

List of Acceptable Foods and Beverages

LIST 14 ENTREES

Foods are evaluated for compliance with the Connecticut Nutrition Standards (CNS) based on the amount **as served** including any **added accompaniments** such as butter, margarine, salad dressings, dips, sauces, ketchup and mustard, e.g., chicken nuggets with dipping sauce, hamburger with ketchup, mustard and relish, and tacos with taco sauce. The Connecticut State Department of Education (CSDE) encourages schools to review the nutrient content of allowable products, and select the most nutrient-rich products that also meet the "Better Choice" recommendations (see green and white columns on right). **The CSDE strongly encourages schools to offer a la carte food choices that include a variety of minimally processed and naturally nutrient-rich whole foods such as fruits, vegetables, whole grains, low-fat or nonfat dairy, lean meats and legumes.**

Product formulations and packaging can change. **The nutrition information below is based on the package label or manufacturer information supplied at the time of product review.** If this information does not match the product label, please submit the product's nutrition information to the CSDE. For more information, see *Submitting Food and Beverage Products for Approval* (<https://portal.ct.gov/-/media/SDE/Nutrition/HFC/FBlist/SubmitProduct.pdf>).

The CSDE's *List of Acceptable Foods and Beverages* is updated regularly and is subject to change. To assist in identifying new items added since the previous edition of this list, the manufacturer and food item (first two columns) of all new items are highlighted in pink. For contact information for listed vendors, see *Contact Information for Vendors* (<https://portal.ct.gov/-/media/SDE/Nutrition/HFC/FBlist/VendorContact.pdf>).

NOTE: The approval below is only for the **entree product as listed**. If the entree is sold a la carte combined with any other food item (e.g., chicken patty with whole-grain bun, hummus with crackers or meatballs with tomato sauce) the nutrition information for that food item must be added to the nutrition information for the entree item to determine if the complete entree item as sold still complies with the CNS.
