WORKSHOP OVERVIEW

WFB is an interactive workshop that provides menu planners with an overview of the SBP meal pattern requirements. The workshop length is three hours.

WFL helps school foodservice personnel:

- understand the meal pattern requirements for breakfast, including components, serving sizes and specific crediting criteria;
- identify noncreditable foods;
- understand the four dietary specifications that school breakfasts must meet and resources to help implement them;
- understand how to implement Offer versus Serve (OVS) and identify reimbursable meals; and
- gain confidence in their ability to provide staff training and communicate information about the SBP meal pattern requirements to food service colleagues, school staff, students and families.

The [WFB Instructor Training Agenda](#) provides detailed information on the workshop format, time frame and materials. The following pages summarize the WFB resources and materials that are available on the CSDE's [Meal Pattern Training Materials](#) Web page, including the instructor training resources and background information, and participant handouts.

The CSDE recommends printing these materials and placing in a three-ring binder for easy reference. The first page of this document provides a cover for the instructor manual.
