FOR IMMEDIATE RELEASE

EXTENSION OF DELIVERY APPROVED FOR NOVEMBER-ORDERED PRODUCTS

At today's regular meeting of the Liquor Control Commission (hereinafter referred to as the "Commission"), it reviewed the November 2, 2016 letter from the Wine and Spirits Wholesalers of Connecticut, Inc. (WSWC), on behalf of its members, requesting permission to deliver beverage alcohol products ordered during the month of November 2016 through December 3, 2016.

The Liquor Control Division recommended approval of the request for two reasons: 1.) the division credited the representations made by the WSWC and 2.) research showing that past approvals have been granted, most recently last year.

It was noted that at least wholesaler indicated that the length of the delivery should only be extended through December 2, 2016, not December 3, 2016.

Accordingly, the Commission approved an extension of delivery through December 3, 2016 for all alcohol beverage product ordered through November 30, 2016. This approval is an approval for an extension of delivery only and is not an extension of taking orders at the November pricing.
