

**Withholding Certificate for Pension or Annuity Payments**

**Purpose**

Form CT-W4P allows Connecticut residents who receive pensions or annuities to instruct the payer of the pension or annuity to withhold Connecticut income tax.

You are **not required** to have Connecticut tax withheld from your pension or annuity payments. However, you must make estimated Connecticut income tax payments if your Connecticut income tax (after tax credits) minus Connecticut income tax withheld is \$1,000 or more, and you expect your Connecticut income tax withheld to be less than your required annual payment.

Your required annual payment is the **lesser** of:

- **90%** of the income tax shown on your **2007 Connecticut income tax return**; **or**
- **100%** of the income tax shown on your **2006 Connecticut income tax return** if you filed a 2006 Connecticut income tax return that covered a 12-month period.

You do **not** have to make estimated income tax payments if:

- You were a Connecticut resident during the 2006 taxable year and you did not file a 2006 income tax return because you had no Connecticut income tax liability; **or**
- You were a nonresident or part-year resident with Connecticut source income during the 2006 taxable year and you did not file a 2006 income tax return because you had no Connecticut income tax liability.

If you were a nonresident or part-year resident and you did **not** have Connecticut source income during the 2006 taxable year, then you **must** use 90% of the income tax shown on your 2007 Connecticut income tax return as your required annual payment.

**Civil Unions**

Effective for taxable years beginning on or after January 1, 2006, parties to a civil union recognized under Connecticut law must file their Connecticut income tax returns as if they were entitled to the same filing status accorded spouses under the Internal Revenue Code. This means that for purposes of calculating their Connecticut income tax liability, parties to a civil union must recompute their federal income tax liability as married filing jointly or married filing separately. Parties to a civil union may not calculate their Connecticut income tax liability as single or, if applicable, head of household filers (although this will be their filing status for federal income tax purposes). Any reference

on this form to a spouse also refers to a party to a civil union recognized under Connecticut law.

**General Instructions**

Complete in blue or black ink only. If you wish to have Connecticut income tax withheld from your pension or annuity payments, you may either:

- Complete the worksheet on the back of this form to estimate how much income tax to have withheld, round to the nearest whole dollar but not less than \$10, and enter this amount on Line 1. (This option is for people who want to include all income in determining their withholding amount.); **or**
- If you know how much you want your payer to withhold from each payment, you may fill in a **whole dollar amount**, but not less than \$10, on Line 1.
