

Revised Geologic Map for Part of the Area East of the Triassic Border Fault in Eastern Connecticut

Compiled and interpreted by J.L. Rosenfeld, 1957

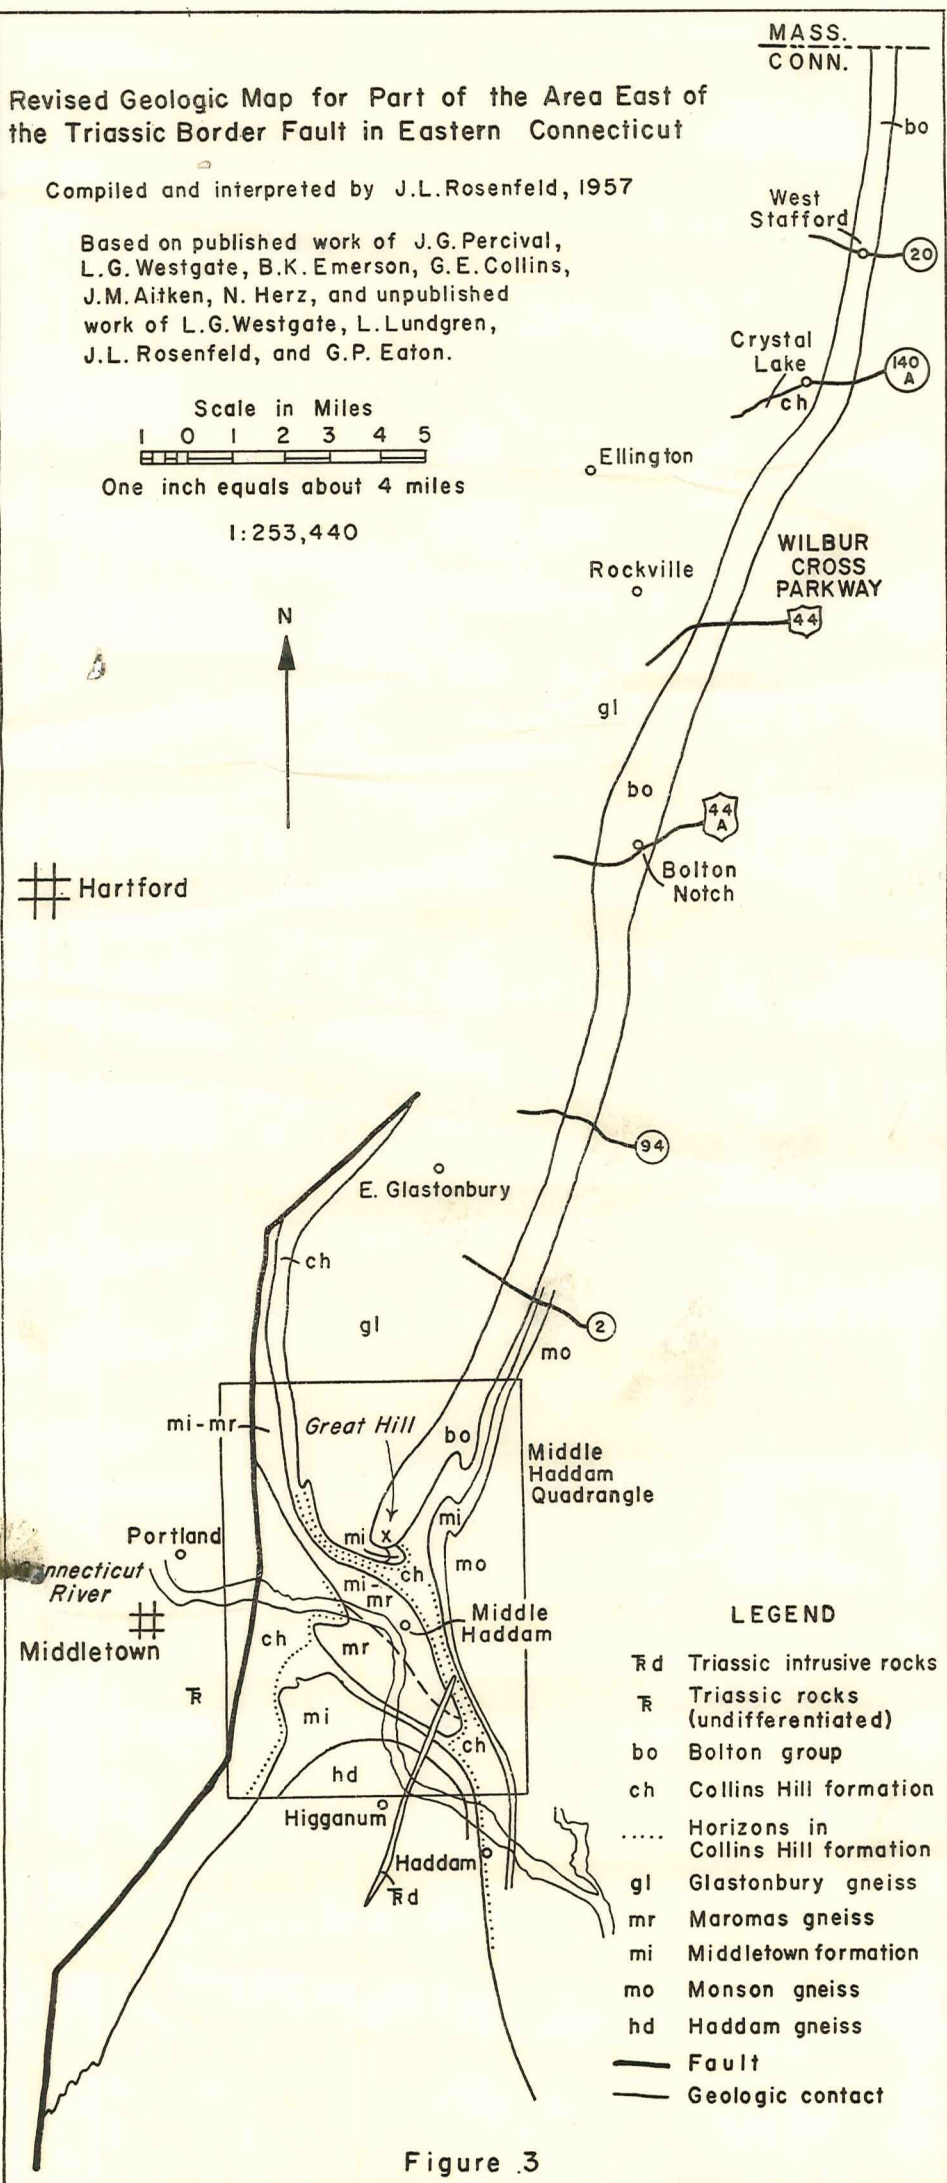

Based on published work of J.G. Percival, L.G. Westgate, B.K. Emerson, G.E. Collins, J.M. Aitken, N. Herz, and unpublished work of L.G. Westgate, L. Lundgren, J.L. Rosenfeld, and G.P. Eaton.

Scale in Miles  
 1 0 1 2 3 4 5  
 One inch equals about 4 miles

1:253,440

N

Hartford

LEGEND

- Rd Triassic intrusive rocks
- R Triassic rocks (undifferentiated)
- bo Bolton group
- ch Collins Hill formation
- ..... Horizons in Collins Hill formation
- gl Glastonbury gneiss
- mr Maromas gneiss
- mi Middletown formation
- mo Monson gneiss
- hd Haddam gneiss
- Fault
- Geologic contact
