### Schedule J – Bonus Depreciation Recovery

Complete *Schedule J* if the corporation claimed the bonus depreciation under I.R.C. §168(k) for qualifying property, on its 2000 - 2006 federal Forms 4562, Depreciation and Amortization. For purposes of the Connecticut corporation business tax, the special deduction permitted under I.R.C. §168(k) was not allowed and depreciation must be calculated without regard to I.R.C. §168(k). *Schedule J* is used to account for the subtraction modification that must be made to federal net income (loss). For additional information, see **Special Notice 2002(10), Bonus Depreciation for Connecticut Corporation Business Tax Purposes**.

**Lines 1 through 6** - These lines are used to account for any qualifying assets placed in service during the corporation's income year(s) for which the bonus depreciation under I.R.C. §168(k) was claimed on federal Form 4562.

Enter in Column A the amount of MACRS depreciation claimed by the corporation on its 2007 federal Form 4562 with respect to those qualifying assets.

Enter in Column B the amount of MACRS depreciation allowed on those same assets for Connecticut corporation business tax purposes for the 2007 income year. Connecticut depreciation is determined under the Internal Revenue Code of 1986 without regard to I.R.C. §168(k).

Enter in Column C the difference between the amount claimed in Column B and the amount claimed in Column A.

**Line 7** - Add Lines 1 through 6 in Column C. Enter the total here and on **Form CT-1120, Schedule D**, Line 11.

**Example:** In March 2005, a corporation purchases a piece of equipment for \$100,000. Assume the equipment is MACRS 5-year property, the half-year convention applies, and no amount is expensed under I.R.C. §179. For federal tax purposes, the corporation claims the bonus depreciation under I.R.C. §168(k) in the amount of \$50,000 (\$100,000 x 50%). It then reduces its basis in the equipment to \$50,000 (\$100,000 - \$50,000) and uses that reduced basis to calculate its federal MACRS second year depreciation of \$16,000, (\$50,000 x 32%). For Connecticut corporation business tax purposes, the corporation must calculate the first year MACRS depreciation allowed for state purposes, using its state basis of \$100,000. This results in a state second year MACRS depreciation deduction in the amount of \$32,000 (\$100,000 x 32%). To properly complete *Schedule J*, the corporation must enter \$16,000 on Line 6, Column A; and \$32,000 on Line 6, Column B. The difference between the state MACRS depreciation (\$32,000) and the federal MACRS depreciation (\$16,000) is \$16,000, which must be entered on Line 6, Column C.
