Office	0	86	0.0%
Norwich Office	1	566	0.2%
Stamford Office	0	72	0.0%
Torrington Office	0	163	0.0%
Waterbury Office	0	602	0.0%
Willimantic Office	1	460	0.2%
Totals	15	6,374	0.2%

Outcome Measure 7: Reunification

Measure

At least **60%** of all children who are reunified with their parents or guardians shall be reunified within 12 months of their most recent removal from the child's home.

Measurement Procedure

- A. DCF shall report quarterly on the number of children who are reunified, and what percentage of those were reunified within 12 months of the child's removal from his/her home. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

- Query the LINK database to retrieve all **discharges** from care during the period where the discharge reason is Reunification (using AFCARS discharge methodology).
- Subtract the child's most recent removal from home date from the discharge date.
- Divide the number of children whose length of time to reunification was 12 months or less by the total number of children reunified with their parents or primary caretakers during the period.

Summary Data

Six (6) month lag beyond end of reporting period required to determine children discharged during the period. First quarter 2004 report available October, 2004.

Outcome Measure 8: Adoption

Measure

At least **32%** of the children who are adopted shall have their adoptions finalized within 24 months of the child's most recent removal from his/her home.

Measurement Procedure

- A. DCF shall report quarterly on the number of children who are adopted, and what percentage of those are adopted within 24 months of the child's removal from their home. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with the measure.

Data Mapping

- Query LINK to retrieve all children who were adopted during the reporting period by determining the **Effective Date** of the **Adoption Court Disposition**.
- Subtract each child's most recent removal from home date from the Effective Date of the adoption to determine the months to adoption.
- Divide the number of children adopted within 24 months of entry in to care by the total number of children adopted during the reporting period.

Summary Data

1Q 2004			
Office	Total Adoptions	Adoptions In 24 Mos.	%

Outcome Measure 9: Transfer of Guardianship

Measure

At least **70%** of all children, whose custody is legally transferred, shall have their guardianship transferred within 24 months of the child's most recent removal from their home.

Measurement Procedure

- A. DCF shall report quarterly on the number of children whose guardianship is legally transferred, and what percentage of those were legally transferred within 24 months of the child's removal from their home. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

- Query the LINK database to retrieve all instances of a recorded Court Disposition where the effective date of the transfer of legal guardianship falls within the reporting period.
- Subtract each child's most recent removal from home date from the effective date of the transfer of guardianship to determine the number of months between removal and custody transfer.
- Divide the number of children whose custody transfer occurred within 24 months of their entry in to care by the total number of children whose custody was transferred during the period.

Summary Data

1Q 2004			
Office	Total Transfers ²	Transfers Within 24 Months	%
Bridgeport Office	10	8	80.0%
Danbury Office	0	0	0%
Hartford Office	14	7	50.0%
Manchester Office	3	1	33.3%
Meriden Office	2	0	0%
Middletown Office	2	2	100.0%
New Britain Office	8	6	75.0%
New Haven Office	8	5	62.5%
Norwalk Office	4	1	25.0%
Norwich Office	4	3	75.0%
Stamford Office	1	1	100.0%
Torrington	0	0	0%
Waterbury Office	22	17	77.3%
Willimantic Office	8	3	37.5%
Total	86	54	62.8%

² Of the 112 Transfers during the period, 26 children (23%) have no recorded removal date. For records without a removal date length of time cannot be calculated.

Outcome Measure 10: Sibling Placement

Measure

At least 95% of the siblings entering out-of-home placement shall be placed together unless there are documented therapeutic reasons for separate placements.

Definitions

Therapeutic reasons include such things but are not limited to situations where siblings are placed with multiple relatives, one (1) sibling requires hospitalization and others do not, where siblings were abused by another sibling, etc. The therapeutic reason the siblings must be placed apart shall be documented in LINK by the DCF supervisor.

Measurement Procedure

- A. DCF shall report quarterly on this outcome measure. The percentage will be determined by averaging the three (3) months in each quarter. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure

Data Mapping

Pending LINK Change. Release scheduled for June 2004.

Summary Data

One (1) calendar quarter beyond release of LINK change is required to produce the first report.

Outcome Measure 11: Re-Entry into DCF Custody

Measure

Of all children who enter DCF custody, **7%** or fewer shall have re-entered care within 12 months of the prior out-of-home placement.

Measurement Procedure

- A. The Monitor shall determine if this outcome has been achieved through LINK quarterly reports. The percentage will be determined by averaging the three (3) months in each quarter. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

- Query the LINK database to retrieve all children entering care during the period.
- Retrieve the most recent discharge from care date for each child (if any).
- Subtract the most recent discharge date from the entry date to determine time between discharge and re-entry.
- Divide the number of children re-entering care within twelve months by the number of children entering care during the period.

Summary Data

Six (6) month lag beyond end of reporting period required to determine children discharged during the period. First quarter 2004 report available October, 2004.

Outcome Measure 12: Multiple Placements

Measure

Beginning on January 1, 2004, at least **85%** of the children in DCF custody shall experience no more than three (3) placements during a 12 month period.

Measurement Procedure

- A. The Monitor shall determine if this outcome has been achieved through LINK quarterly reports. The percentage will be determined by averaging the three (3) months in each quarter. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Definitions

This includes Safe Home placements but excludes respite, hospitalizations of less than seven (7) days, home visits, runaways or children sent to the Connecticut Juvenile Training School.

Measurement Procedure

- A. The Monitor shall determine if this outcome has been achieved through LINK quarterly reports. The percentage will be determined by averaging the three (3) months in each quarter. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

Use AFCARS logic to determine placement settings for children entering care after 1/1/2004.

Summary Data

1Q 2004	Children Entering Care	Children With 3 or Less Settings	%
Bridgeport Office	79	78	98.7%
Central Office	18	16	88.9%
Danbury Office	19	19	100.0%
Hartford Office	87	85	97.7%
Manchester Office	77	74	96.1%
Meriden Office	31	29	93.5%
Middletown Office	16	16	100.0%
New Britain Office	92	84	91.3%
New Haven Office	134	134	100.0%
Norwalk Office	15	15	100.0%
Norwich Office	83	78	94.0%
Stamford Office	8	8	100.0%
Torrington Office	27	27	100.0%
Waterbury Office	62	62	100.0%
Willimantic Office	51	51	100.0%
Unassigned	40	40	100.0%
Totals	839	816	97.3%

Outcome Measure 13: Foster Parent Training

Measure

Licensed DCF foster or pre-adoptive parents shall be offered 45 hours of post-licensing training within 18 months of initial licensure and at least 9 hours each subsequent year. This measure does not apply to relative, special study or independently licensed foster parents for whom 8 hours of pre-service training is required.

Definitions

The Department will ensure that all modules requiring social worker attendance are attended by social workers. The Department will also hold training sessions near foster parents, offer daycare, night and weekend training sessions and other inducements to make it likely that foster parents can attend the training. Attendance at training will be a factor considered in licensure or re-licensure of foster parents.

Training shall be offered in the primary language of the foster parents.

Measurement Procedure

- A. The Monitor shall determine if this outcome has been achieved through LINK quarterly reports. The percentage will be determined by averaging the three (3) months in each quarter. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

N/A

Summary Data

N/A

Outcome Measure 14: Placement Within Licensed Capacity

Measure

At least **96%** of all children placed in foster homes shall be in foster homes operating within their licensed capacity, except when necessary to accommodate sibling groups.

Definitions

The placement of the sibling group must be the cause of the overcapacity to allow the exception and this must be documented in LINK.

Measurement Procedure

- A. The Monitor shall determine if this outcome has been achieved through LINK quarterly reports. The percentage will be determined by averaging the three (3) months in each quarter. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

- Query the LINK database to retrieve Provider data for all Juan F. children in placement.
- Subtract the Provider's licensed bed capacity from the number of actual placements open with the Provider.
- Exempt any overcapacity placements involving sibling groups placed together where the placement caused the license capacity to be exceeded.
- Divide the number of children placed in an overcapacity home by the number of children in placement.

Summary Data

Office	Children Placed In Overcapacity Homes	Juan F. Children In Care	%
Unassigned	-	122	100%
Bridgeport Office	37	553	93.3%
Danbury Office	3	156	98.1%
Hartford Office	102	953	89.3%
Manchester Office	72	598	88.0%
Meriden Office	4	215	98.1%
Middletown Office	12	147	91.8%
New Britain Office	43	614	93.0%
New Haven Office	99	1,067	90.7%
Norwalk Office	-	86	100%
Norwich Office	99	566	82.5%
Stamford Office	-	72	100%
Torrington Office	-	163	100%
Waterbury Office	61	602	89.9%
Willimantic Office	31	460	93.3%
Totals	563	6,374	88.3%

Outcome Measure 15: Children's Needs Met

Measure

At least 80% of all families and children shall have all their medical, dental, mental health and other service needs provided as specified in their most recently approved clinically appropriate treatment plan.

Definitions

If there are no timeframes specified in the most recent treatment plan, the timeframe used for measurement will be the six (6) months following the effective date of the treatment plan.

Measurement Procedure

- A. DCF will randomly select 25 cases quarterly for a qualitative review, including unannounced attendance at the treatment planning conferences, to determine if this outcome measure is being achieved and to report on the barriers to meeting this measure.
- B. The Monitor's Office will randomly select 15 cases quarterly for a qualitative review, including unannounced attendance at the treatment planning conferences, to determine if this outcome measure is being achieved.
- C. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

N/A

Summary Data

N/A

Outcome Measure 16: Worker-Child Visitation (Out-of-Home)

Measure

DCF shall visit at least 85% of all out-of-home children at least once a month, except for probate, interstate or voluntary cases. All children must be seen by their DCF social worker at least quarterly.

Definitions

- Children in out-of-home placement, pre-adoptive placements, and therapeutic foster home placements can be visited by other social workers (ICPC or private agency) if the visit is at least once a month and a report documenting the substantive content of the visit is sent to DCF and entered into LINK.
- These requirements are minimal, especially for younger children who are most vulnerable to maltreatment. Such children shall be visited more frequently and this shall be documented in LINK.

Measurement Procedure

- A. DCF shall report quarterly on this outcome measure. The percentage will be determined by averaging the three (3) months in each quarter. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

Pending LINK Change. Release scheduled for June 2004.

Summary Data

One (1) calendar month beyond release of LINK change is required to produce the first report.

Outcome Measure 17: Worker-Child Visitation (In-Home)

Measure

DCF shall visit at least 85% of all in-home family cases at least twice a month, except for probate, interstate or voluntary cases.

Measurement Procedure

- A. DCF shall report quarterly on this outcome measure. The percentage will be determined by averaging the three (3) months in each quarter. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

Pending LINK Change. Release scheduled for June 2004.

Summary Data

One (1) calendar month beyond release of LINK change is required to produce the first report.

Outcome Measure 18: Caseload Standards

Measure

By July 1, 2004 the caseload of no DCF social worker shall exceed the following caseload standards, with exceptions for emergency reasons on caseloads, lasting no more than 30 days:

- Investigators shall have no more than 17 investigative cases at any time.
- In-Home treatment workers shall have no more than 15 cases at any time.
- Out-of-Home treatment workers shall have no more than 20 individual children assigned to them at any time. This includes voluntary placements.
- Adoption and Adolescent specialty workers shall have no more than 20 cases at any time.
- Probate workers shall have no more than 35 cases at any time. When the probate or interstate worker is also assigned to provide services to the family, those families shall be counted as in home treatment cases with a ratio of 1:20 cases.
- Social workers with in-home voluntary and interstate compact cases shall have no more than 49 cases at any time.

A worker with a mixed caseload shall not exceed the maximum weighted caseload derived from the caseload standards in A through F above.

These standards supersede those of Order No. 441 dated July 29, 2003.

Measurement Procedure

- A. The Monitor shall determine if this outcome has been achieved through LINK daily reports. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

DCF Caseload Reports data will be utilized for this outcome measure.

Summary Data

Waterbury	-	4	4
Willimantic	6	26	32
	53	245	298

Outcome Measure 19: Reduction in the Number of Children Placed in Residential Care

Measure

The number of children placed in privately operated residential treatment care shall not exceed 11% of the total number of children in DCF out-of-home care.

The circumstances of all children in-state and out-of-state residential facilities shall be assessed after the Court's approval of this Exit Plan on a child specific basis to determine if their needs can be met in a less restrictive setting. The placement of any additional children out-of-state after the approval of this plan shall require the approval of the Transition Task Force.

Definitions

Residential treatment facilities are 24-hour mental health facilities, which operate for the purpose of effecting positive change and normal growth and development for emotionally disturbed, behavioral disordered and socially maladjusted youth. Children are referred through a holistic treatment plan involving DCF staff and mental health professionals. Target Population: seriously emotionally disturbed children up to age 18. State operated facilities, stand alone group homes, Safe Homes, and juvenile justice 24 hour facilities are not included in this measure.

Measurement Procedure

- A. DCF will report on the number of children in in-state and out-of-state residential facilities quarterly. DCF will report quarterly on the barriers to meeting this measure.
- B. DCF will report on its aggregate assessments of the needs of all children placed residentially sorted by in-state and out-of-state.
- C. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified compliance with this measure.

Data Mapping

Query the LINK database to retrieve all children placed under any of the designated **Residential Service Types** (see [glossary](#)).

Summary Data

Office	Children in Residential Care 3/31/2004	Juan F. Children in Care	Percentage
Unassigned	34	122	27.9%
Bridgeport Office	65	553	11.8%
Danbury Office	19	156	12.2%
Hartford Office	110	953	11.5%
Manchester Office	88	598	14.7%
Meriden Office	34	215	15.8%
Middletown Office	40	147	27.2%
New Britain Office	75	614	12.2%
New Haven Office	170	1,067	15.9%
Norwalk Office	11	86	12.8%
Norwich Office	68	566	12.0%
Stamford Office	19	72	26.4%
Torrington Office	29	163	17.8%
Waterbury Office	74	602	12.3%
Willimantic Office	51	460	11.1%
Total	887	6,374	13.9%

Outcome Measure 20: Discharge Measures

Measure

At least **85%** of all children age 18 or older shall have achieved one or more of the following prior to discharge from DCF custody:

- A. Graduation from High School
- B. Acquisition of a GED
- C. Enrollment in college or other post secondary training program full-time.
- D. Enrollment in college or other post secondary training program part-time with part-time employment.
- E. Full-time Employment
- F. Enlistment full-time member of the military

Measurement Procedure

- A. The Monitor shall determine if this outcome has been achieved through quarterly outcome reports. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified with this measure.

Data Mapping

Pending LINK Change. Release scheduled for June 2004.

Summary Data

One (1) calendar month beyond release of LINK change is required to produce the first report.

Outcome Measure 21: Discharge of Mentally Ill or Retarded Children

Measure

DCF shall submit a written discharge plan to either/or DMHAS or DMR for all children who are mentally ill or mentally retarded and require adult services.

Measurement Procedure

- A. The Monitor shall determine if this outcome has been achieved through quarterly outcome reports. DCF will report quarterly on the barriers to meeting this measure.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified with this measure.

Data Mapping

N/A

Summary Data

N/A

Outcome Measure 22: Multi-disciplinary Exams (MDE)

Measure

At least **85%** of the children entering the custody of DCF for the first time shall have an MDE conducted within 30 days of placement.

All cases should have a multi-disciplinary exam completed even if one cannot be done within 30 days.

Definitions

A written report documenting the results of the MDE is due to DCF before treatment planning conference.

Measurement Procedure

- A. DCF will randomly select 25 cases quarterly for a qualitative review, including unannounced attendance at the treatment planning conferences, to determine if this outcome measure is being achieved.
- B. The Monitor shall find that DCF has complied with this outcome measure when DCF has documented this outcome measure in LINK for two (2) consecutive quarters, maintains compliance through exit from this action, and the Monitor has verified with this measure.

Data Mapping

- Query the LINK database to retrieve all children entering care (removal date) for the first time.
- Retrieve the MDE Date for each child.
- Filter out children with a valid **Exception Code**
- Subtract the removal date from the MDE Date to determine number of days to exam.
- Divide the number of children with an MDE completed within 30 days by the number of children entering care.

Summary Data

Period 11/1/2003 – 2/29/2004 (1 mo. lag to allow for 30 day placement)

Glossary

AFCARS	AFCARS (Adoption and Foster Care Automated Reporting System) is a federal program that requires states to report specific data on every child in the care/custody of the states' child welfare agency during a defined period. AFCARS data and/or data extraction methodology can be reused for the purposes of the Juan F. vs. Rowland Exit Plan in measures that require foster care data spanning a reporting period rather than a specific point in time. Connecticut DCF's AFCARS extract is adjusted for the purposes of this Exit Plan to exclude Juvenile Justice children who are not dually committed.
Court Disposition	Court hearing held subsequent to an adjudication in which the judge after considering the facts of the Social Study and the total circumstances of the child, orders whatever action is in the best interests of the child.
Discharge	Initial Criteria - Discharge from care is determined by first querying the LINK database to retrieve any placements where the placement ending was accompanied by a Yes answer to the question "Is the end of this placement a discharge from all placements?" For placement endings that were designated as a discharge, the following criteria is used to determine a child's actual discharge from care date: <ol style="list-style-type: none">1. If the initial discharge criteria is met and there are no subsequent placements, then check for a Court Disposition that contains a change in Legal Status to Not Committed where the effective date of the court disposition is greater than or equal to the placement end date, use the Effective Date of that Court Disposition as the discharge date.2. If the initial discharge criteria is met and there are no subsequent placements and the child's legal status is anything but Not Committed or Unknown (conversion) then add six months to the end date of the placement.3. If the initial discharge criteria is met and there are no subsequent placements and there is no legal history then use placement end date as the discharge date.
Effective Date	Data field existing in LINK data window used to record Court Disposition of Legal Activity on a case. This date is used to reflect the actual date that the court ordered activity is effective as of.
Exception Code	Code(s) used to indicate that there are valid reasons for the Multidisciplinary Evaluation not being completed in accordance with policy.
Investigation	A fact-finding process that gathers information already begun during the report-taking phase of allegations child abuse, neglect or in danger of abuse. The fact finder (i.e. investigator) must acquire and analyze information to determine whether a child has been abused or neglected and is in need of protective services or other services offered by the Department or the community. DCF Policy 34-2-2 "Investigation Process"
Juvenile Justice	A system that provides individualized supervision, care, accountability and treatment in a manner consistent with public safety to those juveniles who violate the law.

LINK	LINK is the agency’s Federally subsidized case management system, or SACWIS (State Automated Child Welfare Information System)
Removal From Home	Removals from home are characterized by a placement entry in LINK that is accompanied by a Yes answer to the question, “Is this a removal from home?”
Report	Report: is defined as a verbal, written, or in-person communication to the Department that alleges abuse, neglect or in danger of abuse of a person under eighteen (18) years of age, or of a person over eighteen years of age who is a Department client. A “report of alleged abuse, neglect, or a child in danger of abuse or neglect” comes into existence designates a response time for commencement of the investigation. The report is in LINK and can be found under the Intake Icon, CPS Report, RTM (i.e. Response Time Matrix) Tab, Response Time designation. DCF Policy 33-2 “CareLine: Introduction”
Residential Service Types	306 Residential School - CPS 307 Residential Tx - CPS 325 Residential School - Mental Health 328 Residential Tx - Mental Health 334 Residential Tx - Substance Abuse 514 Residential Tx - Mental Health/Sex Offender 515 Residential Tx - Mental Health Intensive
Service Types	Service Types are various codes used in LINK when an out of home placement is recorded to designate the specific type of placement. (i.e. “Age 0-5 Foster Care, Shelter – Temporary, Residential Treatment – CPS). Every LINK placement is recorded with a Service Type.
Sibling Placement	A brother and/or sister group should be placed together unless there are documented therapeutic reasons for separate placements. Therapeutic reasons include, but are not limited to situations where siblings are placed with multiple relatives, one sibling requires hospitalization and others do not, where siblings were abused by another sibling, etc. Safety factors and the children’s best interests should be considered when making this determination. The therapeutic reason why the siblings must be placed apart shall be documented in the LINK narrative by the DCF Supervisor. Documentation of placements can be found in LINK under the Placement Icon and/or in the LINK narrative.
Transfer of Guardianship	A relative or non-related person who has a judicially created relationship between a child or youth that is intended to be permanent and self-sustaining. This person has the obligation of care and control of the minor child and the authority to make major decisions affecting the child’s or youth’s welfare.
Treatment Plan	Is a written, clinically appropriate, working agreement between the child, family, caretakers if any, service provider(s) and DCF. The agreement describes and documents the child and/or family’s service needs as well as what DCF, the family and/or the child is required to do to achieve the goals of the plan. Clinically appropriate treatment plans are those in which there is a complete and thorough assessment and the goals, and objectives outlined (which are observable and measurable) are appropriately matched to the identified needs, presenting issues and/or problem areas of the child and/or family. A complete and thorough assessment should include the following elements: (1) a

description of household members and status in the family; (2) current issues and reason why the case was open, including presenting issues and problem areas; (3) prior case history with the Department; (4) family issues as perceived by the parent caretaker; (5) family strengths and needs, (6) legal status, including all legal activity and actions, and the status thereof, (7) a description of services offered and provided to prevent removal of the child from the home and/or to reunify the family; (8) overall case goal and how the goal will be measured and achieved; (9) responsibilities and timelines for completing expectations related to the case goal (activities within the planning period); and (10) educational and health considerations presently being addressed; and (11) a synopsis of the current visitation plan (if applicable).

Treatment plans are developed and used to: (1) identify in a time limited and goal oriented format, the problem areas, needs and proposed services to be provided to all children, parents, relatives and caretakers who are active participants in the case; (2) document and describe reasonable efforts to prevent out-of-home placement of children; (3) define mutual responsibilities and expectations of children, parents, caretakers, and service providers towards reaching identified case goals (4) document and describe reasonable efforts to reunify children with their families in a timely manner, and (5) determine sibling and parental visitation schedule if siblings are not placed together.

In addition to the core family treatment plan, there are various additional treatment plans utilized by the Department depending on the type of case being serviced. Each additional plan required should be documented in LINK under the Treatment Planning Icon. These include:

Adolescent Discharge Plan: a written working document between the youth, service providers and the Department Social Worker developed at least 180 days prior to the youth's anticipated discharge from the Department's care. The Discharge Plan should include, but is not limited to the following: the estimated date the youth will leave Department care; the youth's anticipated living arrangements, an estimate budget; sources and amount of income/assets; assistance to be provided by the Department; a schedule for meeting the worker if the youth chooses to meet with the worker; any other plans necessary to facilitate the youth's discharge from care; and to facilitate their ability to maintain permanency post-discharge.

Child in Placement Treatment Plan: a written working document between the child, family, caretaker, service provider and the Department Social Worker. This agreement describes and documents the child's services needs as well as what each party agrees is required to address the service needs and achieve the child's Permanency Plan. A child in Placement Treatment Plan is created for every child in care and reviewed at specific times per policy. A complete and thorough child assessment should include the following elements: (1) a description of the child; (2) the child's strengths and needs; (3) family issues as they pertain to the child; (4) a description of the circumstances leading to the placement episode; (5) prior placement history; (6) reasonable efforts made to reunify the

child with their family in a timely manner, including a description of the services that have been offered and provided; (7) case goal and how it will be measured and achieved; (8) progress and barriers towards meeting the child's permanency goal; (9) concurrent planning steps (when reunification is the goal); (10) mutual responsibilities and expectations of children, parents, caretakers, and service providers for reaching identified case goals; (11) legal activity and status; (12) educational status/issues; (13) MDE results and plan to address results/health considerations; and (14) a synopsis of the current visitation plan.

Health Treatment Plan Addendum: A plan developed for every child in out-of-home care, or for a child who is a member of a family receiving treatment services that has a documented unmet medical need. The plan shall describe a procedure for gathering any diagnostic/assessment needed and shall specify any and all health services to be provided to the child and/or the child's biological parents.

Independent Living Case Plan: a written working document between the youth, service providers and the Department Social Worker to enable permanency through independent living. This plan is documented on DCF form 2091 which includes information in the following areas: Education, Vocation, Employment/Life Skills, Housing, Financial, Health, Mental Health, Substance Abuse, Parenting, Legal Issues and Obtaining Essential Documents. Every DCF youth in out-of-home care, age sixteen or older, shall have an Independent Living Case Plan, unless there is a documented reason as to why the youth cannot live independently.
