# 1 INTRODUCTION

---

GreatBlue Research, Inc. (GreatBlue) is pleased to present the results of a *2017 Mystery Shopper Survey* conducted among Connecticut Medical Assistance Program (CMAP) providers who make up the HUSKY Health Medicaid and CHIP provider network. The survey included 525 completed interviews.

This report summarizes statistics collected from **mystery shopper** interviews conducted from October 17<sup>th</sup> through November 1<sup>st</sup>, 2017. All interviews were conducted during this time.

## **Research Goals**

The primary goal of the Mystery Shopper study was to evaluate the ability of HUSKY Health Program members to obtain medical appointments. The study also sought to understand if self-identifying as a HUSKY Health Program member has an adverse effect on the availability of those appointments.

## **Study Measures**

This market research project was comprised of a single methodology studying multiple areas of investigation within a number of provider practice types. Those areas included the following:

- Appointment availability at the site desired
- Appointment availability as a result of self-identifying as a HUSKY Health Program member
- Reasons for lack of appointment availability
- Provider Network validation of open-panel practices
- Validation of PCP indicator
- Validation of accuracy of the provider network that is sent to CHNCT on a file by the CT Department of Social Service's (DSS) claims contractor.

## **Approach**

GreatBlue trained its research staff to call target provider offices posing as HUSKY Health programs members attempting to make an appointment for themselves or on behalf of their child. Researchers called stating one of the following 2 reasons for their seeking this appointment:

- a. Seeking a new provider
- b. Have recently moved to Connecticut and need to establish care

## **Target Provider Practice Types**

GreatBlue called a random sample of 5 open-panel practice types to gauge appointment availability in the upcoming weeks. The practice types were as follows:

- Primary Care Physicians
- Pediatricians
- OB/GYNs
- Cardiologists
- Otolaryngologists (ENT)

## **Methodology**

A telephone methodology was employed to inquire about the medical appointments as contemplated herein.

Calls were made within our in-house call center between the hours of 9:00 am and 5:00 pm Monday through Friday. GreatBlue employs a Computer Aided Telephone Interviewing platform to ensure quality assurance and data integrity.

Due to the nature of the study and in order to achieve a statistically reliable data set, GreatBlue completed 525 telephone interviews. This represents a margin of error of +/- 4.2% at a 95% confidence level. The completed interviews will be pro-rated based on the practice type as follows:

Practice Type	Appointment Type	No. of Completes
Primary Care Physician (PCP)	Regular check-up	177
Pediatrician	Regular check-up	120
OB/GYN	3-months pregnant	133
Cardiologist	High Blood Pressure	75
Otolaryngologist (ENT)	Ear wax build up	20

## **The Sample**

The number of completes per Practice Type is based on the active list of all in-state open panel CMAP-enrolled groups and performing providers (medical providers only) as outlined, approved, and provided by Community Health Network (CHNCT), DSS's medical Administrative Service Organization (ASO) and DSS to GreatBlue.

To derive the sample frame, the universe of providers was de-duplicated by the “provider address 1” identifying field in the active list of providers supplied by CHNCT. The “group phone number” field was used for actual calls. Doing so would ensure that only one call was placed to a unique site address while unhampering the ability to call multiple sites of a group practice with a common number. This ensured an accurate representation of “access” at a site level for all unique provider addresses that were part of the random sampling.

This represented a different approach from the 2016 study. In 2016, the universe of providers was de-duplicated by the “group phone number.”

The table below represents the universe of unique sites and unique phone numbers used to create a statistically reliable sample size for each quota. While completed call rates are traditionally higher in mystery shopper studies due to the nature of the objective, it is important to note that lack of unique records (or bad phone numbers) in some cases may have placed some quotas (the number of completed surveys) in jeopardy of being achieved. GreatBlue informed CHNCT/DSS when this was found through the fielding process if any quotas were in jeopardy so that we could discuss options.

Practice Type	Unique Sites	Unique Phone Numbers	Number of Surveys Completed
Primary Care Physician (PCP)	527	159	177
Pediatrician	224	110	120
OB/GYN	255	66	133
Cardiologist	110	48	75
Otolaryngologist (ENT)	30	21	20
Total	1146	404	525

A survey was considered complete for any call that resulted in a researcher coming to a point in the call script that said, “call ends.”

Before launching the full study, representatives from CHNCT and DSS monitored 10 pilot calls to assess the flow and quality of the approved survey instrument.

It is important to note that **no appointments** were arranged at any point during the telephone interviews. Callbacks were only implemented in the event that the GreatBlue Research Staff did not establish contact with a providers’ office (such as, no answer, busy signal, answering machine, or the staff member who arranges appointments is unavailable).

## Reporting

The final presentation of results is included in a comprehensive report. Following this Introduction, Section II contains an Executive Summary of overall study results and major findings. This analysis was made after a careful analysis of the data, which is presented in narrative format in the Summary of Findings (Section III). Section IV is the Appendix, which contains copies of the script and survey instrument utilized.

The data was tabulated and presented in accordance with the relevant question to which it pertains. In addition, cross tabulation of results based on the practice type and by Region are included. Please note, the 10 pilot calls are not included in the final results and data has not been segmented by community providers or FQHC providers due to the limited sample size in each of these groups.

Due to several changes to the survey instrument, methodology, and sampling plan from 2014 to 2015, tracking data is only available for comparison between 2015, 2016 and 2017.

GreatBlue has also provided CHNCT with a delimited file detailing any discrepancies in provider records uncovered during survey calls. These may include, but not be limited to, corrected phone numbers, corrected departments/location, and updated provider information. This information was provided separately from this final report.

GreatBlue's senior staff<sup>1</sup> and research staff completed all facets of the study. These aspects included: sample design, pre-test, fielding, coding, data entry, editing, validation, verification, computer analysis, analysis and report writing.

<sup>1</sup> Michael Vigeant and Seamus McNamee were project co-directors on the 2017 *Mystery Shopper Survey*. Their contact information is as follows:

## EXECUTIVE <sup>2</sup>SUMMARY

---

### Pertaining to the Study Measures

The following summarizes the key outcomes for the 5 provider types as they pertain to the study measures previously outlined in this report:

#### **Combined Findings Across 5 Practice Types**

- Of the 525 practices with open panels surveyed in 2017, 78.7% (or 413 practices) responded that they were accepting new patients.
  - In 2016, 77.7% (or 414 practices) responded that they were accepting new patients.
- Of the 413 practices with open panels that are accepting new patients surveyed in 2017, **82.3% (or 340 practices)** offered an appointment when the patient's HUSKY insurance was revealed.
  - Of the 414 practices with open panels that were accepting new patients surveyed in 2016 that were accepting new patients, 75.6% (or 313 practices) offered an appointment when the patient's HUSKY insurance was revealed.
- Overall, of the 525 practices with open panels surveyed in 2017, **64.8% (or 340 practices)** offered an appointment to a HUSKY patient.
  - Overall, of the 533 practices with open panels surveyed in 2016, 58.7% (or 313 practices) offered an appointment to a HUSKY patient.

#### **Adult Primary Care**

- Of the 177 Adult Primary Care Providers with open panels surveyed in 2017, 75.7% (or 134 practices) reported they were accepting new patients.
  - Of the 177 Adult Primary Care Providers with open panels surveyed in 2016, 74.6% (or 132 practices) reported they were accepting new patients.
- Of the 134 Adult Primary Care Providers with open panels that are accepting new patients surveyed in 2017, **77.6% (or 104 practices)** offered an appointment when the patient's HUSKY insurance was revealed.
  - Of the 132 Adult Primary Care Providers with open panels that are accepting new patients surveyed in 2016, 60.6% (or 80 practices) offered an appointment when the patient's HUSKY insurance was revealed.
- Overall, of the 177 Adult Primary Care Providers with open panels surveyed in 2017, **58.8% (or 104 practices)** offered an appointment to a HUSKY patient.
  - Overall, of the 177 Adult Primary Care Providers with open panels surveyed in 2016, 45.2% (or 80 practices) offered an appointment to a HUSKY patient.

### **Child Primary Care**

- Of the 120 Pediatricians with open panels surveyed in 2017, 85.8% (or 103 practices) reported they were accepting new patients.
  - Of the 120 Pediatricians with open panels surveyed in 2016, 84.2% (or 101 practices) reported they were accepting new patients.
- Of the 103 Pediatricians with open panels that are accepting new patients surveyed in 2017, 89.3% (or 92 practices) offered an appointment when the patient's HUSKY insurance was revealed.
  - Of the 101 Pediatricians with open panels that are accepting new patients surveyed in 2016, 89.1% (or 90 practices) offered an appointment when the patient's HUSKY insurance was revealed.
- Overall, of the 120 Pediatricians with open panels surveyed in 2017, 76.7% (or 92 practices) offered an appointment to a HUSKY patient.
  - Overall, of the 120 Pediatricians with open panels surveyed in 2016, 75.0% (or 90 practices) offered an appointment to a HUSKY patient.

### **OB/GYN**

- Of the 133 OB/GYNs with open panels surveyed in 2017, 80.5% (or 107 practices) reported they were accepting new patients.
  - Of the 132 OB/GYNs with open panels surveyed in 2016, 79.5% (or 105 practices) reported they were accepting new patients.
- Of the 107 OB/GYNs with open panels that are accepting new patients surveyed in 2017, 80.4% (or 86 practices) offered an appointment when the patient's HUSKY insurance was revealed.
  - Of the 105 OB/GYNs with open panels that are accepting new patients surveyed in 2016, 79.0% (or 83 practices) offered an appointment when the patient's HUSKY insurance was revealed.
- Overall, of the 133 OB/GYNs with open panels surveyed in 2017, 64.7% (or 86 practices) offered an appointment to a HUSKY patient.
  - Overall, of the 132 OB/GYNs with open panels surveyed in 2016, 62.8% (or 83 practices) offered an appointment to a HUSKY patient.

## Cardiologist

- Of the 75 Cardiologists with open panels surveyed in 2017, 69.3% (or 52 practices) reported they were accepting new patients.
  - Of the 74 Cardiologists with open panels surveyed in 2016, 66.2% (or 49 practices) reported they were accepting new patients.
- Of the 52 Cardiologists with open panels that are accepting new patients surveyed in 2017, 86.5% (or 45 practices) offered an appointment when the patient's HUSKY insurance was revealed.
  - Of the 49 Cardiologists with open panels that are accepting new patients surveyed in 2016, 87.8% (or 43 practices) offered an appointment when the patient's HUSKY insurance was revealed.
- Overall, of the 75 Cardiologists with open panels surveyed in 2017, 60.0% (or 45 practices) offered an appointment to a HUSKY patient.
  - Overall, of the 74 Cardiologists with open panels surveyed in 2016, 58.1% (or 43 practices) offered an appointment to a HUSKY patient.

## ENT

- Of the 20 ENTs with open panels surveyed in 2017, 85.0% (or 17 practices) reported they were accepting new patients.
  - Of the 30 ENTs with open panels surveyed in 2016, 90.0% (or 27 practices) reported they were accepting new patients.
- Of the 17 ENTs with open panels that are accepting new patients surveyed in 2017, 76.5% (or 13 practices) offered an appointment when the patient's HUSKY insurance was revealed.
  - Of the 27 ENTs with open panels that are accepting new patients surveyed in 2016, 63.0% (or 17 practices) offered an appointment when the patient's HUSKY insurance was revealed.
- Overall, of the 20 ENTs with open panels surveyed in 2017, 65.0% (or 13 practices) offered an appointment to a HUSKY patient.
  - Overall, of the 30 ENTs with open panels surveyed in 2016, 56.7% (or 17 practices) offered an appointment to a HUSKY patient.

The table below presents a comparison of the data collected between 2016 and 2017.

	<b>2016 # of responses</b>	<b>2016 Percent</b>	<b>2017 # of responses</b>	<b>2017 Percent</b>
<b>Providers accepting new patients:</b>				
<b>Overall</b>	<b>414 (of 533)</b>	<b>77.7</b>	<b>413 (of 525)</b>	<b>78.7</b>
Adult PCP	132 (of 177)	74.6	134 (of 177)	75.7
Pediatrician	101 (of 120)	84.2	103 (of 120)	85.8
OB/GYN	105 (of 132)	79.5	107 (of 133)	80.5
Cardiologist	49 (of 74)	66.2	52 (of 75)	69.3
ENT	27 (of 30)	90.0	17 (of 20)	85.0
<b>Providers accepting HUSKY:</b>				
<b>Overall</b>	<b>313 (of 414)</b>	<b>75.6</b>	<b>340 (of 413)</b>	<b>82.3</b>
Adult PCP	80 (of 132)	60.6	104 (of 134)	77.6
Pediatrician	90 (of 101)	89.1	92 (of 103)	89.3
OB/GYN	83 (of 105)	79.0	86 (of 107)	80.4

12 or more weeks	1	14.3	1	14.3	0	0.0

## Accepting New HUSKY members

The statistics calculated below are derived from the 262 providers in 2017 (over 262 providers in 2016) who reported to be accepting HUSKY insurance without requiring certain conditions to be met first (i.e., medical records, age, etc.) and were able to provide an appointment window at the time of the call.

Q11. How far out are you booking appointments for routine physicals (*Asked only of Adult PCPs and Pediatricians*)

	2015 # of responses (N=150)	2015 Percent	2016 # of responses (N=139)	2016 Percent	2017 # of responses (N=139)	2017 Percent
Less than 1 week	31	20.7%	35	25.2%	23	16.5%
1 to less than 2 weeks	37	24.7	34	24.5	45	32.4
2 to less than 3 weeks	29	19.3	28	20.1	20	14.4
3 to less than 4 weeks	0	0.0	0	0.0	1	0.7
4 to less than 5 weeks	17	11.3	20	14.4	15	10.8
5 to less than 6 weeks	6	4.0	7	5.0	6	4.3
6 to less than 7 weeks	7	4.7	2	1.4	6	4.3
7 to less than 8 weeks	4	2.7	2	1.4	2	1.4
8 to less than 12 weeks	7	4.7	6	4.3	8	5.8
12 or more weeks	12	8.0	5	3.6	13	9.4

Q12. How far out are you booking appointments? (*Asked only OB/GYNs, Cardiologists, and ENTs*)

	2015 # of responses (N=131)	2015 Percent	2016 # of responses (N=123)	2016 Percent	2017 # of responses (N=123)	2017 Percent
Less than 1 week	20	15.3%	27	22.0%	22	17.9%
1 to less than 2 weeks	50	38.2	30	24.4	33	26.8
2 to less than 3 weeks	33	25.2	30	24.4	27	22.0
3 to less than 4 weeks	0	0.0	0	0.0	6	4.9
4 to less than 5 weeks	9	6.9	19	15.4	18	14.6
5 to less than 6 weeks	7	5.3	2	1.6	7	5.7
6 to less than 7 weeks	4	3.1	1	0.8	1	0.8
7 to less than 8 weeks	3	2.3	5	4.1	2	1.6

### Supplemental Surveys:

Upon completion of the *2017 Mystery Shopper Survey*, GreatBlue conducted supplemental surveys among Person-Centered Medical Home Plus (PCMH+) Participating Entities. This was done in order to ensure all Participating Entities were represented in the survey. After the random sampling procedures concluded, three (3) Participating Entities were not included in the original sample. Thus, GreatBlue specifically targeted additional surveys for Cornell-Scott Hill Health Corporation, Optimus Health Care, Inc., and Generations Health Center, Inc. These additional calls were made on January 10 – 11, 2018.

As these completed surveys were not part of the original random sampling, they have not been included in the overall results. The results for these three (3) specific Participating Entities are presented below.

### **Supplemental Cross tabulation of All Practice Type Results by Person-Centered Medical Home Plus (PCMH+) Participating Entity**

#### **A) Practices Accepting New Patients by PCMH+ Participating Entity (PE) (before knowing caller was a HUSKY member)**

	<b>Cornell Scott-Hill Health Corporation (N=1)</b>	<b>Optimus Health Care, Inc. (N=1)</b>	<b>Generations Family Health Center, Inc. (N=1)</b>
Yes, Dr. X or other	100.0 (1)	100.0 (1)	100.0 (1)
No, for any reason	0.0 (0)	0.0 (0)	0.0 (0)

#### **B) Of PEs Accepting New Patients (from Chart A, above), What Percent Would Take New HUSKY Patients**

	<b>Cornell Scott-Hill Health Corporation (N=1)</b>	<b>Optimus Health Care, Inc. (N=1)</b>	<b>Generations Family Health Center, Inc. (N=1)</b>
Yes	100.0 (1)	100.0 (1)	100.0 (1)
No, for any reason	0.0 (0)	0.0 (0)	0.0 (0)
Yes, conditional	0.0 (0)	0.0 (0)	0.0 (0)
Not without referral	0.0 (0)	0.0 (0)	0.0 (0)

# APPENDIX 4

## HUSKY HEALTH PROGRAMS 2017 MYSTERY SHOPPER SURVEY

Researcher:

Date:

Time start:

CB:

Time end:

Supervisor:

**Researchers: If the provider is an APRN or NP, refer to them by their name, not “Dr. X.”  
For example: Mary Jones, not Dr. Jones.**

### Adult Primary Care - - Getting a new PCP

1. Hello, my name is <PROMPT NAME> and I need a new doctor for my regular care. Is Dr. X or someone else in the office taking new patients? (Researchers: If asked, DOB is 2/24/1992)
  - 01 Yes, Dr. X (If phone number is incorrect, record correct phone number and ask to be transferred): \_\_\_\_\_ (Continue)
  - 02 Yes, another doctor (record name): \_\_\_\_\_ (Continue)
  - 03 No (If comments offered): \_\_\_\_\_ (Call Ends)
  - 04 No, they are not a PCP/they are only a specialist (If comments offered):  
\_\_\_\_\_ (Call Ends)
  - 05 No, not at this site/only at a different location (Researchers: record location):  
\_\_\_\_\_ (Call Ends)
  
2. Great, do you take HUSKY insurance?
  - 01 Yes (Go to Q11)
  - 02 No (Go to Q13)
  - 03 Not accepting new HUSKY members (Q13)
  - 04 Other (If comments offered): \_\_\_\_\_ (Call Ends)

### Child Primary Care - - Getting a new PCP

3. Hello, my name is <PROMPT NAME> and I need a new pediatrician for my child for their regular care. Is Dr. X or someone else in the office taking new patients? (Researchers: If asked – child is 3 years old and DOB is 2/24/2014)
- 01 Yes, Dr. X (If phone number is incorrect, record correct phone number and ask to be transferred): \_\_\_\_\_ (Continue)
  - 02 Yes, another doctor (record name): \_\_\_\_\_ (Continue)
  - 03 No (If comments offered): \_\_\_\_\_ (Call Ends)
  - 04 No, they are not a PCP/they are only a specialist (If comments offered): \_\_\_\_\_ (Call Ends)
  - 05 No, not at this site/only at a different location (Researchers: record location): \_\_\_\_\_ (Call Ends)
4. Great, do you take HUSKY insurance?
- 01 Yes (Go to Q11)
  - 02 No (Go to Q13)
  - 03 Not accepting new HUSKY members (Q13)
  - 04 Other (If comments offered): \_\_\_\_\_ (Call ends)

### OB-GYN

5. Hello, my name is <PROMPT NAME> and I am calling because I am 3 months pregnant; I just moved here from out of state and I would like to see an OB-GYN. Is Dr. X or someone else in the office taking new patients? (Researchers, if asked: DOB: 2/24/1992; DATE OF LAST PERIOD: “about 3 months ago”; HAVE YOU HAD PRENATAL CARE YET: “No.” DUE DATE: “I don’t know, I haven’t had prenatal care yet.”)
- 01 Yes, Dr. X (If phone number is incorrect, record correct phone number and ask to be transferred): \_\_\_\_\_ (Continue)
  - 02 Yes, another doctor (record name): \_\_\_\_\_ (Continue)
  - 03 No (If comments offered): \_\_\_\_\_ (Call ends)
  - 04 No, they are not an OBGYN (If comments offered): \_\_\_\_\_ (Call Ends)
  - 05 No, not at this site/only at a different location (Researchers: record location): \_\_\_\_\_ (Call Ends)
6. Great, do you take HUSKY insurance?
- 01 Yes (Go to Q12)
  - 02 No (Go to Q13)
  - 03 Not accepting new HUSKY members (Q13)
  - 04 Other (If comments offered): \_\_\_\_\_ (Call ends)

## Cardiologist

7. Hello, my name is <prompt name> and I am calling because I just moved here from out of state and I have high blood pressure and am on medication. Is Dr. X or someone else taking new patients? (Researchers: If asked – don't currently know name of medication. If asked, DOB is 2/24/1967)
- 01 Yes, Dr. X (If phone number is incorrect, record correct phone number and ask to be transferred): \_\_\_\_\_ (Continue)
  - 02 Yes, another doctor (record name): \_\_\_\_\_ (Continue)
  - 03 No (If comments offered): \_\_\_\_\_ (Call ends)
  - 04 Not without a referral (call ends)
  - 05 No, they are not a cardiologist (If comments offered): \_\_\_\_\_ (Call Ends)
  - 06 No, not at this site/only at a different location (Researchers: record location): \_\_\_\_\_ (Call Ends)
8. Great, do you take HUSKY insurance?
- 01 Yes (Go to Q12)
  - 02 No (Go to Q13)
  - 03 Not without a referral (call ends)
  - 04 Not accepting new HUSKY members (Q13)
  - 05 Other (If comments offered): \_\_\_\_\_ (Call ends)

## ENT

9. Hello, my name is <prompt name> and I am calling because I just moved here from out of state and I have wax build up in my ear **again**. Is Dr. X or someone else taking new patients? (Researchers: If asked, DOB is 2/24/1992)
- 01 Yes, Dr. X (If phone number is incorrect, record correct phone number and ask to be transferred): \_\_\_\_\_ (Continue)
  - 02 Yes, another doctor (record name): \_\_\_\_\_ (Continue)
  - 03 No (If comments offered): \_\_\_\_\_ (Call ends)
  - 04 Not without a referral (call ends)
  - 05 No, they are not an ENT (If comments offered): \_\_\_\_\_ (Call Ends)
  - 06 No, not at this site/only at a different location: \_\_\_\_\_ (Call Ends)
10. Great, do you take HUSKY insurance?
- 01 Yes (Go to Q12)
  - 02 No (Go to Q13)
  - 03 Not without a referral (call ends)
  - 04 Not accepting new HUSKY members (Q13)
  - 05 Other (If comments offered): \_\_\_\_\_ (Call ends)

## Accepting New HUSKY members

11. How far out are you booking appointments for routine physicals? (Researchers: Don't read answer options. If asked, "When are you looking to book an appointment?" reply with: "First available.")
- 01 Less than 1 week
  - 02 1 to less than 2 weeks
  - 03 2 to less than 3 weeks
  - 04 4 to less than 5 weeks
  - 05 5 to less than 6 weeks
  - 06 6 to less than 7 weeks
  - 07 7 to less than 8 weeks
  - 08 8 to less than 12 weeks
  - 09 12 or more weeks

Thank you for the information, I will call back when I check my schedule. (Call Ends)

12. How far out are you booking appointments? (Researchers: Don't read answer options If asked, "When are you looking to book an appointment?" reply with: "First available.")
- 01 Less than 1 week
  - 02 1 to less than 2 weeks
  - 03 2 to less than 3 weeks
  - 04 4 to less than 5 weeks
  - 05 5 to less than 6 weeks
  - 06 6 to less than 7 weeks
  - 07 7 to less than 8 weeks
  - 08 8 to less than 12 weeks
  - 09 12 or more weeks

Thank you for the information, I will call back when I check my schedule. (Call Ends)

## Not Accepting HUSKY Patients

13. Oh, I saw your name on the HUSKY doctor list?
- 
- 

OK. Thank you anyway. (Call Ends)
