OFFICE OF EMERGENCY MEDICAL SERVICES ***OEMS COMMUNICATIONS STATEMENT 16-07***

Date: May 25, 2016

To: All Connecticut certified EMS Instructors
All Connecticut certified and licensed EMS Organizations
All Connecticut EMS Sponsor Hospitals

From: Raffaella Coler RN, MEd. 
Director, Office of Emergency Medical Services

Re: Updated application process

Recently, OEMS has made improvements to the application process for Emergency Medical Responder, Emergency Medical Technician, Advanced Emergency Medical Technician and Emergency Medical Services Instructor. The primary objective of these changes was to improve the user experience in the application process and to minimize the number of errors, which will, in turn, speed up the certification process.

A summary of the improvements:

- The Licensing & Certification page has been redesigned to better organize the certification requirements and application process *by level of provider*.
- By registering electronically on our [eLicense website](#), initial EMT applicants by exam (only) can now submit their application for certification online.
- For all other applicants, we have created fillable pdf applications, which can now be accepted via email to: dph.emslicensingandrenewals@ct.gov.
- Instructors only need to complete and sign the Course Completion form (T-4), and send it to the email indicated above. They no longer need to include each and every application with the Course Completion form.

For questions regarding licensing & certification, please contact Alex Rodriguez via email: dph.emslicensingandrenewals@ct.gov or phone: 860-509-7975.
