Supplemental Specifications to the
Standard Specifications – Form 816

February 1, 2007

To: CONSULTING ENGINEERS

The January 2007 Supplemental Specifications to the Standard Specifications for Roads, Bridges and Incidental Construction, Form 816, have been issued and are available on the Department's web site. All projects for which final plan submissions are scheduled after March 2007 are required to incorporate the new supplemental specifications.

Significant changes are summarized below:

- Supplemental Specification 110 incorporates language previously used as a special provision to address vehicle emissions standards for construction equipment.
- Supplemental Specification 1210 is revised to include a wet film thickness requirement for epoxy.

Very truly yours,

Thomas A. Harley, P.E.
