provided in the RFP and information in these responses, the information in these responses shall control.

1. Question: InterChange Implementation - What is the scheduled go-live date for the system currently in DDI?

Response: The go-live date for the interChange was originally scheduled for October 1, 2007. The Department is currently determining the revised date.

2. Question: In developing the Data Warehouse Phase 2 RFP, will the consulting vendor have access to the necessary specifications for the DW to interface with InterChange?

Response: Yes. The consulting vendor will have access to the necessary specifications for the DW to interface with InterChange.

3. Question: Page 21, Item 5 - It states that the resultant contractor to develop the Data Warehouse Phase 2 IAPD and RFP is estimated to last twelve months. Does that twelve-month period include participating in vendor selection and contract negotiations?

Response: Yes. This period includes participating in vendor selection and contract negotiations.

4. Question: Pages 25-26, Item 12 - It states that the resultant contractor will be expected to fully cooperate with the data collection and reporting requirements established by the Department and with any Department staff performing contract monitoring functions. Can you please elaborate on the frequency and scope of reporting referred to?

Response: The resultant contractor will be expected to provide monthly progress reports in a format to be approved by the Department. These reports may include, but not be limited to, qualitative and quantitative measures, narrative reporting of highlights and accomplishments, and documentation of any programmatic challenges and corrective action plans.

5. Question: Page 27 - The MITA State Self-assessment process is founded upon the assessment of business processes and their associated capabilities and subsequent assignment of maturity levels. It is challenging to segregate the processes related to data warehouse functionality as many of the MITA-defined processes leverage the information to support the process. Has CT conducted on overall MITA State Self-assessment from which this contractor

may draw applicable data for inclusion in the IAPD? If not, does CT expect the contractor to complete the full State Self-assessment and then extract the applicable process information for inclusion in the IAPD?

Response: Connecticut has not conducted an overall MITA State Self-assessment. Connecticut does not expect the resultant contractor to complete the full State Self-assessment. As stated in the Scope of Services, it is the resultant contractor's responsibility to conduct a State Self-assessment of the goals and objectives of the Data Warehouse Phase 2.

6. Question: Page 29 - It refers to both hourly and deliverable-based fees. What are the circumstances by which either payment method may be used?

Response: The Department has amended the Business Proposal requirements. During contract negotiations, the Department and successful bidder will negotiate payments, which may include a combination of payments by a firm fixed-price by deliverables or payments calculated by hourly rates and actual hours worked.

7. Question: Page 15 - Is the State willing to consider modifications to the terms and conditions of the contract language?

Response: A bidder may suggest alternate language after having accepted without qualification the Terms and Conditions as specified in the PSA contract. The Department may, after consultation with the State of Connecticut Attorney General's Office and the Office of Policy and Management (OPM), agree to incorporate the alternate language in any resultant contract; however, the Department's decision is final.

8. Question: Page 18, Conflict of Interest - If the contractor has a partner relationship with a vendor who may potentially bid on the Data Warehouse Phase 2 project, would that be considered a conflict to the State?

Response: Yes. Any type of partner relationship with a vendor who may potentially bid on the Data Warehouse Phase 2 project will be considered a conflict.

9. Question: Page 24 - What percentage of the project is expected to be performed by the State vs. the Contractor?

Response: It is expected that this project be performed totally by the resultant contractor, with the exception of the Department's responsibilities as noted in Section IV.B.11.

10. Question: Page 28 - How much onsite work is expected of the Contractor?

Response: As stated in Section IV.B.5, a "considerable amount of time will be spent at the Department."

11. Question: Page 29 - Is the State looking to pay based on hourly rates or a fixed-price deliverable-based contract?

Response: Please refer to the response in Item #6 above.

12. Question: General Question - Is the State's preferred solution that the fiscal agency builds the warehouse or is the State open to the data warehouse housed by the vendor?

Response: The Data Warehouse already exists and is housed in the State's Department of Information Technology facility. The Phase 2 project is to enhance the existing data warehouse.

13. Question: General Question - Can you provide more information on the detail of the data feeds going into the data warehouse in both the near term and the long term?

Response: The data warehouse currently houses all medical claim information and the supporting provider and recipient eligibility and demographic data. It also houses all claims processing reference data. Phase 2 will include enhancing the recipient eligibility and demographics from the Department's Eligibility Management System (EMS). Currently there are no feeds with the EMS. The current feeds to the data warehouse are:

- MMIS feed for fee-for-services claims data, fee-for-services provider eligibility and demographics, all recipient eligibility and demographics, and fee-for-services claim processing of reference data
- Mercer feed includes Managed Care encounter data and Managed Care provider data

- CHN feed is same data layout as the Managed Care feeds but for SAGA encounter claims
 - ACS feeds include capitation payments for the HUSKY A and B programs
14. Question: General Question - What is your anticipated timeline and milestones to release the RFP for the Data Warehouse Phase 2?
- Response: It is anticipated that the RFP for a vendor to implement the Data Warehouse Phase 2 will be released in June 2008.
15. Question: General Question - Does the State have an overall budget for the project?
- Response: The Department is developing budget estimates for this project.
16. Question: Page 2 (Section I.B.2) and Page 28 (Section IV.C.12.6): Is the State Self-Assessment (SS-A) for the Data Warehouse business functions only? If yes, how will the MITA SS-A be conducted for all other MMIS business functions? Will they be performed in conjunction with the Data Warehouse SS-A?
- Response: Yes. The SS-A is for the Data Warehouse Phase 2 business functions only. The overall SS-A is not part of the scope of this RFP.
17. Question: Pages 3-4 (Section I.D): Who will be responsible for Phase 1 certification of the MARS and SURS data warehouse (once the interChange MMIS is implemented)? Is the State seeking certification assistance?
- Response: The Centers for Medicare and Medicaid Services will certify the Data Warehouse Phase 1 MARS and SURS components. Certification is not part of this RFP. The State is not seeking certification assistance.
18. Question: Page 4 (Section I.E.1): What are the plans for these data sources? That is, are they static/proven or undergoing substantial changes like the MMIS?
- Response: Claims data is subject to change as claims adjustments are received. MMIS reference, provider, and recipient data is a full file replace for each load cycle.

19. Question: Page 21 (Section IV.B.5): Please confirm that the twelve-month contract timeline is for conducting the tasks described in Section IV.C.1.a (1-10) - preparing the IAPD and RFP, conducting the SS-A, and obtaining CMS approval - and that procurement activities and contract negotiations will fall outside of the twelve-month timeframe. If yes, does the State have a desired timeframe for completing the procurement and contract negotiation tasks?

Response: All tasks fall within the twelve-month timeframe.

20. Question: Pages 24-25 (Section IV.B.11.a-b): Will the State's designated Project Manager also be available to provide coordination between the selected consultant and other State vendors (e.g., EDS) as needed?

Response: Yes.

21. Question: Page 26 (Section IV.B.12): Please clarify what is expected of the selected contractor related to the State's "data collection and reporting requirements."

Response: Please refer to the response in Item #4 above.

22. Question: Page 28 (Section IV): Please confirm our understanding that the Scope of Services for this project is complete when the State executes a contract with the selected vendor.

Response: The scope of the consultant services as set forth in this RFP will end when each task is completed to the Department's satisfaction, which we anticipate will coordinate with the execution of the vendor contract. It is further anticipated, however, that that Department will seek to obtain consultant services to assist the Department with the monitoring and quality assurance activities of the Data Warehouse Phase 2 vendor.

23. Question: Page 28 (Section IV.C.1.c): The last sentence in this section is cut off (The Resultant Contractor, shall submit ...). Should there be additional language to complete this sentence or should this language be removed?

Response: This sentence should have been omitted.

SECTION I - OVERVIEW OF THE STATE OF CONNECTICUT DEPARTMENT OF SOCIAL SERVICES AND THE PROJECT

A. DEPARTMENTAL OVERVIEW

The Department provides a broad range of services to elderly persons, disabled persons, families, and individuals who need assistance in maintaining or achieving their full potential for self-direction, self-reliance, and independent living. It administers more than ninety legislatively-authorized programs and approximately one-third of the State budget. By statute, it is the State agency responsible for administering human service programs sponsored by Federal legislation including the Rehabilitation Act, the Food Stamp Act, the Older Americans Act, and the Social Security Act. The Department is also designated as a public housing agency for administering the Section 8 Program under the Federal Housing Act.

The Department is headed by the Commissioner of Social Services and there are Deputy Commissioners for Administration and Programs. There is a Regional Administrator responsible for each of the three service regions. By statute, there is a Statewide Advisory Council to the Commissioner of Social Services and each region must have a Regional Advisory Council.

The Department administers most of its programs through offices located throughout the State. Within the Department, the Bureau of Rehabilitation Services provides vocational rehabilitation services for eligible individuals with physical and mental disabilities throughout the State. For the other programs, services are available through offices located in the three regions, with central office support located in Hartford. In addition, many services funded by the Department are available through community-based agencies. The Department has out-stationed employees at participating hospitals and nursing facilities to expedite Medicaid applications, and funds Healthy Start sites, which can accept applications for Medicaid for pregnant women and young children. Many of the services provided by the Department are available via mail or telephone.

There are four entities attached to the Department for administrative purposes only. They are the Commission on Aging, the Commission on Deaf and Hearing-impaired, the Board of Education and Services for the Blind, and the Child Day Care Council.

B. PROJECT PURPOSE

The Department has implemented a data warehouse solution, which includes decision support, Management and Administrative Reporting System (MARS), Surveillance and Utilization Review System (SURS), and Fraud Abuse and Overpayment (FAO) reporting capabilities. The Department is

planning for the data warehouse to be modified, expanded, and enhanced. Presently, the data warehouse uses data from various sources, including the Department's Medicaid Management Information System (MMIS). The Department has entered into a contract with Electronic Data Systems Corporation (EDS) to replace its existing MMIS. This project is known as the interChange MMIS. The interChange design, development, and implementation (DDI) severely impacts the current data warehouse, such that major revisions may be required so that the data warehouse can function effectively. Modification, expansion, and enhancement of the data warehouse will include the addition of other data, both from within the Department, as well as from outside sources, added functionalities and capabilities, and software upgrades. These modifications, expansions, and enhancements will hereinafter be referred to as the Data Warehouse Phase 2 project.

This RFP presents an exceptional opportunity for organizations with highly-skilled individuals with extensive experience and knowledge of data warehouse systems and MMIS developments, procurements, and implementations. The professional consultant organization selected as a result of this RFP shall be required to perform the following activities related to the Data Warehouse Phase 2 project:

1. Develop the Implementation Advance Planning Document (IAPD) for submission to the Centers for Medicare and Medicaid Services (CMS)
2. Conduct a State Self-Assessment for the Data Warehouse Phase 2 project, as required by Medicaid Information Technology Architecture (MITA)
3. Develop the Request for Proposals for a vendor to implement the Data Warehouse Phase 2 project
4. Develop the proposal review and scoring criteria
5. Participate in vendor selection and contract negotiations

Organizations contemplating responding to this RFP must have extensive experience in developing and writing the IAPD as required by the State Medicaid Manual Part 11, developing and writing Request for Proposals, reviewing and scoring proposals, and developing contracts. The Department will not review proposals received from organizations/individuals that have no demonstrated experience in these arenas.

C. PROJECT BACKGROUND

The Department of Social Services is the single state agency that has the authority and bears the responsibility for the Connecticut Medicaid program, as defined under Title XIX of the Social Security Act, 42 U.S.C Section 1396, et seq. In addition to the Medicaid program, the Department is responsible for the administration of the following medical assistance programs:

- State Administered General Assistance (SAGA)
- CT AIDS Drug Assistance Program (CADAP)
- CT Pharmaceutical Assistance Contract to the Elderly and Disabled (ConnPACE)
- Connecticut Home Care Program for the Elderly

As the administrator of the State of Connecticut's Medicaid Program, the Department expended over \$5 billion on health care services during State Fiscal Year 2006. These services are delivered through two delivery models, fee-for-service and managed care. Under the fee-for-service delivery model, the Department's Office of Medical Administration processed over 17 million claims representing 33 million line items through the MMIS in State Fiscal Year 2006 for fee-for-service clients. Under the managed care model, capitation payments are made to the managed care organization, which submits back to the Department details about their delivery of service in the form of encounter data. In State Fiscal Year 2006, there were approximately 8.1 million encounter claims.

D. CURRENT DATA WAREHOUSE ENVIRONMENT

The Department's existing data warehouse/decision support system (Data Warehouse Phase 1) was implemented in December 2005 and is currently maintained by EDS through a contractual agreement with the Department.

The data warehouse is physically located at Connecticut's Department of Information Technology in East Hartford, Connecticut and is monitored and maintained remotely by EDS from their Plano, Texas and Farmington, Connecticut locations. The diagrams in Appendix XI and Appendix XII display the Data Warehouse Network and Hardware Array, respectively.

Data Warehouse Phase 1 functionality includes four components:

1. The Fraud, Abuse, and Overpayment (FAO) functionality allows the State to efficiently, cost effectively, and in a timely manner detect and investigate fraudulent, abusive, or otherwise inappropriate

reimbursements made to a Medicaid provider in violation of Connecticut Medicaid's policies or procedures or State or Federal law. FAO features include informational queries and algorithms, cost avoidance and prevention tools, random sample generator, and the Paid Claim Adjustment Request (PCAR) process.

2. The Management and Administrative Reporting Subsystem (MARS) functionality has capabilities of monitoring medical claims submission and claims processing activity, reporting Medicaid provider performance, reporting on Medicaid recipients (clients) by program and service, and reporting on all types of claims, adjustments, and financial transactions. This function was designed to meet CMS requirements for reporting on paid claims.
3. The Surveillance and Utilization Review Subsystem (SURS) functionality generates Medicaid provider and client utilization profiles and allows for the investigation and correction of defects in the level of care and quality of Medicaid services.
4. Other Data Warehouse Phase 1 Application Functions (Other Functions) support fiscal analysis, including budgetary analysis, forecasting and management, and comparison of estimated vs. actual expenditures and allows the ability to respond to information requests from State agencies, other states, Federal Agencies, the legislature, the public, and the media, within the guidelines of the Freedom of Information Act (FOIA).

Data Warehouse Phase 1 requires that both the MARS and SURS components are certified by CMS. Certification has been postponed until the interChange MMIS is implemented.

E. OBJECTIVES

The objectives of the Data Warehouse Phase 2 project are to continue to increase revenues, constrain costs, streamline and decentralize Medicaid Program reporting, and enhance the ability to monitor Medicaid Program effectiveness. The following functionalities are planned:

1. Integration of supplemental Departmental source data, comprised of:
 - a) Non-claims-related adjustments and/or other data from stand-alone data systems, i.e., wrap-around payments to Federally Qualified Health Clinic (FQHC) from the Department to makeup for Managed Care Organization (MCO) payments

E. EVALUATION AND SELECTION

It is the intent of the Department to conduct a comprehensive, fair, and impartial evaluation of proposals received in response to this RFP. Only proposals found to be responsive to this RFP will be evaluated and scored. A responsive proposal must comply with all instructions listed in this RFP, including the general proposal requirements.

F. CONTRACT EXECUTION

The contract developed as a result of this RFP is subject to State contracting procedures. These procedures include approval by the State of Connecticut Attorney General's Office. Please note that contracts become executed upon the signature of the Attorney General. No financial commitments can be made until and unless the contracts have been approved by the Attorney General. The Attorney General reviews the contract only after the parties have agreed to the provisions.

G. BIDDER DEBRIEFING

The State will notify all bidders of any award issued by it as a result of this RFP. Unsuccessful bidders may, within thirty days of the signing of the resultant contract, request a meeting for debriefing and discussion of their proposal by contacting the Office of Contract Administration in writing at the address previously provided. Debriefing will not include any comparisons of unsuccessful proposals with other proposals.

H. RIGHTS RESERVED

Upon determination that its best interests would be served, the Department shall have the right to do the following:

1. Cancellation - Cancel this procurement at any time prior to the contract award
2. Amendment of procurement - Amend this procurement at any time prior to contract award
3. Refusal to accept - Refuse to accept or return accepted proposals that do not comply with procurement requirements

6. Receipt of proposals after due date and time - Reject or refuse to evaluate any proposal that is received after the stated deadline

7. Written clarification - Require bidders, at their own expense, to submit written clarification of proposals in a manner or format that the Department may require
8. Oral clarification - Require bidders, at their own expense, to make oral presentations at a time selected and in a place provided by the Department (The Department may invite bidders, but not necessarily all, to make an oral presentation to assist the Department in their determination of award. The Department further reserves the right to limit the number of bidders invited to make such a presentation and the number of attendees per bidder.)
9. Onsite visits - Make onsite visits to the operational facilities of bidders to further evaluate the bidder's capacity to perform the duties required in this RFP
10. Allowance of proposal changes - Except as may be authorized by the Department, allow no additions or changes to the original proposal after the due date and time specified herein

14. One or more bidders - Contract with one or more bidders
15. Proposal most advantageous - Consider costs and all factors in determining the most advantageous proposal for the Department when awarding a bidder the right to negotiate a contract with the Department (while cost is a factor in determining the bidder to be awarded the right to negotiate a contract with the Department, price alone shall not determine the winning bidder)
16. Technical defects - Waive technical defects, irregularities, and omissions, if in its judgment the best interest of the Department will be served
17. Privileged and confidential information - Share the contents of any proposal with any of its designees for purpose of evaluating proposals to make an award (the contents of all meetings, including the first, second, and any subsequent meetings and all communications in the

I. PROPOSAL PREPARATION EXPENSES

The State of Connecticut and the Department assume no liability for payment of expenses incurred by bidders in preparing and submitting proposals in response to this procurement.

J. PROPOSAL DUE DATE AND TIME

The Issuing Office must receive proposals no later than **3:00 p.m. local time on Thursday, September 13, 2007**. The Department will not consider a postmark date as the basis for meeting any submission deadline. Bidders should not interpret or otherwise construe receipt of a proposal after the closing date and time as stated herein as acceptance of the proposal, since the actual receipt of the document is a clerical function. The Department suggests the bidder use certified or registered mail to deliver the proposal when the bidder is not able to deliver the proposal by courier or in person. Bidders that are hand-delivering proposals will not be granted access to the building without photo identification and should allow extra time for security procedures. Bidders must address all RFP communications to the Issuing Office.

K. ACCEPTANCE OF PROPOSAL CONTENTS

If acquisition action ensues, the contents of this RFP and the proposal of the successful bidder will form the basis of contractual obligations in the final contract. The resulting contract will be a Personal Services Agreement (PSA) contract (Appendix I) between the successful bidder and the Department. The bidder's proposal must include a "Signatory Acceptance" (Appendix II), without qualification, of all terms and conditions as stated within this RFP and the Terms and Conditions for a PSA contract. A successful bidder may suggest alternate language after having accepted without qualification the Terms and Conditions as specified in the PSA contract. The Department may, after consultation with the State of Connecticut Attorney General's Office and the Office of Policy and Management (OPM), agree to incorporate the alternate language in any resultant contract; however, the Department's decision is final. Any proposal that fails to comply in any way with this

requirement may be disqualified as non-responsive. The Department is solely responsible for rendering decisions in matters of interpretation on all terms and conditions.

L. BIDDER ASSURANCES

1. Independent price determination - By submission of a proposal and through assurances given in its Transmittal Letter, the bidder certifies that in connection with this procurement the following requirements have been met:
 - a) Costs - The costs proposed have been arrived at independently, without consultation, communication, or agreement, for restricting competition, as to any matter relating to such process with any other organization or with any competitor.
 - b) Disclosure - Unless otherwise required by law, the costs quoted have not been knowingly disclosed by the bidder on a prior basis directly or indirectly to any other organization or to any competitor.
 - c) Competition - No attempt has been made or will be made by the bidder to induce any person or firm to submit or not submit a proposal for restricting competition.
 - d) Prior knowledge - The bidder has no prior knowledge of RFP contents prior to actual receipt of this RFP and had no part in RFP development.
 - e) Offer of gratuities - The bidder certifies that no elected or appointed official or employee of the State of Connecticut has or will benefit financially or materially from this procurement. Any resultant contract arising from this procurement may be terminated by the State if it is determined that gratuities of any kind were either offered to or received by any of the aforementioned officials or employees from the contractor, the contractor's agent, or the contractor's employees.
 - f) Campaign Contribution Restrictions - The bidder certifies receipt of SEEC Form II.
2. Valid and binding offer - The proposal represents a valid and binding offer to provide services in accordance with the terms and provisions described in this RFP and any amendments or attachments hereto.

3. Press releases - The bidder agrees to obtain prior written consent and approval from the Department for press releases that relate in any manner to this RFP or any resulting contract.
4. Restrictions on communications with Department staff - The bidder agrees that from the date of release of this RFP until the Department makes an award, that it shall not communicate with the Department's staff on matters relating to this RFP except as provided herein through the Issuing Office. Any other communication concerning this RFP with any of the Department's staff may, at the decision of the Department, result in disqualification of that bidder's proposal.
5. Experience - The bidder has experience and knowledge in developing and writing an IADP, and data warehouse and MMIS procurement process experience to perform the tasks identified in this RFP. The bidder also acknowledges and allows the Department to examine the bidder's claim with regard to experience by allowing the Department to review the bidder's related contracts or to interview contracting entities.

M. FREEDOM OF INFORMATION

Due regard will be given to the protection of proprietary information contained in all proposals received, however, bidders should be aware that all materials associated with this procurement are subject to the terms of the Freedom of Information Act (FOIA), the Privacy Act, and all rules, regulations and interpretations resulting therefrom. Bidders must provide convincing explanation and rationale to justify each exception from release consistent with §1-210 of the Connecticut General Statutes to claim proprietary exemption.

It will not be sufficient for bidders to merely state generally that the proposal is proprietary in nature and therefore not subject to release to third parties to claim an exemption. Price and cost alone do not meet exemption requirements. The particular pages or sections of the proposal that a bidder believes are proprietary must be specifically identified as such. The rationale and explanation must be stated in terms of the prospective harm to the competitive position of the bidder that would result if the identified material were to be released and the reasons why the materials are legally exempt from release pursuant to the above-cited statute.

In any case, the narrative portion of the proposal may not be exempt from release. Between the bidder and the State, the final administrative authority to release or exempt any or all material so identified rests with the State.

N. AFFIRMATIVE ACTION

Regulations of Connecticut State Agencies Section 46a68j-3(10) requires agencies to consider the following factors when awarding a contract that is subject to contract compliance requirements: the applicant's success in implementing an affirmative action plan; the applicant's success in developing an apprenticeship program complying with Section 46a-68-1 to 46a-68-17 of the Connecticut General Statutes, inclusive; the applicant's promise to develop and implement a successful affirmative action plan; the applicant's submission of EEO-1 data indicating that the composition of its work force is at or near parity when compared to the racial and sexual composition of the work force in the relevant labor market area; and the applicant's promise to set aside a portion of the contract for legitimate small contractors and minority business enterprises. A. OVERVIEW OF PROPOSAL EVALUATION

The Department will conduct a comprehensive, fair, and impartial evaluation of proposals received in response to this RFP. An Evaluation Team has been established to assist the Department in selection of contractors. The Department reserves the right to alter the composition of the Evaluation Team. The Evaluation Team will be responsible for submitting a recommendation to the Commissioner of Social Services. The Commissioner of Social Services will notify the selected bidders that the organization has been awarded the right to negotiate a contract with the Department for the Consultant for Data Warehouse Phase 2 project.

The evaluation will be conducted in five phases: Phase One: Evaluation of General Proposal Requirements and Structure, Phase Two: Evaluation of the Organizational Capacity and Structure, Phase Three: Evaluation of the Scope of Services, Phase Four: Evaluation of the Business Proposal, and Phase Five: Ranking of the Proposals.

B. PHASE ONE: EVALUATION OF GENERAL PROPOSAL REQUIREMENTS AND STRUCTURE

The purpose of this phase is to determine whether each proposal is sufficiently responsive to the minimum RFP requirements to permit a complete evaluation of the proposal. Proposals must comply with the instructions to bidders contained throughout. Failure to comply with the

instructions may deem the proposal non-responsive and subject to rejection without further consideration. The Department reserves the right to waive minor irregularities. The minimum RFP requirements are:

1. Submission of Letter of Intent - The Issuing Office must have received, no later than **Tuesday, 3:00 p.m. local time on August 14, 2007**, a Letter of Intent from the bidder that meets all of the requirements stated in this RFP.

5. Compliance with Requirements for Proposal Content - Compliance with the requirements for the Proposal Contents as specified in this RFP.

C. PHASE TWO: EVALUATION OF THE ORGANIZATIONAL CAPACITY AND STRUCTURE

Only those proposals passing the minimum requirements will be considered in Phase Two. The Department reserves the right to reject any and all proposals.

The quality of the work plan and the project management will be evaluated including the organization, completeness, and logic of the proposed plan. The Department will evaluate the experience of proposed key personnel, agency and individual resources, and qualifications and affirmative action achievement (as demonstrated on the Workforce Analysis Form) of the bidder and any subcontractors. The Department will determine to what extent the

organization and its proposed key personnel have the capacity to work effectively with the Department to successfully develop and implement a Consultant for Data Warehouse Phase 2 project.

The Department will also assess the capability of the organization to take on the additional workload that would be generated by the resultant contract and the bidder's financial ability to undertake the contract. References will be checked. The Organizational Capacity and Structure section of the proposal will be worth thirty-five percent of the available points for the entire proposal.

D. PHASE THREE: EVALUATION OF THE SCOPE OF SERVICES

The proposed Scope of Services will be evaluated for its responsiveness to the requirements of this RFP, including its organization, appropriateness, completeness, and logic. The evaluation will consider how innovative and creative the bidder is in responding to the functional and technical requirements outlined in this RFP. The Scope of Services section of the proposal will be worth fifty percent of the available points for the entire proposal.

E. PHASE FOUR: EVALUATION OF THE BUSINESS PROPOSAL

The Business Proposal will be evaluated only for bidders who achieve a minimum of seventy-five percent of the total available points in Phases Two and Three. The Business Proposal will be worth fifteen percent of the available points for the entire proposal submission. It will be scored for:

1. Cost comparison (determined by comparing bid price information)
 - a. The hourly rate for each personnel proposed for this project
 - b. The estimated number of hours necessary to complete each of the deliverables identified in this RFP

 - d. An all inclusive fixed-cost for completion of all deliverables identified in the scope of services
2. Cost reasonableness (determined by examining the Business Narrative and the relationship between the costs, personnel, and the Work Plan outlined in the proposal)

F. PHASE FIVE: RANKING OF THE PROPOSALS

Upon completion of Phases One and Two, it is possible that Evaluation Team members will interview the finalists. After the Evaluation Team has scored the proposals, the points awarded will be totaled to determine the ranking. Recommendations, along with pertinent supporting materials, will then be conveyed to the Commissioner of Social Services. The Commissioner of Social Services, at his discretion, reserves the right to approve or reject the recommendations of the Evaluation Team.

The contract to be awarded in response to this RFP is subject to contract compliance requirements mandated by §4a-60 of the Connecticut General Statutes, and when the awarding agency is the State, §46a-71(d) of the Connecticut General Statutes. Contract Compliance Regulations codified at §4a-60 et. seq. of the Regulations of the Connecticut State agencies establish a procedure for the awarding of all contracts covered by §4a-60 and 46a-71(d) of the Connecticut General Statutes.

According to §4-114a-3(9) of the Contract Compliance Regulations, every agency awarding a contract subject to the contract compliance regulations has an obligation to "aggressively solicit participation of legitimate minority business enterprises as bidders, contractors, subcontractors and suppliers of materials." "Minority business enterprise" is defined in §4a-60 of the Connecticut General Statutes as a business wherein fifty-one percent or more of the capital stock or assets belong to a person or persons: "(1) Who are active in the daily affairs of the enterprise, (2) who have the power to direct the management and policies of the enterprise, and (3) who are members of a minority, as such term is defined in subsection (a) of §32-9n." "Minority" groups are defined in §32-9n of the Connecticut General Statutes as "(1) Black Americans, (2) Hispanic Americans, (3) Women, (4) Asian Pacific Americans and Pacific Islanders, or (5) American Indians" The above definitions apply to the contract compliance requirements by virtue of §4-114a (10) of the Contract Compliance Regulations.

The awarding agency will consider the following factors when reviewing the bidder's qualifications under the contract compliance requirements:

1. The bidder's success in implementing an affirmative action plan
2. The bidder's success in developing an apprenticeship program complying with §46a-68-1 to 46a-68-17 of the Regulations of Connecticut State agencies, inclusive
3. The bidder's promise to develop and implement an affirmative action plan
4. The bidder's submission of EEO-1 data indicating that the composition of its workforce is at or near parity when compared to the racial and sexual composition of the workforce in the relevant labor market
5. The bidder's promise to set aside a portion of the contract for legitimate minority businesses. See §4-114a3 (10) of the Contract Compliance Regulations

Duty to Inform

State contractors and prospective state contractors are required to inform their principals of the above prohibitions, as applicable, and the possible penalties and other consequences of any violation thereof.

Penalties for Violations

Contributions or solicitations of contributions made in violation of the above prohibitions may result in the following civil and criminal penalties:

Civil penalties

\$2,000.00 or twice the amount of the prohibited contribution, whichever is greater, against a principal or a contractor. Any state contractor or prospective state contractor, which fails to make reasonable efforts to comply with the provisions requiring notice to its principals of these prohibitions and the possible consequences of their violations, may also be subject to civil penalties of \$2,000.00 or twice the amount of the prohibited contributions made by their principals.
