OFFICE OF ENGINEERING

Bridge Inspection Records

March 11, 2009

TO: CONSULTING ENGINEERS

Document security issues have necessitated a change in practice for acquisition for Bridge Inspection Records. Non-DOT personnel will no longer have access to original documents. Any request for such materials should be directed to your project manager. If your interest in the materials is the result of an active selection process by this Department, you are required to make a request through the Consultant Selection Office. If your interest is the result of a selection process by any other entity (i.e. town, municipality), your request should be to that particular entity. Also, check the website listings at [www.ct.gov.\dot](http://www.ct.gov/\dot) and follow the link for Doing Business with ConnDOT.

Very truly yours,

Thomas A. Harley, P.E.  
Manager of Consultant Design  
Bureau of Engineering and  
Highway Operations
