

What medications did you give the patient? Name, dosage and route of administration.

The medications codes come from RxNorm.

TIP: If a medication was given, it must be entered here, even if you also put it in the patient care narrative.

Enter medication name, medication route, dosage and dosage units in SEPARATE fields

MEDICATION	Usage	Label	Constraints	Edit
eMedication.01	Required	Date/time medication administered	date/time pattern	If no meds administered, may be NOT value
eMedication.02	Required	Medication documented was given PRIOR TO this unit's care	NEMESIS CODE	Dropdown codes for No, Yes, NOT Values
eMedication.03	Required	Medication given to the patient	RxNorm codes	Mandatory if medication was given. May use NOT value or Pertinent Negative as needed. If medication is not on list, choose "Medication Not Listed" and add info also to narrative or notes.
eMedication.04	Required	ROUTE medication was given	NEMESIS CODE	Expected if medication given. Do not combine with the medication name
eMedication.05	Required	DOSAGE of medication given	decimal/fraction	Expected if medication given. Do not combine with the medication name
eMedication.06	Required	Dosage UNITS	NEMESIS CODE	Expected if medication given. Do not combine with the medication name
eMedication.07	Required	Response to Medication	NEMESIS CODE	Expected if medication given. Or NOT value
eMedication.08	Required	Medication Complication	NEMESIS CODE	Expected if medication given. Or NOT value
eMedication.10	Required	Role/Type of Person Administering Mediation	NEMESIS CODE	Expected if medication given. Or NOT value

Usage: Indication of when the data element is expected to be collected.

- Mandatory** = Must be completed; does not allow for NOT values
- Required** = Must be completed and allows NOT values
- Recommended** = Does not need to be completed; allows NOT values
- Optional** = Does not need to be completed; does not allow for NOT values
