General Permit to Construct and Operate a Commercial Facility for the Management of Recyclable Materials and Certain Solid Wastes

Professional Engineer Certification

This PE certification statement must be included with the submission of a New registration for activities not previously authorized and for the addition of a new Solid Waste Facility Category at an existing facility. The following certification must be signed by a Professional Engineer. When applicable, a registration will be considered incomplete without this certification. Attach one certification form for every P.E. associated with the preparation of the Registration being submitted.

"I certify based on my review and on my professional judgment that the management of Recyclables and other Solid wastes at the Commercial Facility will be in accordance with the conditions of the General Permit. I am aware that there are significant penalties for false statements in this certification, including the possibility of fine and imprisonment for knowingly making false statements".

Signature of Professional Engineer

Date

Printed Name of Professional Engineer

P.E. Number (if applicable)
