EXECUTIVE ORDER NUMBER 59

DATA REQUESTS FOR ISO NEW ENGLAND, INC.

(September 8 and September 15, 2017)

The Department of Energy and Environmental Protection (DEEP) and the Public Utilities Regulatory Authority (PURA) opened the above-referenced uncontested proceedings for administrative purposes for DEEP and PURA to jointly conduct a study and produce a report in accordance with the attached Executive Order Number 59 issued by Governor Malloy on July 25, 2017 (Executive Order). To assist DEEP and PURA in conducting this assessment, DEEP and PURA request that ISO New England Inc. (the ISO NE) respond to the following data requests:

1. Provide General Electric Multi-Area Reliability Simulation Model (GE MARS model) modelling results and analysis to show the impact of the retirement of one or both of the Millstone units, including, but not limited to, the impact on Local Sourcing Requirements and potential substitute resource futures.

2. Provide a narrative description of 1) the ISO NE application process for a generation facility owner to request to permanently delist (retire) a generating facility, and 2) the ISO NE review process for such retirement applications, including the criteria used to evaluate retirement requests. Include information on the application deadline, any deadline for ISO NE to make a determination regarding a retirement request, the date on which a facility may retire (if the request is approved), and the role of and types of reliability-must-run contracts which may be used to compensate a facility if a retirement request is denied. Include citations to the relevant ISO NE tariffs, rules or procedures governing this application and review process.

This information is necessary for DEEP and PURA to perform the resource assessment. **ISO NE is requested to file its data request response to Data Request 1 on or before 1:00 p.m. on Friday, September 15, 2017. ISO NE is requested to file its data request response to Data Request 2 on or before 1:00 p.m. on Friday, September 8, 2017.** All correspondence, written comments, and data request responses submitted to DEEP and PURA relating to the scope of the study, including emails, will be posted on the DEEP and PURA websites, unless ISO NE requests protected treatment for certain information filed and the request is approved by DEEP and PURA. If you need information about the process for how to request confidential treatment of certain information, please contact a DEEP or PURA Case Coordinator identified below.

Any filings made in these proceedings shall be submitted to both DEEP and PURA through their respective website filing systems, the process for which is explained below. All documents submitted in these proceedings should contain the above caption referencing both proceedings and should be filed in both proceedings.

When filing documents with DEEP, documents may be filed electronically on DEEP's website or submitted to DEEP.EnergyBureau@ct.gov. Persons filing electronically for the first time will be required to register prior to submission. Please create your account at least 24 hours in advance to ensure timely filing. If you have a problem with the electronic web filing system, you can contact the DEEP IT help desk at 860-424-4169 or at DEEP.Helpdesk@ct.gov. All materials submitted by stakeholders in this proceeding will be posted on the DEEP website. Any questions can be directed to Debra Morrell at (860) 827-2688 and/or via e-mail at DEEP.EnergyBureau@ct.gov.

PURA encourages electronic submission of all filings through the Web Filing Account Management System at <http://www.ct.gov/pura/>. Persons filing electronically must create an account through the Authority's website under Docket Services (Make a Web Filing). Once registered, you may proceed to the Docket Database Web Filing System to log on and submit your filing. The date and time of filing shall be the date and time the Authority first receives a complete electronic version or the paper version and the required number of paper copies. If a complete electronic version of the filing is submitted through the Authority's Web Filing System, only one paper version of the filing is generally required. For exceptionally voluminous or complex filings, the Authority reserves the right to request additional paper copies. If a complete electronic version of the filing is not web filed, submit an original and one copy.

Additional information is available at DEEP's website: www.ct.gov/deep/energyfilings and PURA's website: <http://www.ct.gov/pura/>. The DEEP case coordinator assigned to this proceeding is Debra Morrell, who can be reached at (860) 827-2688 or via e-mail at DEEP.EnergyBureau@ct.gov. The PURA case coordinator assigned to this proceeding is Laura Lupoli, who can be reached at (860) 827-2631 or via e-mail at Laura.Lupoli@ct.gov.
