

State of Connecticut
OFFICE OF POLICY AND MANAGEMENT

REPORT TO THE GENERAL ASSEMBLY

Purchase of Service Contracts

Robert L. Genuario
Secretary
Office of Policy and Management
450 Capitol Avenue
Hartford, Connecticut 06106

Submitted December 21, 2007

**STATE OF CONNECTICUT
OFFICE OF POLICY AND MANAGEMENT**

December 21, 2007

The Honorable James A. Amann
Speaker of the House
Connecticut General Assembly

The Honorable Lawrence F. Cafero Jr.
House Minority Leader
Connecticut General Assembly

The Honorable Donald E. Williams, Jr.
President Pro Tempore
Connecticut General Assembly

The Honorable John McKinney
Senate Minority Leader
Connecticut General Assembly

This report fulfills the statutory responsibility of the Office of Policy and Management to report on the Purchase of Service contracting activity of state agencies pursuant to C.G.S. § 4-70b(c).

The statute generally provides that the Secretary of the Office of Policy and Management shall submit a report biennially to the General Assembly summarizing information regarding Purchase of Service contracts for the preceding fiscal year.

This report seeks to provide information to state legislators, policymakers, and the public about state agencies' Purchase of Service activity for fiscal year 2007.

We welcome your questions and comments.

Robert L. Genuario
Secretary
Office of Policy and Management

INTRODUCTION

Purpose

This document summarizes information regarding Purchase of Service (POS) contracts of state agencies for fiscal year 2007.

Background

A. Definition A POS contract is an agreement between a state agency and an organization for the purchase of direct human services to clients. The contract generally is not used for the sole purpose of purchasing administrative or clerical services, material goods, training and consulting services. POS contracts are used to contract with partnerships as well as a corporation but cannot be used to contract with individuals.

Using the Office of Policy and Management (OPM) contract template, an agency may enter into a POS contract for a single year or for multiple years. It may be either a competitive or non-competitive contract. The contractor may be a non-profit, proprietary or governmental entity. A single contract may cover a number of services and be amended for a variety of reasons during its term.

There are six major human service agencies in the current POS system; Department of Children and Families, Department of Correction, Department of Developmental Services, Department of Mental Health and Addiction Services, Department of Public Health, Department of social Services. In any given year these agencies purchase, through more than a thousand contractual agreements, a variety of community-based and institutional human services.

B. Statutes: POS

C.G.S. 4-70b requires the Secretary of the Office of Policy and Management to “establish uniform policies and procedures for obtaining, managing and evaluating the quality and cost effectiveness of human services purchased from private providers”. Further the Secretary is required to “ensure all state agencies which purchase human services comply with such policies and procedures” and to report biennially to the General Assembly on the status of the POS system.

C.G.S. 4-230 to 4-236 requires nonprofit organizations that receive more than \$100,000 in combined state and federal funds in any fiscal year to submit to a uniform audit within six months of the close of the contract. The Office of Policy and Management administers the State Single Audit for municipalities and non-profit entities. Additionally, the Secretary of OPM is required to “adopt regulations establishing uniform standards which prescribe the cost accounting principles to be used in the administration of state financial assistance by the recipients of such assistance”.

An Attorney General’s opinion dated November 9, 2005 stated that there is no legal distinction between a POS contract and a Personal Service Agreement (PSA). It also stated that the statutes that apply to PSAs, CGS 4-212 et seq., also apply to POS contracts. Subsequent to this opinion, OPM implemented a POS request system that requires agencies to submit requests to OPM prior to entering into POS contracts. Also, OPM is currently reviewing the competitive procurement process of state agencies for POS contracts.

C. Recent POS Activity

More than a decade since its inception, the POS project continues to build upon past standardization efforts. Examples of recent efforts include new core contract language, alternative contracting models and development of cost accounting standards.

New POS Contract Template

In 2004 OPM recommended that the core contract be reorganized and restructured to increase standardization and improve clarity. The goal was to implement uniform language based on common agency provisions and best practices to replace individual agency provisions.

The new template includes a Contract Summary face sheet, a Part I that contains specific provisions required by the agency relating to scope of services, contract performance, quality assurance and terms of payment, and a Part II that contains a greater number of standard contract provisions that are applicable to all agencies and all providers. Subheadings and a table of contents were also added to increase document readability. A copy of the template is available on OPM's website.

Multi-year Contracting

A review regarding the nature and number of single-year POS contracts was performed and recommendations made on conversion to multi-year contracts for those services that remain constant. Agencies have used single year contracts because the allocation of funds to support the programs occurs each year. In reality, a large number of POS contracts are considered "historical" and are re-funded each year. In most cases "historically funded" contractors do not stop providing services at the end of their contract term in anticipation of continued funding.

The primary benefits of multi-year contracting are the continued existence of a contractual document that can authorize the continuation of payments to the contractor between budget periods, and the potential to reduce the workload of state agency and private provider contracting staff.

The agencies have begun to use multi-year contracts for services that continue from year to year. The standard multi-contract should be for three years. There are circumstances, however, when single-year contracts are advisable. Contracts for new programs or with new contractors for continuing programs should be limited to one year. Contractors with a history of performance issues should be limited to single-year contracts until the state is satisfied that performance issues have been addressed.

Consolidated Contracts

Another contracting model increasingly being used is the consolidated or composite contract. State agencies are consolidating contracts with a contractor for multiple program services within a single agency. If a contractor provides services to three separate agency programs, service requirements for all three programs are combined in a single contract.

Cost Accounting Standards

The Office of Policy and Management is mandated to develop state-wide cost accounting standards for the purchase of human services from private providers. In September 2006, OPM issued statewide cost standards for POS contracts. This document establishes standards for determining the costs of contracts, grants, and other agreements with organizations that receive funding from the State of Connecticut. These cost standards must be used by all State agencies in determining the costs incurred by organizations under State awards. The cost standards were also referenced in the latest Compliance Supplement of the State Single Audit. A copy of the cost standards is available on OPM's website.

Scope and Methodology

This report describes the contracting activities of executive branch agencies with respect to Purchase of Service contracts. Activities of the legislative and judicial branches of state government are excluded from this discussion.

The data represented in this report was captured from Core-CT, the statewide financial system for the State of Connecticut. Agencies are required to enter POS contracts into the procurement contracts module within Core-CT. Core-CT EPM queries were utilized to extract the contract data for this report.

OPM summarizes the information obtained from Core-CT and submits an annual report to the General Assembly. The data in this report represents POS contracts that were in effect during FY2007. POS contracts can range from a few months to several years in duration. Accordingly, the total dollar amount of a POS may represent several years of activity. Also, many POS contracts overlap during a fiscal year. For example, if a POS contract ends December 31st and a new contract starts with the same provider on January 1st, then two contracts (and two contract amounts) would be included in this report. Due to these factors, this report represents several years of POS contracting activity, not just annual activity.

The payment amounts presented in this report are payments made by State agencies to Purchase of Service contractors during FY2007.

Inquiries

For further information concerning the detailed contract data included in this report, contact the contracting state agency as follows:

Children's Trust Fund	Karen Foley-Schain	418-8765
